Re: Permit No. 32048

Mrs. Thomas E. Greer
Box 326
Bonners Ferry, Idaho

Dear Mrs. Greer:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department, stating that you have been issued a permit ~~and are now submitting proof of beneficial use.~~ Previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

Very truly yours,

Donald W. McEldeaney

DECISION

Thomas E. Greer :
Eulalia M. Witherspoon : Desert Land Applications
Delmar Mecham :

Applications Held for Approval
Additional Evidence Required

The lands included in the above indicated applications have been classified as suitable for entry under the desert land act.

Two of the applicants, Messrs. Greer and Mecham, plan to divert water from the Snake River from a point in the SW $\frac{1}{4}$ Sec. 31, T. 5 S., R. 6 E. Mrs. Witherspoon also plans to divert water from the Snake River but from a point in the SE $\frac{1}{4}$ Sec. 36, T. 5 S., R. 5 E. Each of the applicants must submit evidence showing that they have obtained permanent easements or rights-of-way to cross the lands from the points of diversion to the land included in their proposed entries. This may require the obtaining of easements or rights-of-way from both Federal and State agencies, and possibly private landowners. The State water appropriation permits of Mr. Greer, permit number 27914, and of Mr. Mecham, permit number 27916 were issued on May 4, 1959. The completion of works date expired on May 4, 1964. These two applicants must submit evidence that the permits are still in effect and that the completion date has been extended.

The applicants are allowed 30 days from receipt of this decision to comply with the above requirements. Failure to comply within the time allowed will result in the rejection of the applications and closing of the cases without further notice.

This decision becomes final 30 days from its receipt unless an appeal to the Director of the Bureau of Land Management is filed. If an appeal is taken, it must be filed in the Land Office, Boise, Idaho, and the amount of the filing fee will be \$5.00 for each application. In taking an appeal there must be strict compliance with the regulations in 43 CFR Subparts 1840 and 1842 (see enclosed Form 1842-1). If an appeal is filed the appellant will have the burden of proving by presenting positive and substantial evidence wherein the decision appealed from is in error.
