NOTICE OF APPROVED APPLICATION FOR WATER

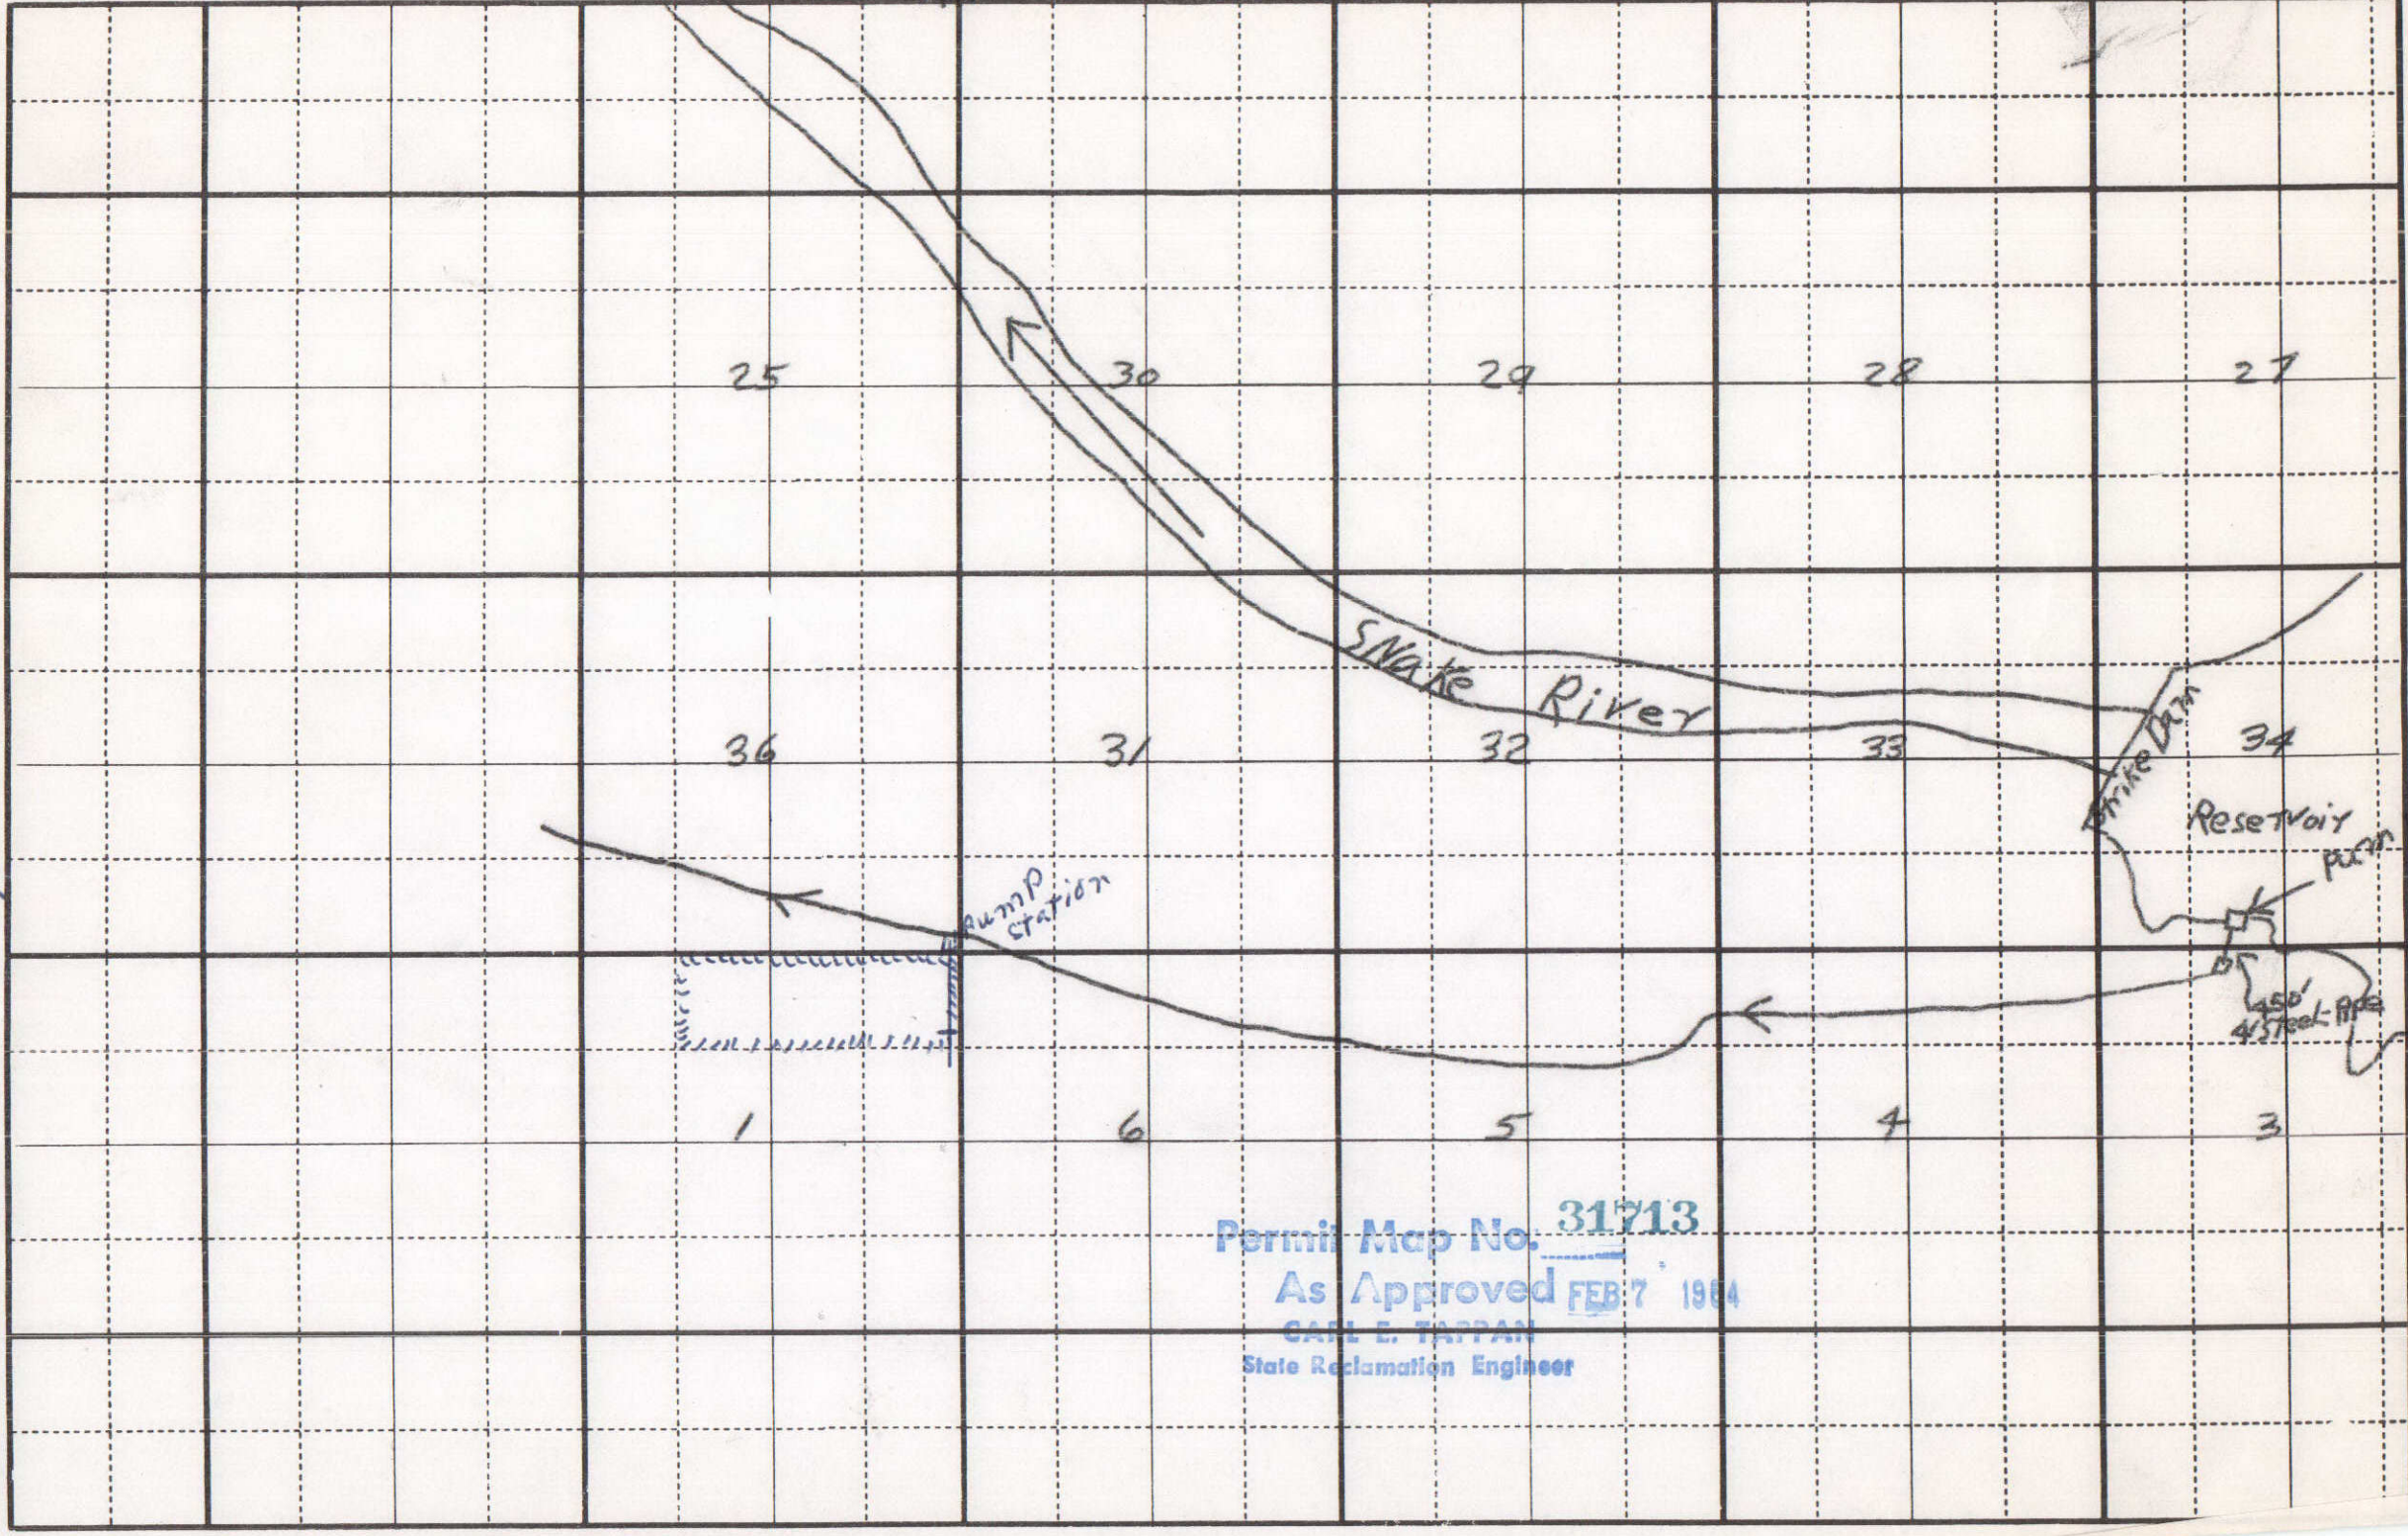

Notice is hereby given that Thelma C. Bybee, Grand View, Idaho, has received an approved permit No. 31713 to divert 3 cubic feet per second of water from Snake River, tributary of the Columbia River. The priority to be established under this permit is February 4, 1964. Water will be diverted by canal, pipe and pump within the SE $\frac{1}{4}$ -SW $\frac{1}{4}$, Sec. 34, T. 5 S., R. 4 E., B. M., Owyhee County and is to be used for irrigation in the N $\frac{1}{2}$ NE $\frac{1}{4}$, NE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 1, T. 6 S., R. 3 E., B. M.

Any protests against the intent of the permit must be filed with the Department of Reclamation within ten days from the last date of publication of this notice.

R. KEITH HIGGINSON,
State Reclamation Engineer

Permit No. 02-2272

J. Terry Field of Rt. B. Box 332 Grand View, Idaho
(name) (address) 83624

State of Idaho, being first duly sworn, upon his oath deposes and says:

That he is the holder, or the duly authorized agent of the holder *, of Permit to Appropriate the Public Waters of the State of Idaho No. _____.

That under the terms and conditions of said permit, work thereunder was required to be completed on or before Feb 1, 1977.

That he has heretofore performed the following work described under said permit:

We have put in to production 35 acres under this permit.

Costing \$ 10,500

That he is unable to complete the remainder of the work within the required time for the following reasons, to-wit: We purchased the land from the original permit holder, not knowing we had to prove up on the land to obtain title to the water. Two years ago when we asked for a 2 year extension we

Wherefore, he asks that the Department of Water Resources extend the time for the completion of obligations under said permit to Feb 1, 1980.

MICROFILMED

felt that would be enough time to put the rest of the water to use. But, due to the depressed farm prices of the past 2 years we have not been able to complete this project.

In our first request for extension we stated 80 acres were in, but since that time have found that only 35 acres are in the correct boundary, which boundary was not before clearly stated.

In talking with Mr. Ikenor, I found that the only way to be granted an extension would be if the land allowed date was different from the original water permit date. We found there was a 3 year difference (the land being allowed 6-2-67), so we are requesting the 3 year extension.

BEFORE THE DIRECTOR OF THE DEPARTMENT OF WATER RESOURCES

OF THE

STATE OF IDAHO

IN THE MATTER OF REINSTATING AND EXTENDING THE PROOF)

DUE DATE IN CONNECTION WITH PERMIT NO. 31713/02-2272)

ORDER

in the name of THELMA BYBEE)

WHEREAS, on February 4, 1964, Thelma Bybee applied to the Department of Water Resources (formerly the Department of Water Administration) for a permit to appropriate 3 cubic feet per second of water from the Snake River within the SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 34, Twp. 5S, Rge. 4E, B.M., Owyhee County, to be used for irrigation purposes; and,

WHEREAS, on February 7, 1964, the Department approved said application and issued Permit No. 31713/02-2272 with the condition that one-fifth of the work be completed on or before August 7, 1966, that the whole of said work be completed on or before February 7, 1969, and that proof of beneficial use of water be made on or before February 7, 1975; and,

WHEREAS, on December 2, 1974, the Department notified the permit holder by certified mail that proof of beneficial use was due and instructed the permit holder as to the steps to be taken to make said proof; and,

WHEREAS, on March 5, 1975, the Department notified the permit holder that Permit No. 31713/02-2272 had lapsed for failure to submit proof of beneficial use; and,

WHEREAS, on April 7, 1975, the Department received a request for an extension of time for said permit along with a reasonable showing as to why said permit should be reinstated; and,

WHEREAS, it appears that under the circumstances the permit holder has been proceeding with reasonable diligence and has given good cause for delay; and,

WHEREAS, Section 42-218a of the Idaho Code provides that a permit may be reinstated upon a showing of reasonable cause within 60 days from the date of the notice of lapsing;

IT IS, THEREFORE, HEREBY ORDERED that Permit No. 31713/02-2272 be REINSTATED and the priority advanced to April 4, 1964; and,

IT IS FURTHER ORDERED that the time within which to submit proof of beneficial use of water under Permit No. 31713/02-2272 be extended to February 1, 1977.

WATER RIGHT LICENSE

WATER RIGHT NO. 02-02272

Priority: February 26, 1964

Maximum Diversion Rate:

1.29 CFS

Maximum Diversion Volume:¹

395.0 AF

This is to certify, that J. TERRY FIELD
RT. B BOX 332

GRANDVIEW, ID 83624

has complied with the terms and conditions
of the permit, issued pursuant to Application for Permit dated February 4, 1964; and
has submitted Proof of Beneficial Use on January 7, 1980. An examination indicates
that the works have a diversion capacity of 14.550 cfs of water from:

SNAKE RIVER

tributary to COLUMBIA RIVER

source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	03/15 to 11/15	1.29 CFS	395.0 AF

LOCATION OF POINT(S) OF DIVERSION: LOT 10(NWSW), Sec. 34, Township 05S, Range 04E
OWYHEE County

PLACE OF USE: IRRIGATION

<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>

06S	03E	1	LOT 1(NENE) 23	LOT 2(NWNE) 15		38

Total number of acres irrigated: 79

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.

Acting for Director

Procedure for Putting a Volume on CD

1. Prepare the Volume for Export by using the Migrate Document tool.
2. Export the Volume to an Export location on a local hard drive.
3. Burn the Exported Volume to a CD.
4. Test the CD
5. Remove volume data from the fixed path.

Procedure for Migrating Documents from One Volume to Another

1. If volumes need to be created please see operators manual on creating volumes.
2. Open the LaserFiche Database that contains the documents to be migrated.
3. Open the folder that contains the documents to be migrated.
4. Select the documents to migrate.
5. From the *File* menu, select *Migrate Documents*.
6. Select the Destination Volume from the drop down list.
7. Click OK
8. The Document will be migrated into the new Destination Volume.
9. To Check the Size of the Volume, From the *Tools* menu, select *Options*.
10. In the *Options* dialog box, double-click on the *Volumes* icon.

Select the volume and click the *Info* Button. Then click Calculate.

Note: For a volume to fit on a CD it is important to keep the size of the volume less than 600 MB for a 650 CD or 630 for a 700 CD. This is due to the amount of space required to right the file allocation table (FAT) on the CD.

Procedure for Exporting a Volume

1. Open the LaserFiche Database that contains the volume to be exported.
2. From the **Tools** menu, select **Options**.
3. In the **Options** dialog box, double-click on the **Volumes** icon. Select the volume to be exported by clicking on it.
4. Click the **Info** button.
5. Click the **Calculate** button. The size of the volume will be displayed in the "Path Information" window. This size is important. The CD will only hold 650mb to 700mb depending on the disk itself. If the number displayed is larger than the size of the CD you will need to migrate some of the documents to another volume. (Refer to the manual to find out how to create new volumes and migrate documents.)
6. If the size displayed is ok, click the **Close** button and then click the **Export** button to display the **Export** dialog box.
7. Select the desired options for transferring folder structure. (We recommend that you select *Only the needed folders* option.)
8. Type the path for the destination directory of the volume including the drive letter. (Example C:\Export\Vol001)
9. Click **OK** to begin exporting the volume. When finished, exit the *Volume Manager* by clicking **Close** on the next two dialog boxes.
10. The path where the volume was exported to (c:\export\vol001) can now be put on a CD.
11. Use a CD authoring software to create a CD that contains the folder you just exported (vol001). Note* some CD authoring programs cannot handle the amount of files that you may have exported, typically over 25,000 files. Programs such as Adaptec Easy CD Creator version 4.X have problems. However, Roxio (Adaptec) Easy CD Creator version 5.x is fine.

Procedure for Testing a CD

1. Open the LaserFiche Database from which you exported the volume.
2. If the exported volume is on removable media (i.e. CD Rom) insert the disk in the drive.
3. From the *Tools* menu, select *Options*.
4. In the *Options* dialog box, double-click on the *Volumes* icon.
5. Select the Volume you have exported.
6. Click *Modify*.
7. On the Removable Path line, enter the complete path of the exported volume including the drive letter. (i.e. E:\Export\Vol001 where E: is the CD drive letter.)
8. In the Data Location section, click the *Removable* selection for the three items Images, Text & Other Files then check the box for *Read-Only Volume*. (Note... if you have electronic documents in your volume *do not check read only* or they cannot be opened)
9. Click **OK** and close the Volume Manager and the Options Window.
10. Find a document that is part of the exported volume and try to open it.
11. If you receive a message that says "Mount Volume XXXXX" then insert the CD into the drive. Laserfiche should display the images you have requested. If all has been done correctly then proceed to the section called Procedure for Removing Volumes from the Fixed Path. Otherwise go to the next line.
12. If you are reading this then the test failed. From the Laserfiche Volume Manager, select the volume you have exported and click Modify.
13. Change the Data Location Selection back to *Fixed* and remove the check for *Read-Only Volume*.

Procedure for Removing Volumes from the Fixed Path

This is a two-part process. One for removing the temporary exported volume and one for removing the volume from the Laserfiche fixed path. (In the examples below we will use the exported path of **C:\Expvol\vol001** and a Laserfiche fixed volume path of **.\vol001**)

1. (Removal of the Temporary Exported Volume) From the **Main Windows desktop**, double-click on **My Computer**.
2. Double-click the drive that contains the temporary exported volume. (Drive C)
3. Double-click the folder that contains the temporary exported volume. (Expvol\vol001)
4. Select all files and folders and delete them.

Note: You might wish to leave the main folder in case you want to export it again at a later date.

1. (Removal of the volume from the Laserfiche fixed path) From the **Main Windows desktop**, double-click **My Computer**.
2. Double click the drive that contains the Laserfiche database. (the database folder is usually named LFWDB001)
3. Double-click the Laserfiche database folder. (LFWDB001)
4. In the Laserfiche database folder you will see other folders, one should be named the same as the volume you have recently exported. (i.e. vol001)
5. **ONLY IF YOU HAVE SUCCESSFULLY TESTED YOUR CD**, select that folder (vol001) and delete it.
6. From the **Tools** menu, select **Options**.
7. In the **Options** dialog box, double-click on the **Volumes** icon.
8. Select the Volume you have exported.
9. Click **Modify**.
10. On the Fixed Path line, remove the path information.
11. Click **OK** and close the Volume Manager and the Options Window.

Procedure for Attaching a Volume

1. Open the LaserFiche Database that the exported volume will be attached to.
2. If the exported volume is on removable media (i.e. CD Rom) insert the disk in the drive.
3. From the *Tools* menu, select *Options*.
4. In the *Options* dialog box, double-click on the *Volumes* icon.
5. Click *Attach*.
6. Enter the complete path of the source volume including the drive letter. (i.e. E:\Export\Vol001 where E: is the CD drive letter.)
7. Set the path of the volume by selecting the option *Copy all data out of path*.
8. Put a check mark in the box next to the *Template names must match* option.
9. Put a check mark in the box next to the *Merge folder structures* option.
10. Set the option for indexing to *Index documents previously flagged as indexed*.
11. Click *OK*.
12. In the *Attach Volume* dialog box type the new volume name. Note: Two volumes Cannot share the same name or path. Use unique volume names and base the name on the source of the volume. (i.e. If the volume is from Hanford then you might name the new volume as HAN001 with the next volume from Hanford being HAN002 and so on.)
13. Type in the fixed path for the new volume. Two paths may not be the same. Again use a unique path for the volume and base it on the source of the volume. (i.e. All fixed paths must start with (.\) .\han001, .\han002, .\han003 etc.)
14. Set *Data Location* to *Fixed* for Images, Text, and Other Files. Do not select *Read-Only volume*.
15. Click *OK*.
16. When finished, exit the *Volume Manager* by clicking *Close* on the next two dialog boxes.

WATER RIGHT LICENSE

ROUGH DRAFT

License of Water Right No. 02-2272 (late proof) Priority 2-26-1964 Amount 1.29

THIS IS TO CERTIFY, that J. TERRY FIELD
 of GRAND VIEW, IDAHO, has complied with the terms and conditions of Permit
 No. 02-2272 issued pursuant to Application for Permit dated 2-4-1964,
 and has submitted proof to the Department of Water Resources on 1-7-1980,
 that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
 capacity for the diversion of ^{14.55} 15.65 ~~14.55~~ of water from SNAKE RIVER,
 tributary to COLUMBIA RIVER, and that the permit holder has applied to a beneficial use and
 established a right to use water as follows:

Beneficial Use IRRIGATION from 3/15 to 11/15 at 1.29 cfs and 628 AF
 from _____ cfs and _____
 from _____ cfs and _____
 (both dates inclusive)

Subject, however, to the condition that no more than 1.29 of water be diverted at any one time, and
 that the amount of water so diverted and to which such right is entitled and confirmed for the purpose
 aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
628 acre feet per year, said waters to be diverted within the LOT 10 (NW 3/4)
S. 34, T. 55, R. 4E, B. 1N in the County of OWYHEE

Description and location of place of use:

DATE: 3/11/83

TO: Dave Shaw

FROM: Don Shaff *DS*

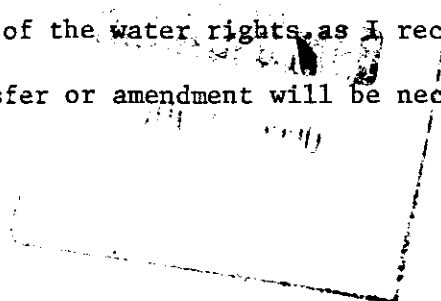

SUBJECT: 02-2272, 02-2405, Licenses

These water rights and others were first held by D. O. Bybee and his wife. To accomplish the task of issuing licenses for these two rights, the entire package must be dissected and examined from scratch. By carefully reassembling all the rights involved, reason will prevail over what otherwise appears as chaos. This memorandum attempts to provide a vehicle for that careful analysis.

The first problem may have occurred with the first licenses (02-2083 and 02-2084). Geographic features and the present field designs would lead one to believe the pattern of beneficial use may have been different than the licenses describe. Figure 1 illustrates this problem. A comparison can be made with Figure 1 between 1) what the present pattern of irrigated land is for all the water rights and 2) what the water right records describe.

As can be noted from Figure 1, the analysis is complicated by a division of some of the water rights and the land between two subsequent owners. In some instances the two parcels must be considered as a whole. Yet at the same time the separation cannot be ignored because each owner has developed a separate undivided water right. Some of the rights have licenses for a full or nearly-full miners inch per acre. Yet other rights, licenses and permits, are for less than an inch per acre. For purposes of analysis, the rights were considered in the order of filing with the hope that the intentions of the developer could be discovered and possibly then piece together the rights.

Land List #1 and #2 describe the irrigated lands of Yorgason and Field. Below those descriptions is the breakdown of the water rights, as I recommend they be described or licensed. In some cases, a transfer or amendment will be necessary. To assist

Page 2

Memo to Dave Shaw, Subject: 02-2272, 02-2405, Licenses

3/11/83

graphically in this breakdown, Figure 2 shows how the rights would fit together in relation to the land.

Through my investigation I believe 02-2083 and 02-2084 were either licensed incorrectly or the lands as irrigated now were done so before 1969 when the transfer requirement (Idaho Code 42-108) became effective. I suggest these two rights should be considered as described on Figure 2 and in Land List #2. The changes are systematic although somewhat arbitrary. The right is still described in the same and or adjacent 40-acre tracts. Each was issued at 1.0 inch per acre on 120 and 50 acres, respectively. The change in place of use does not alter these ^{at 1.0 inch per acre} limitations.

02-2176
Getting by those rights brings us to 02-2176. This license, amended at least twice, is divided by both farms, plus the LDS Church. For Yorgason's farm the right fits like a glove. But on Field's farm, this license was issued without considering the existence of the two earlier licenses above (Figure 1). In some 40-acre tracts the two licenses would exceed the number of acres in the tract and 1.0 inch per acre. Consequently I suggest, 02-2176 should be transferred in part by Field to other lands. The other lands were apparently irrigated earlier, but were not a part of the permit.

Because 02-2176 has a diversion rate of less than 1.0 inch per acre, a second right (02-2405) was acquired by Bybee to supplement it. On Field's land the intent of Bybee to do this is obvious although the combination of the two acreages might be too large for a tract or overlaid one of the earlier licenses. None of the water for 02-2405 has been described up to now on the Yorgason farm except a small part of SWSE and NESW, S. 36. However, there are 43 acres of land described on the permit and adjacent to both owners that is not irrigated at all. I proposed that 02-2405 be amended by Bybee (proof was submitted before 1976) rather than assigning the permit to both current owners. (For the Snake River Adjudication, Bybee has not claimed 02-2405, but Yorgason and Field have claimed applicable parts of it.) Yorgason shares one-half of a 100 HP motor pump that

* ASSIGNED TO YORGASON & FIELD 11/04/83

Page 3

Memo to Dave Shaw, Subject: 02-2272, 02-2405, Licenses
3/11/83

delivers 10 cfs and formerly one of Bybee's three pumps. Bybee now has only one-half of a 75 HP motor and pump that was one of his three pumps. With Yorgason's part of 02-2176 having ^{2.04}~~2.04~~ cfs, he purchased from the assignees of Bybee the capacity to divert 5.0 cfs and ability to irrigate with 02-2405. It would follow the permit should be amended to include his land. By doing so, each owner except the LDS Church will have the lands of 02-2176 supplemented to near 1.0 inch per acre by 02-2405.

The LDS Church by the equitable division of 02-2176 has .07 cfs for 6 of its 11 irrigated acres. Another right, 02-2380, is for .10 cfs on the other 5 acres.

02-7154
While on Yorgason's land, 02-7154 should be addressed. This right, developed from a different point of diversion for the Aslett Canal then to the Bybee Canal, fills in where 02-2176 does not cover, (Figure 1). The problem comes about for this right because in some cases more acres were licensed than there are acres owned, and in some cases fewer acres were licensed than were or are now irrigated. The exception is the SWNW, S. 36 where a ^{2 acre} parcel has been sold and is not irrigated now. I suggest an amended license should be issued as shown in Land List #1. This amendment will result in fewer acres and a smaller diversion rate than presently is licensed. But with the change to 02-2405 as suggested, 02-7154 will contribute its part to ^{.987/}~~.986~~ inch/acre for all of Yorgason's irrigated land.

02-2272
Lastly, 02-2272 is left. This right is used by way of a relift pump described in the Field Report. This right held by Mrs. Bybee, apparently was to fill in some land above the canal between two previous rights on Field's land. The assumption erroneously has been made for some time that Field was the holder of this permit. Apparently an assignment will be necessary.*

With the licensing of the last of the ^{.9396}~~.9269~~ inch/acre for all of his irrigated land.

* ASSIGNED 11/04/83 OR EARLIER.

RE: Permit No. 02-2272

J. Terry &/or Leslie A. Field
Rt. B, Box 232
Grand View, ID 83624

Dear Mr. and Mrs. Field:

Our office received an assignment form on 11-7-83 from Thelma C. Bybee assigning the above referenced permit to you.

However, in reviewing the water right file I found a duplicate assignment was submitted on January 21, 1982, but had not been acknowledged. This letter is to acknowledge your ownership of Permit No. 02-2272.

The permit is now awaiting a field examination by a Department employee.

If you have any questions regarding the permit, please feel free to contact our office.

Sincerely,

KAY WALKER
Technical Records Specialist

DEAR PERMIT HOLDER:

ONE OF THE CONDITIONS OF APPROVAL OF YOUR WATER PERMIT NO. 02-2272 WAS THAT EVIDENCE OF THE EXTENT OF DEVELOPMENT MUST BE SUBMITTED TO THIS OFFICE ON OR BEFORE FEBRUARY 01, 1980. (SEE LAST PAGE OF YOUR APPROVED PERMIT). ENCLOSED IS A POST CARD WHICH MAY BE USED TO SUBMIT THE REQUIRED PROOF OF BENEFICIAL USE.

IF YOU HAVE NOT FULLY COMPLETED YOUR PROJECT, AND YOU HAVE NOT PREVIOUSLY RECEIVED AN EXTENSION OF TIME, YOU MAY REQUEST AN EXTENSION OF TIME PROVIDED THE DELAY IS FOR REASONABLE CAUSE AS INDICATED IN SECTION 42-204, IDAHO CODE, AMENDED. IF YOU HAVE BEEN PREVENTED FROM PROCEEDING BY A GOVERNMENTAL AGENCY OR BY LITIGATION, MORE THAN ONE EXTENSION OF TIME CAN BE GRANTED.

EITHER THE BENEFICIAL USE POST CARD OR A REQUEST FOR AN EXTENSION OF TIME MUST BE RECEIVED BY THIS DEPARTMENT ON OR BEFORE THE ABOVE MENTIONED DATE, OTHERWISE, THE PERMIT WILL LAPSE AND BE OF NO FURTHER FORCE OR EFFECT WITHIN 60 DAYS.

SINCERELY,

Re: Permit No. 02-2272 (Old No. 31713)

J. Terry Field
Route B, Box 332
Grand View, Idaho 83624

Dear Mr. Field:

One of the conditions of approval of your water Permit No. 02-2272 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before February 1, 1977. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Grand View, ID 83624

Dear Mr. Field:

Enclosed is an Order which reinstates and extends the proof due date in connection with the above referenced permit. The time within which to submit proof of beneficial use of water has been extended to February 1, 1977.

Please be advised that this extension of time covers the whole permit which is for the irrigation of 150 acres of land.

In order for you to be able to submit proof of beneficial use, this permit must be assigned to you by the permit holder, Thelma Bybee. Enclosed is an assignment form to be completed and returned to this office as soon as possible.

If you have any questions concerning this matter, please contact us.

Sincerely,

BOBBY D. FLEENOR
Chief, Water Rights

Re: Permit No. 02-2272
02-7061

Dear Mr. Higginson;

I am writing concerning water permit no. 02-2272 in the name of Thelma Bybee.

In April of 1972, I purchased land from Mr. and Mrs. Bybee with this water permit land included. Recently Mrs. Bybee gave me the papers from your office concerning proof of beneficial use.

This land at the time I purchased it had a portable water system on it and had been used to raise pasture grass on 80 acres. However, the system was removed at the time of purchase.

This past crop year I raised grain on 80 acres of the land by extending sprinkler lines from other systems, but it was not as efficient as had been hoped. I am now in the process of putting a pump and sprinkler system on this 80 acres for this crop year.

I would like to apply for a water permit in my name for this 80 acres and ask for an extension on the remaining 70 acres and water of the 3 cfs.

If this is not in accordance with your office, please let me know what I must do in order to retain this water permit.

If I must I would like to at this time ask for an extension on all water of this permit.

Also I have received a letter from your office concerning permit no. 02-7061 which is in my name. I have no copy of this permit, could you please send me a copy of that permit or at least a discription of the land and cfs in this permit.

Thank-you,

J. Terry Field

Re: Permit No. 31713/02-2272
Permit Holder - Thelma Bybee

Gentlemen:

Herewith is Application for Amendment, signed by Thelma Bybee, the permit holder, for the purpose of adding a second point of diversion under the above numbered permit.

The original point of diversion is a pumping facility on the bank of C. J. Strike Reservoir which was constructed by Keith Johnson and members of the Tate family to pump into a canal which joined the Bybee Canal at a point in the north half of Section 4, Township 6 South, Range 4 East, B. M.

The added point of diversion is the head end of the Idaho Power Company Canal leading from C. J. Strike Reservoir. The Bybees have a pumping station on the south side of the Idaho Power Company Canal at the point indicated in Lot 5 of Section 33, Township 5 South, Range 4 East, B. M., through which they have pumped water under other appropriations for several years.

Water under this appropriation is for the reclamation of Mrs. Bybee's Desert Land Entry, which covers the lands described in the Application for Amendment. Final proof on the Entry is scheduled to be made June 2, 1971, and that date marks the end of the four-year statutory life of the Entry. Therefore, it is essential that proof be completed on that date.

Except for 250 miners inches capacity which has been transferred to Owyhee Grazing Association, Inc., the Bybees own

Idaho Department of Water Administration
April 16, 1971
Page Two

the pumping facility on the Idaho Power Company Canal and the penstock extending from that pumping facility and own a sufficient interest in the Bybee Canal for the conveyance of the water appropriated under this permit. They are not interested at this time in trying to acquire an interest in the pumping facilities, penstock and ditch extending from the original point of diversion.

The Bybees have a right in the Idaho Power Company Canal for the transmission of 650 miners inches of water. I have requested that Idaho Power Company add Lots 1, 2 and 3 in Section 1, Township 6 South, Range 3 East, B. M. to the list of lands which may be irrigated under that 650 miners inch right. The right is on Idaho Power Company's usual form of Permission and Agreement. Mr. Jim Bruce, Vice President and Secretary of Idaho Power Company advised me by telephone this morning that he did not anticipate any problems in granting the right to use the water on these additional lands.

Due to the short time remaining before final proof is to be presented to the Bureau of Land Management on Mrs. Bybee's Desert Land Entry, I would appreciate your help in expediting the processing of this application. Please contact me by telephone if any additional information is required.

Our check for \$5.00 is herewith in payment of the filing fee on this application.

Thank you for your cooperation.

Yours very truly,

ANDERSON, KAUFMAN, ANDERSON & RINGERT

December 2, 1968

Re: Permit No. 31713

Thelma C. Bybee
Grandview, Idaho

Dear Mrs. Bybee:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with those rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department, stating that you have been issued a permit ~~and have submitted proof of beneficial use of water.~~ Previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

Very truly yours,

OF THE

STATE OF IDAHO

IN THE MATTER OF PERMIT NO. 31713)

in the name of Thelma C. Bybee)

Grandview, Idaho)

ORDER MODIFYING REQUIREMENTS
FOR COMPLETION OF PERMIT TO
APPROPRIATE WATER

WHEREAS, the 39th Idaho Legislature made certain amendments to the Idaho Water Law; and,

WHEREAS, these changes raised questions as to the procedures to be followed by holders of permits issued prior to the effective date of the amendments, May 31, 1967; and,

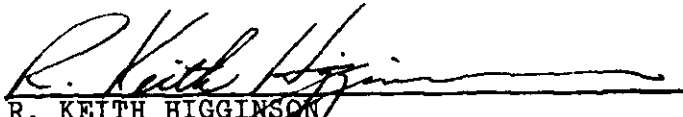

WHEREAS, on August 1, 1968, the Department of Reclamation adopted Rules of Practice and Procedures for the processing of such permits issued prior to May 31, 1967; and,

WHEREAS, Permit No. 31713 was issued previous to that date;

NOW THEREFORE, the requirements for completion of the above-numbered permit are hereby modified to conform to the adopted Rules of Practice and Procedures as follows:

1. The above-numbered permit will be completed under the terms of Title 42, Chapter 2, Idaho Code, as amended by the 39th Idaho Legislature.
2. The conditions of the above-numbered permit are modified as follows:
 - a. Notice of the issuance of the permit will be published at the permit holders expense for two weekly issues in the official newspaper of the county in which the point of diversion lies.
 - b. The permittee will not be required to submit proof of completion of works as originally specified, but will be required to submit proof to the Department of Reclamation of the application of the water to beneficial use on or before February 7, 1975. The permit holder should be aware that failure to complete one-fifth (1/5) of the works within one-half (1/2) of the time originally set for Completion of Works may be grounds for cancellation at the instance of the Department.

Dated this 3 day of December, 19 68.
