Dear Mr. Higginson:

Enclosed is a voucher in the amount of \$7.00, the required fee for Permit No. 32471. Please sign and return the voucher for prompt payment.

As evidenced by the depositions submitted by this office in connection with proof of beneficial use, we are not in complete agreement with the acreage irrigated figure found by your examiner. In view of the fact that the quantity of water involved is not significant and probably cannot be measured in Snake River near the point of diversion, we are submitting the required fee without further comment.

Dear Sir:

Under the terms of your Permit No. 32471 you are required to complete your diversion works on or before August 13, 1966. I enclose blank affidavit to be filled out, sworn to by you before a Notary Public, or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, [REDACTED] a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.
