NOTICE OF EXISTING WATER PERMIT

Notice is hereby given that David and Glenn Allen, dba Allen Brothers, Route #4, Nampa, Idaho, have received an approved permit No. 32308/02-2368 issued by the Idaho State Reclamation Department authorizing the diversion of 10.0 cubic feet per second of water from the Snake River subject to all prior rights. The priority to be established under this permit is April 8, 1965, and the permit was approved April 9, 1965. Water is to be diverted by pump, ditches, siphon and sprinklers from a point within the NW1/4SE1/4, Sec. 36, T. 1 N, R. 3 W, B.M., Canyon County to be used for irrigation in the N1/2, SE1/4, N1/2SW1/4, SW1/4SW1/4, Sec. 36, T. 2N, R. 3W, B.M. Proof of the application of the water to beneficial use is to be submitted to the department on or before April 9, 1976. Any protests against the issuance of a license for the above referenced permit should be filed with the Department of Reclamation within ten (10) days of the last date of publication of this notice or prior to the licensing of the permit. Licensing may commence prior to the date beneficial use proof is due without further notice.

CONDITIONS OF APPROVAL
Transfer of Water Right
No. 02-02280/02368/02422, 63-03593

1. The change authorized by this transfer shall be accomplished within one (1) year of the date of this approval.
2. Failure to comply with the conditions of this transfer is cause for the director to issue an order to show cause why the approval of the transfer should not be rescinded.
3. Approval of this transfer does not preclude the opportunity for review of the validity of the water right(s) in the ongoing Snake River Basin Adjudication.
4. Use of water under these rights is subject to the provisions of an Agreement and Stipulation between the water right holder and protestants dated 8/3/92.
5. The water right holder shall maintain a bi-directional flow meter in the line between Section 36, T2N, R3W and Section 31, T2N, R2W, B.M. This meter shall be open for inspection by the Hat Butte Canal Co. ditch rider and by the Department.
6. There shall be no net exchange of water between the above-referenced sections, as determined during each two week period when the Hat Butte system is delivering water to Hat Butte members.
7. These rights are limited to a combined annual volume of 2790.0 acre feet from the Snake River and 832.5 acre feet from groundwater.
8. These rights when considered separately are limited to the irrigation of the following number of irrigated acres in a single irrigation season:

02-02280	40 acres
02-02368	493 acres
02-02422	87 acres
63-03593	185 acres

License of Water Right No. 32308/02-2368 Priority April 8, 1965 Amount 9.86 cfs

THIS IS TO CERTIFY, that David and Glenn Allen dba Allen Brothers
of Nampa, Idaho, has complied with the terms and conditions of Permit
No. 32308/02-2368 issued pursuant to Application for Permit dated April 8, 1965,
and has submitted proof to the Department of Water Resources on February 4, 1976,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 12.44 cfs of water from the Snake River,
tributary to the Columbia River, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
<u>Irrigation</u>	from <u>March 15</u> to <u>Nov. 15</u>	at <u>9.86</u> cfs and	<u>2,218.5 acre feet</u> or <u>4.5 af per acre</u>
	from _____ to _____	at _____ cfs and	_____
	from _____ to _____	at _____ cfs and	_____

(both dates inclusive)

Subject, however, to the condition that no more than 9.86 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
2,218.5 acre feet per year, said waters to be diverted within the NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Sec. 36,

5 memoranda, and notes between you and any other member of the
6 Hat Butte Select Members that relate to the operation or
7 maintenance of the Hat Butte system.

8 INTERROGATORY NO. 14: Pursuant to its application for
9 transfer of a water right, if Harvest Farm Co. receives and
10 uses only that amount of water which has historically been
11 delivered to the Allen Place through the Hat Butte system, how
12 are you injured?

13 REQUEST FOR ADMISSION NO. 1: Please admit that the
14 Hat Butte system does not deliver the total amount of water
15 which it is capable of delivering during any two week period
16 that the system is in operation.

17 INTERROGATORY NO. 15: If your answer to Request for
18 Admission No. 1 is anything other than "Admit", please
19 identify, beginning with the date of the first delivery, what
20 you claim the system is capable of delivering for each
21 consecutive two week period in terms of rate of diversion and
22 total volume of water and what the Hat Butte system has
23 delivered for each consecutive two week period of the
24 irrigation season beginning with date of first delivery for the
25 years 1985-1991.

26 REQUEST FOR ADMISSION NO. 2: Please admit that during

16 INTERROGATORY NO. 18: What is the capacity of the Hat
17 Butte system for each two week period of the irrigation system?

18 REQUEST FOR ADMISSION NO. 3: Please admit that the
19 more efficiently the Hat Butte system is operated, the lower
20 energy costs per acre foot of water delivered will be.

21 INTERROGATORY NO. 19: If your answer to Request for
22 Admission No. 3 is anything other than "Admit", please explain
23 why this is not true.

24 REQUEST FOR ADMISSION NO. 4: Please admit that each
25 member of the Tenancy-In-Common has paid for its share of the
26 costs for construction of the Hat Butte system.

REQUEST FOR ADMISSION NO. 5: Please admit that the construction costs for the Hat Butte system have been completely paid for in full.

INTERROGATORY NO. 20: Please explain how the operation of the Harvest Farm Co. commingled system would allow Harvest Farm Co. to avoid sharing in the operation and maintenance costs based on the 75% power/25% ownership formula for costs.

REQUEST FOR ADMISSION NO. 6: Please admit that shifting demand for water from periods of high demand to periods of lower demand and thus creating a more even flow of water results in more efficient use and less costs.

INTERROGATORY NO. 21: If your response to Request for Admission No. 6 is anything other than "Admit," please explain why this is not true.

REQUEST FOR PRODUCTION NO. 13: Please produce a copy of any certificate of stock that you have in the Hat Butte Mutual Canal Company.

RE: Application for Transfer of Water Rights Nos. 02-02280, 02-02368, 02-02422, and 63-03593 on the Allen/Naito Property, in the Name of Harvest Farms Co.

Dear Bruce:

We are in receipt of your letter dated May 29, 1990, in which you proposed that Harvest Farms Company install a totalizing flow meter in the pipeline between the Allen Place and the Naito property, with the intent of allowing no net exchange of water between the two pieces of property. Your letter was accompanied by a copy of a letter of the same date from Sherl Chapman to Norm Young, which reiterates the efficiencies gained by operating the Allen and Naito systems in a connected manner, but does not address the fact that this diversion system constitutes the unauthorized expansion of places of use of water rights.

The response that we have received from the protestants to the application for transfer regarding your proposal is that it is not acceptable in that it allows for the placement of Snake River water on the Naito property without proper approval. This assessment is consistent with state water law regarding the place of use of water.

Accordingly, the Department requires that from now until either an approval of the proposed transfer is issued, or an agreement is made between the parties in this matter, the Naito land can be irrigated only at the instants when the Naito well is pumping. This will ensure that Snake River water is not placed on the Naito property, because the capacity of the Naito well exceeds the flow requirements of the sprinkler system on the Naito property. Irrigation of the Naito property at a time when the Naito well is not pumping will be considered to be illegal use of water, and will be cause for the initiation of enforcement action by the Department. Interested parties in this matter are being requested to assist in the policing of this requirement via the mailing of copies of this letter.

Regarding our discussion in May with respect to the West End Project, we are still awaiting the Harvest Farms Co. proposal as to the place of use of Snake River water. Please provide this proposal no later than Friday, June 22, 1990, so that your input can be considered prior to the Department taking further action in this matter.

RE: Application for Transfer of Water Rights Nos. 02-02280, 02-02368, 02-02422, and 02-03593 in the Name of Harvest Farms Co., Notice of Conference
C-3

Dear Interested Party:

The above-referenced application for transfer proposes changes in the points of diversion and places of use at a farming operation known as the Allen/Naito property. Recently the Department mailed a letter to protestants of the application, which specified the principle items we can consider in review of the application and suggested that protestants attempt to resolve this matter directly with the applicant within twenty (20) days.

An associated item of concern at the Allen/Naito property is a proposed injection well, no. 63-W-34. Earlier this week the Department arranged for a conference to be held relative to the injection well at the main office of the Department, located at 1301 N. Orchard, at 1:00 pm on Wednesday, May 23.

The purpose of this letter is to advise you that in the interest of efficiency, because many of the protestants to the injection well are also protestants to the Application for Transfer, the Department will conduct a water right conference regarding the Application for Transfer immediately following the discussion regarding the proposed injection well. The purposes of the water right conference are to more thoroughly define the issues of protest, to discuss potential resolutions of these issues, and to establish a timeline for further activities in this matter.

Due to the shortness of notice in this situation, if you are not able to attend the conference you will have an opportunity to provide written comment on these issues, to be received by this office no later than May 29, 1990.

Sincerely,

David R. Tuthill, Jr., P.E.

Dear Sirs:

One of the conditions of approval of your water Permit No. 02-2368 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before April 9, 1976. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Gentlemen:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department, stating that you have been issued a permit. ~~and are now submitting proof of beneficial use.~~ Previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

RE: Application No. 40456

James E. Schiller
Attorney at Law
P. O. Box 21
Nampa, Idaho

Dear Mr. Schiller:

Mr. Yale B. Holland has today relinquished Permit No. 31057 for 7.0 c.f.s. of water held by Feed Service Company.

This same day, acting as agent, for Glenn and David Allen has made application No. 40456 for 10 c.f.s. of water which is to be applied to the Frost land, now being purchased by the later parties.

This application will be processed and mailed to Glenn Allen as soon as signed by the proper State Officials which should be within the next two weeks.

Enclosed you will find receipt No. 32721 issued in the amount of \$7.25 for the filing fee of the above mentioned application.

Very truly yours,

RALPH W. THOMAS, Deputy
State Reclamation Engineer
