Mtn. Home, ID 83647

Dear Mr. Hall:

We are in receipt of your letter dated April 17, 1984, regarding the above referenced permtt. We are also in receipt of the assignments of water permit, from the Rice's to Robert Rhead.

I am, however, returning the assignments to you. On October 20, 1971, our office received an assignment of this permit from the Rice's to the Rhead's (copy enclosed). Therefore, the information you provided us is not necessary.

I am also enclosing a copy of another assignment that we received on August 10, 1972, wherein Claude E. & Sarah I. Rhead assigned all right, title and interest in this permit to the Travelers Insurance Co. &/or Claude E. & Sarah I Rhead. Due to this assignment, Robert Rhead is no longer a holder of this water permit and cannot sign the amendment form we requested in our first correspondence regarding the licensing of this permit (a copy of that letter is also enclosed for your information).

In order for our office to finalize the licensing of Permit No. 02-2379 we need either an assignment that includes Robert Rhead as a holder of this permit or we need Claude E. & Sarah I. Rhead &/or a representative of The Travelers Insurance Company to sign the enclosed amendment of permit form.

If we do not hear from you, or one of the current permit holders, by May 25, 1984, we will have no alternative but to continue with the cancellation of this permit as stated in the Order to Show Cause (copy enclosed) that was sent to the permit holders on August 17, 1983.

Dear Mr. Rhead & Ms. Rhead:

One of the conditions of approval of your water Permit No. 02-2379 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before September 13, 1976. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. DECISION

Assignee: Marlene D. Rhead

Assignor: Donald J. Rice

Desert Land Entry

Assignment Approved

On October 7, 1968, the above entryman (assignor) was allowed desert land entry, I- 015928, on the following lands:

T. 5 S., R. 7 E., B. M., Idaho

Sec. 25, S $\frac{1}{2}$ N $\frac{1}{2}$, N $\frac{1}{2}$ SW $\frac{1}{4}$, NW $\frac{1}{4}$ SE $\frac{1}{4}$;

Sec. 26, NE $\frac{1}{4}$ SE $\frac{1}{4}$.

On November 15, 1971, the entryman (assignor) filed a deed assigning all of his right, title and interest in the entry to the assignee named above. The assignee has filed an affidavit showing that he is qualified to accept an assignment of and hold a desert land entry.

A review of the case file indicates the entry is now in good standing so far as the record shows. However, this office does not attest to the full compliance with the desert land laws as presently reflected by the case record.

The Secretary, Department of the Interior, has set out certain criteria which are now applicable to each entryman. As the assignee is now the entryman of record these criteria are applicable to him. The entry must be reclaimed for his own benefit; the entry may not be assigned to a corporation; the entryman may not, before receiving patent, enter into any arrangement to transfer title to the land after patent is issued; the entryman may not enter into any arrangement which has the effect of permitting anyone to hold more than 320 acres of desert entry land; and the entryman must expend his own money on the necessary irrigation, reclamation and cultivation of the entry or incur a personal liability for any money so expended.

The assignment is hereby approved and the records of this office are noted to show that the assignee is the entryman for the lands assigned under the above-identified desert land entry. The remaining compliance to be met on this entry and the due dates are shown below:

Dear Mrs. Rice:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department; previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

Re: Water Application No. 40663
Permit No. 32510

Gentlemen:

I represent Robert C. Rice, Donald J. Rice, Jeanette C. Rice and Donalda N. Rice in connection with the above application number and permit number. Each of these persons have filed for land under the Desert Land Entry and in connection with this, it is necessary that the water which they are entitled to develop under the above permit number be separated between the various applicants to show that each applicant has a permit to develop a specified quantity of water. I am writing to inquire if you have assignment forms or some other form which might be executed to effect a division of the waters under this permit so that each of the applicants have a separate permit for a specified quantity of water. I would certainly appreciate your forwarding to me forms to accomplish this and any instructions which might be helpful to us in accomplishing this purpose would be greatly appreciated.

I wish to thank you in advance for your kindness and courtesy.

Dear Mr. Hepworth:

Thank you for your letter of April 18, 1968. Permit No. 32510 can be divided among the original owners by means of assignment. The assignment must list the party to whom all of the permit holders are assigning a portion of the permit. It must include a quantity of water, the point of diversion, a specific land list and must be signed by all four parties of the application and their respective husbands or wives. The signature must also be notarized and the assignment dated. The department no longer has a fee for recording the assignment. Please contact us if we may be of further assistance.
