ORDER MODIFYING REQUIREMENTS
FOR COMPLETION OF PERMIT TO
APPROPRIATE WATER

WHEREAS, the 39th Idaho Legislature made certain amendments to the Idaho Water Law; and,

WHEREAS, these changes raised questions as to the procedures to be followed by holders of permits issued prior to the effective date of the amendments, May 31, 1967; and,

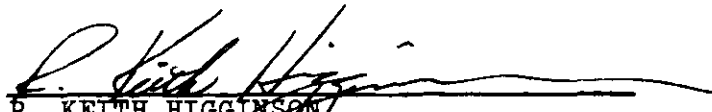

WHEREAS, on August 1, 1968, the Department of Reclamation adopted Rules of Practice and Procedures for the processing of such permits issued prior to May 31, 1967; and,

WHEREAS, Permit No. 31753 was issued previous to that date;

NOW THEREFORE, the requirements for completion of the above-numbered permit are hereby modified to conform to the adopted Rules of Practice and Procedures as follows:

1. The above-numbered permit will be completed under the terms of Title 42, Chapter 2, Idaho Code, as amended by the 39th Idaho Legislature.
2. The conditions of the above-numbered permit are modified as follows:
 - a. Notice of the issuance of the permit will be published at the permit holders expense for two weekly issues in the official newspaper of the county in which the point of diversion lies.
 - b. The permittee will not be required to submit proof of completion of works as originally specified, but will be required to submit proof to the Department of Reclamation of the application of the water to beneficial use on or before March 6, 1974. The permit holder should be aware that failure to complete one-fifth (1/5) of the works within one-half (1/2) of the time originally set for Completion of Works may be grounds for cancellation at the instance of the Department.

Re: Water Right and Snake River Basin Adjudication (SRBA) Research

Dear Mr. Unruh,

In response to your telephone request of yesterday, I have enclosed print-outs of claims nos. A02-02094A, A02-02182A, A02-02281, A02-02282, A02-02284A, A02-02285, A02-02375A, and A02-07273A.

Please note that claim no. A02-07273A was split into parts C & D. I have enclosed the print-outs on both parts. Please carefully review all print-outs to verify the place of use identified on the claim is the land you are considering purchasing.

The original SRBA claim files are in our Western Region office pending verification of the claims. All mapping submitted with the claims are in those files. Since I do not have access to those files, I am not able to create the map I said I would create.

I have also enclosed "Water Right Profile Reports" that reflect the rights as they exist today. Please note that permit no. 02-07273 requires verification through a field examination. Also, a water right in the stage of a permit is the personal property of the owner of record which in this case is River Ranch Farms. The adjudication database reflects that splits of the permit and/or ownership changes may have taken place. However, the owner of record has not filed any assignments reflecting those ownership changes of the permit or portions of the permit as is required under §42-248, *Idaho Code*. I have enclosed a copy of that statute for your reference.

If you have any questions or require assistance, you may contact me directly at (208) 327-7944, or by electronic mail at czimmerm@idwr.state.id.us. For information on Idaho Dept. of Water Resources, please visit our homepage at www.idwr.state.id.us/idwr/idwrhome.htm.

Emmett, Idaho 83617

Dear Mrs. Durk:

One of the conditions of approval of your water Permit No. 31753/02-2281 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before March 6, 1974. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mrs. Durk:

We acknowledge receipt of the affidavit of publication submitted in connection with the above referenced permit. Since proof of beneficial use of the water is not required until March 6, 1974, the Department will notify you sixty days in advance of this date as to further requirements. We wish to advise you, however, that if you have fulfilled the requirements under the permit you may submit proof anytime prior to the above date.

Re: Permit No. 31753

Claudie M. Durk
Route 1, Box 45
Hansen, Idaho

Dear Mrs. Durk:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department, stating that you have been issued a permit [REDACTED]. Previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.
