

**NOTICE OF EXISTING
WATER PERMIT**

Notice is hereby given that The Travelers Insurance Co., 707 S. W. Washington St., Portland, Oregon, has received an approved Permit No. 32291/02-2367 issued by the Idaho Department of Water Administration authorizing the diversion of 24.8 cubic feet per second of water from the Snake River. The priority to be established under this permit is March 22, 1965, and the permit was approved March 26, 1965.

Water is to be diverted by pumps, pipe and ditches from a point within the NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 23, T. 5S, R. 7E, B. M. Elmore County to be used for irrigation purposes in the SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 11; NW $\frac{1}{4}$, Sec. 16; W $\frac{1}{2}$ NE $\frac{1}{4}$, W $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 22; SW $\frac{1}{4}$, Sec. 23; SE $\frac{1}{4}$, Sec. 24; T. 5S, R. 6E, B. M.

Proof of the application of the water to beneficial use was submitted to the Department on November 30, 1971. Any protest against the issuance of the license for the above referenced permit should be filed with the Idaho Dept. of Water Administration, Statehouse, Boise, Idaho, 33707, within ten (10) days of the last date of publication of this notice.

WATER RIGHT LICENSE

License of Water Right No. 32291/02-2367 Priority March 22, 1965 Amount 12.92 cfs

THIS IS TO CERTIFY, that The Travelers Insurance Company
of Portland, Oregon, has complied with the terms and conditions of Permit
No. 32291/02-2367 issued pursuant to Application for Permit dated March 22, 1965,
and has submitted proof to the Department of Water Resources on November 30, 1971,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 87.11 cfs of water from the Snake River,
tributary to the Columbia River, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
<u>Irrigation</u>	from <u>March 1</u> to <u>Oct. 31</u>	at <u>12.92</u> cfs and	<u>2,907 acre feet or</u> <u>4.5 af per acre</u>
	from _____ to _____	at _____ cfs and	
	from _____ to _____	at _____ cfs and	

(both dates inclusive)

Subject, however, to the condition that no more than * 12.92 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
2,907 acre feet per year, said waters to be diverted within the NW $\frac{1}{4}$ SW $\frac{1}{4}$ of Sec. 28,

ORDER MODIFYING REQUIREMENTS
FOR COMPLETION OF PERMIT TO
APPROPRIATE WATER

WHEREAS, the 39th Idaho Legislature made certain amendments to the Idaho Water Law; and,

WHEREAS, these changes raised questions as to the procedures to be followed by holders of permits issued prior to the effective date of the amendments, May 31, 1967; and,

WHEREAS, on August 1, 1968, the Department of Water Administration adopted Rules of Practice and Procedure for the processing of such permits issued prior to May 31, 1967; and,

WHEREAS, Permit No. 32289 was issued previous to that date;

NOW THEREFORE, the requirements for completion of the above numbered permit are hereby modified to conform to the adopted Rules of Practice and Procedure as follows:

1. The above numbered permit will be completed under the terms of Title 42, Chapter 2, Idaho Code, as amended by the 39th Idaho Legislature.
2. The conditions of the above numbered permit are modified as follows:
 - a. Notice of the issuance of the permit will be published at the permit holders expense for two weekly issues in the official newspaper of the county in which the point of diversion lies.
 - b. The permittee will not be required to submit proof of completion of works as originally specified, but will be required to submit proof to the Department of Water Administration of the application of the water to beneficial use on or before March 26, 1976. The permit holder should be aware that failure to complete one-fifth (1/5) of the works within one-half (1/2) of the time originally set for completion of works may be grounds for cancellation at the instance of the Department.

RE: Transfer No. 4881
Water Right Nos. 02-02269/02-02367

Dear Water Right Holder:

Enclosed is a copy of your approved Transfer of Water Right for the above referenced water rights (Transfer No. 4881). Please be sure to thoroughly read the Conditions and Remarks listed on the transfer.

The accompanying **transfer approval** should be considered and treated as a **preliminary order** of the department issued pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the department unless a party petitions for reconsideration within fourteen (14) days after issuance as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, this preliminary order will become a final order of the agency.

If any party appeals or takes exceptions to this preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Director. The Director retains the right to review the preliminary order on his own motion.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties, if any, to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

MEMORANDUM

TO: FILE NOS. 02-2269 & 02-02367

FROM: PAM SKAGGS/²²STATE OFFICE

SUBJECT: TRANSFER NO. 4881

DATE: October 21, 1996

Transfer No. 4881 was filed to change the place of use of 100 acres within the system under Right Nos. 02-02269 and 02-02367. Although the change was not specifically noted in the advertisement, the legal description of the point of diversion was corrected to reflect the actual location per the application; no physical change is made. 100 acres are being removed from land currently under CRP that will no longer be irrigated. Proof of irrigation prior to CRP was provided.

These two rights were developed from the same system and the second right, 02-02367, was for additional acres only. When combined with the original right it is limited to the diversion rate of 87.11 cfs licensed under 02-02269. The approval describes the single combined system serving 6291 acre permissible place of use.

Season of use and diversion volume were adjusted to current standards. Recommended conditions include totalizing measuring device, future annual reporting, irrigation overlap, right-of-way, combined limits, permissible place of use and standard transfer conditions.

Dear Mrs. Neville:

This office has received your letter requesting release of the assignments in connection with the above referenced licenses.

Please be advised that the Department has no procedure for changing the name on a license once it has been issued. When a license is issued it becomes appurtenant to the land and ownership is automatically conveyed with the land unless it is withheld in the sales transaction. Therefore, the owner of the land controls the license.

We will, however, place your letter in our files for future reference. Your enclosures are herewith returned.

Dear Mr. Ringert:

You recently requested extensions of time on the South Elmore Irrigation Company's project covered by the above referenced permits.

We agree with the statement in your June 20, 1975, letter that the project is of sufficient size to have qualified for an extension of time. However, an extension was not requested and, to the contrary, the permit holder on September 9, 1968, for Permit 02-2269 and November 30, 1971, for Permit 02-2367 submitted affidavits that the project was completed and the water was being used to the full anticipated amount.

On August 16, 1973, the Department conducted a field examination of the project with a representative of the Irrigation Company present. It wasn't until after the determination by our examiner that the output of the pumps was less than the permitted amount that dissatisfaction over the amount of water available was expressed. We can, therefore, see no basis for granting an extension of time on the project. The amount of water produced by the pumps was apparently felt to be sufficient when the proofs of beneficial use were filed in 1968 and 1971.

Your request for extensions of time on Permits 02-2269 and 02-2367 are, therefore, hereby denied.

The licenses on these permits have been issued this date; copies are enclosed for your files.

Re: South Elmore Irrigation Company
Permit No. 31802/02-2269
Permit No. 32291/02-2367

Dear Mr. Fleenor:

Conversion of the South Elmore Irrigation Company irrigation system from natural gas power to electrical power is substantially completed and the officials of the Company indicate to me that the conversion has resulted in increased delivery capacity.

It appears to me that, because the gas-powered pumps apparently were unable to utilize the full capacity of the transmission facilities, the conversion to electrical power should be regarded as additional construction for the purpose of bringing the system as close as possible to full capacity. Since the system diverts more than 25,000 acre feet in each irrigation season and the diversion is for a project of more than 5,000 acres, it seems to me that the above numbered permits would qualify for a one-year extension for completion of construction and application of the water to beneficial use. If the five-year period for completion of works is regarded as being in effect with respect to these permits, then the extension for completion of works would be seven years from April 6, 1969 under Permit 31802 and seven years from March 26, 1970 for Permit No. 32291.

Therefore, on behalf of South Elmore Irrigation Company, request is hereby made for an extension to April 6, 1976 for

Mr. Bobby D. Fleenor

completion of works and application to beneficial use under Permit No. 31802 and for an extension to March 26, 1977 for completion of works and application to beneficial use under Permit No. 32291.

Dear Mr. Kiser:

Your October 5 request to delay the issuance of licenses for Permit No.'s 02-2269 and 02-2367 has been received.

A representative of the Irrigation Company was present during the examination, and it was our impression that the system was operating at its maximum capacity. However, we will delay the licensing of these permits until we hear further from you.

Sincerely,

Dear Mr. Fleenor:

Re: Permit Nos. 31802/02-2269
32291/02-2367

I write in response to your letter of September 21, 1973 addressed to the Travelers Insurance Co. regarding the above permits.

It appears that the South Elmore Irrigation Co. system was not being operated in the usual and normal manner when a representative of your office made measurements of the amount of water being diverted pursuant to such permits.

Please do not proceed with issuing the water license for such permits until I have had an opportunity to check into this matter and review it further with you.

Yours very truly,

A. C. Kiser

Gentlemen:

A representative of this Department has made an examination of the works covered by the above referenced permits and has found the following:

Permit #31802/02-2269

Quantity of water diverted: 87.11 cfs

Amount of water that can be recognized as beneficially used under Idaho law: 87.11 cfs

The maximum quantity diverted shall not exceed 25,402.5 acre feet per year.

Beneficial use: See attachment (*irrigation of 5,645 acres*)

Point of diversion: NW1/4SW1/4 Sec. 28, Twp. 5 S, Rge. 7 E, B.M.

Source: Snake River

Priority date established: February 19, 1964

Permit #32291/02-2367

Quantity of water diverted: 87.11 cfs

Amount of water that can be recognized as beneficially used under Idaho law: * 12.92 cfs

The maximum quantity diverted shall not exceed 2,907 acre feet per year.

Beneficial use: Irrigation of 646 acres within the SE1/4SW1/4, Sec. 11; NW1/4 Sec. 16; W1/2NE1/4, W1/2SE1/4 Sec. 22; SW1/4, Sec. 23; SE1/4 Sec. 24; Twp. 5 S, Rge. 6 E, B.M.

2 2367

Point of diversion: NW1/4SW1/4 Sec. 28, Twp. 5 S, Rge. 7 E, B.M.

Source: Snake River

Priority date established: March 22, 1965

* Subject to the condition that the maximum rate of diversion shall not exceed 87.11 cfs when combined with License No. 31802/02-2269.

If you do not concur with these findings, please advise us within 10 days; otherwise, water licenses will be issued as set forth in this letter.

System Description for Permits 02-2269 & 02-2367

River Diversion:

Four 1800 hp White Superior (Mod. 16VGT) 16 cyl., Natural Gas Turbine engines. Each are rated at 12,000 g/p.m. at 820 r.p.m. They were running at 800 r.p.m. during exam.

Each engine discharges into one of two 36" penstocks lifting the water 500' to a concrete ditch (16' across top, 4' across bottom, 5' deep) running a distance of seven miles.

At an intermediate point on the canal system are several holding ponds from which the water is relifted to a second canal by four 570 hp White Superior (Model 3G825) 8 cyl. Gas Engines. The water is lifted through one 36" penstock a vertical distance of 140' to the second canal.

Along the canal system are 30 lift pumps (7 on the lower canal, 23 above) which supply water to the sprinkler systems.

Mr. J. H. Sackett, Mgr.
Farm Loan Division
The Travelers Insurance Co.
707 S.W. Washington St.
Portland, Oregon 97205

Dear Mr. Sackett:

We acknowledge receipt of the assignments in connection with the above referenced permits. The assignments have been recorded and the Department's records changed accordingly; we are enclosing copies of the permits and assignments for your files.

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water. The enclosed orders modify Permits No. 02-2365 and 02-2367 to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a newspaper as prescribed by the Department. If you will complete and return the enclosed advertising authorizations, we will cause the notices to be published. Please note that proof of beneficial use is due on or before March 26, 1976, under these two permits.

As to the status of the other two permits, proof of beneficial use is due on or before January 21, 1976, under Permit No. 02-2345 and Permit No. 02-2269 is ready to be licensed as soon as the Department has conducted a field examination.

If you have any questions regarding these permits or if we may be of further assistance, please contact us.
