

NOTICE OF APPLICATION FOR EXTENSION OF TIME TO AVOID FORFEITURE OF A WATER RIGHT

No. 02-2268 Part

Notice is hereby given that Saul Brothers Farms Partnership of Hagerman, ID has applied to the Department of Water Resources for an extension of time to avoid forfeiture of a portion of a water right. The right is evidenced by License No. 02-2268 Part and is recorded as follows:

Amount: 10.15 cfs, 2400 afa

Priority: December 16, 1963

Source: Snake River tributary to Columbia River

Point of Diversion: Lot 2 (SE $\frac{1}{2}$ NE $\frac{1}{4}$), Sec. 16; Lot 3 (SW $\frac{1}{4}$ NW $\frac{1}{4}$), Sec. 28, T7S, R13E, Twin Falls County; 2 miles West of Hagerman, ID.

The water is used for irrigation of 552 acres from 3/15 to 11/15 within the NE $\frac{1}{4}$, NW $\frac{1}{4}$, SW $\frac{1}{4}$, SE $\frac{1}{4}$, Sec. 36, T6S, R12E.

Any protests against the approval of the above proposed request described above must be filed with the Director, Dept. of Water Resources, Southern Region, 2148 Fourth Avenue East., Twin Falls, ID 83301 on or before February 8, 1988.

R. Keith Higginson

The Extension is requested to avoid loss of the water right due to non-use while the land is in the Conservation Reserve Program.

PUBLISH: Thursday, January 21 and 28, 1988.

RECEIVED

No. 18228

I, Linda Capps McSwine being first duly sworn upon oath, depose and say that I am Public Clerk of the Department of Water Resources of the Southern Region of Idaho published daily, at Twin Falls, Idaho, and do solemnly swear that a copy of the notice of advertisement, as per clipping attached, was published in the regular and entire issue of said newspaper, and not in any supplement thereof, for Two consecutive weeks, commencing with the issue dated January 21, 1988, and ending with the issue dated January 28, 1988.

And I do further certify that said newspaper is a consolidation, effective February 16, 1942, of the Idaho Evening Times, published theretofore daily except Sunday, and the Twin Falls News, published theretofore daily except Monday, both of which newspapers prior to consolidation had been published under said names in said city and county continuously and uninterruptedly during a period of more than twelve consecutive months, and said TIMES-NEWS, since such consolidation, has been published as a daily newspaper except Saturday, until July 31, 1978, at which time said newspaper began daily publication under said name in said city and county continuously and uninterruptedly.

And I further certify that pursuant to Section 60-108 Idaho Code, Thursday of each week has been designated as the day on which legal notice by law or by order of any court of competent jurisdiction within the state of Idaho, to be published weekly, will be published; and that at the head of the editorial column of said combined newspapers, and in each issue thereof, Thursday is announced as the day on which said legal notices will be published.

Linda Capps McSwine
Subscribed and sworn to before me on this 28 day of January, 1988.

I, Sherry Kestner, being first duly sworn upon oath, depose and say that I am Proc. Clerk of the TIMES-NEWS, published daily, at Twin Falls, Idaho, and do solemnly swear that a copy of the notice of advertisement, as per clipping attached, was published in the regular and entire issue of said newspaper, and not in any supplement thereof, for TWO

consecutive publications, commencing with the issue dated March 24, 1983, and ending with the issue dated March 31, 1983.

And I do further certify that said newspaper is a consolidation, effective February 16, 1942, of the Idaho Evening Times, published theretofore daily except Sunday, and the Twin Falls News, published theretofore daily except Monday, both of which newspapers prior to consolidation had been published under said names in said city and county continuously and uninterruptedly during a period of more than twelve consecutive months, and said TIMES-NEWS, since such consolidation, has been published as a daily newspaper except Saturday, until July 31, 1978, at which time said newspaper began daily publication under said name in said city and county continuously and uninterruptedly.

And I further certify that pursuant to Section 60-108 Idaho Code, Thursday of each week has been designated as the day on which legal notice by law or by order of any court of competent jurisdiction within the state of Idaho, to be published weekly, will be published; and that at the head of the editorial column of said combined newspapers, and in each issue thereof, Thursday is announced as the day on which said legal notices will be published.

License of Water Right No. 02-2268 Priority December 16, 1963 Amount 432 cfs

THIS IS TO CERTIFY, that BELL RAPIDS MUTUAL IRRIGATION COMPANY
of Twin Falls, Idaho, has complied with the terms and conditions of Permit
No. 02-2268 issued pursuant to Application for Permit dated December 16, 1963,
and has submitted proof to the Department of Water Resources on June 9, 1977,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 432 cfs of water from Snake River,
tributary to Columbia River, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
Irrigation	from <u>March 15</u> to <u>November 15</u> at <u>432</u> cfs and <u>102,104</u> acre feet		
	from _____ to _____ at _____ cfs and _____		
	from _____ to _____ at _____ cfs and _____		

(both dates inclusive)

Subject, however, to the condition that no more than 432 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
102,104 acre feet per year, said waters to be diverted within the Lot 2 (SE 1/4), Sec. 16,
Lot 3 (SW 1/4), Sec. 28, Twp. 7S, Rge. 13E, B.M. in the County of Twin Falls

ORDER MODIFYING REQUIREMENTS
FOR COMPLETION OF PERMIT TO
APPROPRIATE WATER

WHEREAS, the 39th Idaho Legislature made certain amendments to the Idaho Water Law; and,

WHEREAS, these changes raised questions as to the procedures to be followed by holders of permits issued prior to the effective date of the amendments, May 31, 1967; and,

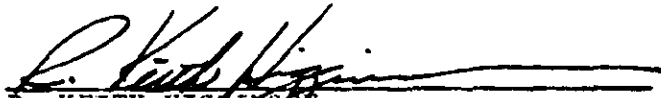

WHEREAS, on August 1, 1968, the Department of Reclamation adopted Rules of Practice and Procedures for the processing of such permits issued prior to May 31, 1967; and,

WHEREAS, Permit No. 31679 was issued previous to that date;

NOW THEREFORE, the requirements for completion of the above-numbered permit are hereby modified to conform to the adopted Rules of Practice and Procedures as follows:

1. The above-numbered permit will be completed under the terms of Title 42, Chapter 2, Idaho Code, as amended by the 39th Idaho Legislature.
2. The conditions of the above-numbered permit are modified as follows:
 - a. The permittee will not be required to submit proof of completion of works as originally specified, but will be required to submit proof to the Department of Reclamation of the application of the water to beneficial use on or before February 3, 1975. The permit holder should be aware that failure to complete one-fifth (1/5) of the works within one-half (1/2) of the time originally set for Completion of Works may be grounds for cancellation at the instance of the Department.
 - b. The permittee is hereby released from any bond requirement placed upon his permit under Section 42-204 at the time the permit was issued.

Re: Water Right Permit Nos. 63-12461 and 63-12470
in the name of Don Watkins and Brian Watkins

Dear Mr. Ward:

At your request, I have reviewed the draft Agreement for Transfer of Water Permits faxed to me on September 6 and the revised letter of proposed closing instructions faxed to me on September 7.

I have reviewed the draft documents and have the following comments:

1. The Department of Water Resources issued water right permit nos. 63-12461 and 63-12470 upon the condition that a portion of water right no. 02-02268, in the name of Bell Rapids Mutual Irrigation Company, be acquired and held by the permit holder to provide "mitigation" for any depletion to the Snake River flows caused by the diversion of water under the two newly issued ground water permits. The term "mitigation" is viewed as a term of art by the Department. It is, therefore, suggested that the draft Agreement use the terms "mitigate" and "mitigation" as opposed to the terms "remediate" and "remediation."
2. Paragraph 2 on page 2 of the draft Agreement provides that the "Seller shall provide Purchaser with an absolute assignment of the Water Permits and the [Mitigation] Water Right, together with a letter issued by IDWR consenting to the transfer of the Water Permits and the [Mitigation] Water Right from the Seller to the Purchaser." This provision is consistent with IDWR's condition that the holder of the two newly issued ground water permits also be the holder the mitigation water right. The proposed closing instructions, however, are less clear on how the conveyance of the

mitigation water right will be conveyed from Bell Rapids to Toolson to Watkins to Boise City.

3. It is suggested that the following modifications to the closing instructions, under the heading "Documents," be considered:

1. Check from Watkins payable to First American Title Company Trust Account in the amount of \$116,373.00.
2. Copies of Bell Rapids stock certificate nos. 328 and 329 endorsed in blank by Toolson.
3. Water Resources Notice of Change of Water Right Ownership form transferring ownership of a 9.80 cfs portion of water right 02-02268 dated December 16, 1963, with a consumptive use volume of 1,738.2 acre feet per year to Toolson, executed by Bell Rapids.
Comment: 1) The 9.80 cfs portion of the water right transferred will be assigned water right no. 02-02268B by IDWR; 2) There may be a discrepancy between the "consumptive use volume of 1,738.2 acre feet per year" stated above, and the "total annual maximum diversion volume of 2317.6 af at the field headgate" authorized to be diverted under water right permits 63-12461 and 63-12470. This discrepancy should be resolved to ensure that the mitigation requirements under permits 63-12461 and 63-12470 can be satisfied by water right 02-02268B.
4. Water Resources Notice of Change of Water Right Ownership form transferring ownership of split water right no. 02-02268B consisting of a 9.80 cfs portion of water right 02-02268 to Watkins, executed by Toolson.
35. Water Resources Notice of Change of Water Right Ownership form transferring ownership of split water right no. 02-02268B consisting of a 9.80 cfs portion of water right 02-02268 to Boise City, executed by Watkins.
- 4 ~~—~~ ~~A letter from Justin R. Seamons, Esq., counsel for Bell Rapids, certifying that upon receipt by him of Bell Rapids stock certificate nos. 328 and 329 endorsed by Toolson that Bell Rapids request that IDWR transfer from Bell Rapids to Toolson 9.80 cfs of Bell Rapids' water right license no. 02-2268 dated December 16, 1963, with a consumptive use volume of 1,738.2 acre feet per year (the "Residual Water Right").~~
Comment: The reason for suggesting the deletion of this paragraph is because IDWR does not transfer ownership of water rights. IDWR will

MICROFILMED

modify its records to reflect a change in ownership evidenced by a properly executed and filed Notice of Change of Water Right Ownership form. Section 42-248(5), Idaho Code, requires that a Notice of Change of Water Right Ownership form be accompanied by a \$25.00 filing fee.

56. A letter from Water Resources to the effect that Water Resources will consent to the transfer of IDWR permit nos. 63-12470 and 63-12461 to Boise City in conjunction with the sale of the Watkins Ranch by Watkins to Boise City.
4. It is suggested that the following changes be made to items "d," "e" and "f" on page 2 of the proposed closing instructions:
- d. Mail to Water Resources the three executed Notice of Change of Water Right Ownership forms with a check in the amount of \$75.00 payable to the Idaho Department of Water Resources to cover the three filing fees for the three documents.
- e. Change the reference to "paragraph no. 5" to "paragraph no. 6" or other number as appropriate.
- f. ~~Receive from IDWR and deliver to Watkins the Residual Water Right:~~
Comment: After the three executed Change of Water Right Ownership forms are filed, IDWR will modify its water right records to reflect Boise City's ownership of water right no. 02-2268B. IDWR can provide a print out from its water rights database showing a description of water right no. 02-2268B.

Please give me a call at 327-7905 if you would like to further discuss these suggested changes.

Sincerely,

PHILLIP J. RASSIER

NOTICE TO RESUME WATER USE

RE: Water Right No. 02-02268

Dear License Holder:

One of the conditions of department's approval of the application for Extension of Time to Avoid Forfeiture of a Water Right, filed in 1988 for the above referenced water right, was that beneficial use of water be resumed on or before **November 1, 1997**.

Enclosed is a form, which when submitted, will notify the department that you have again established beneficial use of water as authorized by the water right.

Failure to resume the use of water for the water right and to notify the department of resumed use, will be cause for the water to revert back to the state and again be available for appropriation.

Please fill out and return the resumption of beneficial use form within **sixty (60) days** of receipt of this letter. Please address your correspondence to my attention.

Please contact me at (208)327-7953, if you have any questions concerning this matter.

Sincerely,

re: Application for Extension of Time To Avoid Forfeiture,
02-2268 Part

Dear Mr. Saul:

The Department of Water Resources acknowledges receipt of your application for extension of time to avoid forfeiture as referenced above.

This office will be advertising the application in the Times News on 1/21 & 1/28/88. The advertisement will be published for two weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

NOTICE OF PROPOSED CHANGE OF WATER RIGHT
NO. 02-2268

Notice is hereby given that Bell Rapids Mutual Irrigation Company of Hagerman, Idaho has applied to the Department of Water Resources for a change of place of use of a right from Snake River tributary to Columbia River. The right sought to be changed is evidenced by License No. 02-2268 and is recorded as follows:

Amount: 432 cfs for irrigation from March 15 to November 15
104,102 acre feet per annum
Priority: December 16, 1963

Point of Diversion: Lt2 (SE $\frac{1}{4}$ NE $\frac{1}{4}$), Sec. 16; Lt3 (SW $\frac{1}{4}$ NW $\frac{1}{4}$), Sec. 28, T7S, R13E, B.M.,
Twin Falls County

Place of Use: Lands served by Bell Rapids Mutual Irrigation Co. within

T6S, R11E; T6S, R12E; T6S, R13E;

T7S, R12E; T7S, R13E;

T8S, R12E; T8S, R13E, comprising 25,526 acres

TO BE CHANGED AS FOLLOWS:

Water rights will be removed from 834 acres of land in numerous small tracts within the lands above described.

Water will be used on 601 acres within the SE $\frac{1}{4}$ NE $\frac{1}{4}$, S $\frac{1}{2}$, Sec. 13; W $\frac{1}{2}$ W $\frac{1}{2}$, Sec. 24, T6S, R12E, W $\frac{1}{2}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 18, T6S, R13E, B.M., and upon 233 acres not presently irrigated within the above described lands presently served by the Company.

A detailed list of the lands affected by this proposed change is available for inspection in the Department of Water Resources, Southern Region Office.

Any protest against the approval of the above proposed change of the right described above must be filed with the Idaho Department of Water Resources, 1041 Blue Lakes Blvd. North, Twin Falls, Idaho, 83301 on or before April 11, 1983.

RE: License No. 02-2268 in the name of Bell Rapids Mutual Irrigation Co.

Dear Mr. Savage:

As you are aware, the Bureau of Land Management (BLM) has brought to our attention a legal description discrepancy in the above referenced water right license. This discrepancy was caused by a government resurvey as described below.

The government plats located in Department of Water Resources files at the time of licensing included only the initial surveys made in the late 1800's; copies of the plats used in licensing are enclosed as Attachment A. Note that the acreages shown in government lots on the original license corresponded to acreages on these old government plats.

Upon notification from the BLM that the lots shown on the license were incorrect, we obtained from the BLM copies of a resurvey that was conducted from 1969 to 1971. Copies of plats created by this resurvey are enclosed as Attachment B.

Note that the resurvey changed the government lots considerably and created a unique tract of ground along the eastern edge of the western sections in Township 7 South, Range 13 East. This undeveloped tract of ground, called Sikes Tract, is 4.25 miles long and 380 feet wide. To balance the effect of the tract on total acreage, the lots along the western edge of the township are oversized at slightly more than 50 acres each.

Based on the resurvey information we have modified the land list attachments for the license. In addition to correcting the lot sizes, all acreages have been rounded to the nearest acre to conform with current computerization standards. Note that this process has resulted in a net decrease in acreage from 25,527.4 acres to 25,526 acres. The difference of 1.4 acres is negligible.

Please review the enclosed materials, Mr. Savage, which also include a proposed amended license and a copy of the land list worksheet. If you have any comments, please send them to my attention prior to March 17, 1981. Due to the straightforward nature of the changes, if we have received no response by that date I will recommend to the Director that the amended license be issued. If you have any questions, my telephone number is 334-4104.

Dear Mr. Savage:

After further reviewing the lands as listed on your maps, I hope the land list enclosed is agreeable.

We propose to issue the license as follows:

Amount of water that can be recognized as beneficially used under
Idaho Law: 432 cfs Source: Snake River

The maximum quantity of water diverted shall not exceed 102,110 acre
feet per year.

Point of diversion: Lot 2, Sec. 16; Lot 3, Sec. 28; Twp. 7S, Rge. 13E.

Beneficial use: See land list enclosed.

Priority date established: December 16, 1963

If you do not concur with these findings, please contact us within 10 days,
otherwise a water license will be issued as set forth above.

Sincerely,

MEMORANDUM

TO: Bill Lewis
FROM: Dave Tuthill *Dra*
DATE: May 17, 1979
RE: Adequacy of Water Right No. 31679 (02-2268) for Carey Act Filing

Pursuant to your request, we have investigated water right aspects of the initial Carey Act filing made by Joseph E. Davidson. We have determined the following facts:

- 1) Desert Land Entry filing No. I-8859 in the name of Joseph E. Davidson applies to 159.33 acres in $E\frac{1}{2}SW\frac{1}{4}$, Sec. 19 and Lots 1 and 2, Sec. 30, Twp. 6S, Rge. 12E B.M.
- 2) Lands described in the initial Carey Act filings made by Joseph E. Davidson are 318.64 acres in Lots 3 and 4, $SE\frac{1}{4}SW\frac{1}{4}$, Sec. 18; $NE\frac{1}{4}NW\frac{1}{4}$, $SW\frac{1}{4}NE\frac{1}{4}$, $E\frac{1}{2}SW\frac{1}{4}$, Sec. 19; Lot 1, Sec. 30; Twp. 6S, Rge. 12E, B.M.
- 3) Idaho water permit No. 31679 (02-2268) applies to all of the lands covered by Desert Land Entry No. I-8859. Proof of beneficial use for this permit was submitted to this office by Bell Rapids Mutual Irrigating Company, and the water system has subsequently been examined by personnel from the Department. None of the lands identified in DLE I-8859 were found to be irrigated. Furthermore, none of the lands identified in the initial Carey Act filing of Mr. Richardson were found to be irrigated.
- 4) One water right filing can satisfy both DLE and Carey Act requirements if the lands are the same and the party making the filings is the same.

The filing of proof of beneficial use essentially ceases development of a water right permit. Since the DLE and Carey Act lands in question were not irrigated at the time proof was submitted, they will not be

MICROFILMED

included in water right license No. 02-2268. Therefore, neither the Carey Act lands nor the DLE lands mentioned in this memo currently have valid water rights.

One suggested course of action for Mr. Davidson would be to negotiate with Bell Rapids Mutual Irrigation Company to file a new application for permit to cover his lands. I suspect that many people in the Bell Rapids area have a situation similar to that of Mr. Richardson, so a group filing may be worthwhile.

Gentlemen:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system.

If you have any questions regarding the field examination, please contact our Regional Office in Twin Falls.

Sincerely,

Gentlemen:

One of the conditions of approval of your water Permit No. 31679/02-2268 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before February 3, 1975. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Fleenor:

This will confirm our telephone conversation today in which I advised you of corrections which should be made in the Application for Amendment forwarded to the Department on October 4, 1972.

Those corrections are as follows:

Under the "Add to Permit" portion change the third line for Section 25 from 6S, 13 E, to 6S, 12 E. In the fourth line for Section 32 insert 13 E in place of the ditto marks.

Under the "Delete from Permit" portion add the SE $\frac{1}{4}$ of the NW $\frac{1}{4}$ of 40 acres to the line for Section 26, Township 7S, Range 12E, and change the total acreage from 80 to 120. Also, delete the NE $\frac{1}{4}$ of the NW $\frac{1}{4}$ of 40 acres from the line for Section 10, Township 7S, Range 13E, and reduce the acreage from 80 acres to 40 acres.

Attached is a copy of the classification decision on listed petition-application(s). It is essentially the same as the proposed decision since no protests were filed during the time provided.

For a period of 30 days after receipt of this decision, it is subject to exercise of supervisory authority by the Secretary of the Interior for administrative review. If the Secretary exercises his authority, you will be so notified. If he does not, this decision will become the final order of the Secretary.

All comments, objections, or protests to this decision shall be sent to the Secretary of the Interior, LLM, 320, Washington, D. C. 20240. They must be sent within 30 days of receipt of this decision; however, they should be sent as early as possible to insure enough time for their review.

Sincerely yours,

INITIAL CLASSIFICATION DECISION

The following described lands have been examined and found suitable for agricultural development:

Boise Meridian, Idaho

I-3985 - T. 6 S., R. 13 E. Section 19, Lots 1, 2, 3, 4, E $\frac{1}{2}$ W $\frac{1}{2}$	306.5 acres
I-3986 - Section 30, Lots 1, 2, 3, E $\frac{1}{2}$ NW $\frac{1}{2}$ NE $\frac{1}{2}$ SW $\frac{1}{2}$, NW $\frac{1}{2}$ SE $\frac{1}{2}$, SW $\frac{1}{2}$ NE $\frac{1}{2}$	313.52 acres
I-4374 - T. 7 S., R. 12 E. Section 1, Lots 1, 2, SE $\frac{1}{2}$ T. 7 S., R. 13 E. Section 6, Lots 10, 11	316.18 acres
I-4375 - Section 6, Lots 7, 12, W $\frac{1}{2}$ E $\frac{1}{2}$ E $\frac{1}{2}$ SE $\frac{1}{2}$, W $\frac{1}{2}$ E $\frac{1}{2}$ SE $\frac{1}{2}$, W $\frac{1}{2}$ SE $\frac{1}{2}$, E $\frac{1}{2}$ SW $\frac{1}{2}$	303.52 acres

These lands are classified as suitable for entry under the Desert Land Act of March 3, 1877, as amended, 43 CFR 2520.

This classification is based on the following reasons:

1. These lands are physically suitable for agricultural development, which represents their "highest and best use," i.e. their most profitable legal use in private ownership, 43 CFR 2430.5(a).
2. The lands are susceptible to irrigation by practicable means as proposed by the applicants, 43 CFR 2520.8(a). The applicants are members of the Bell Mutual Irrigation Company. As shareholders in this water company they will receive irrigation water delivered through the common water system
3. This classification is consistent with Federal, State and local government programs, plans, regulations, and policies, 43 CFR 2410.1(c) and (d). To insure public access through the area and a good network of public roads serving the area, the following reservations for public access will be made prior to allowance of these entries:

T. 6 S., R. 13 E	
Section 19, Lot 4, SE $\frac{1}{2}$ SW $\frac{1}{2}$	South 40 feet
E $\frac{1}{2}$ SW $\frac{1}{2}$	East 25 feet
Section 30, Lots 1, 2, 3,	West 40 feet
Lot 1, NE $\frac{1}{2}$ NW $\frac{1}{2}$	North 40 feet
T. 7 S., R. 12 E	
Section 1, SE $\frac{1}{2}$	South 25 feet
Section 1, Lot 1, SE $\frac{1}{2}$	East 25 feet

T. 7 S., R. 13 E.
Section 6,
Section 6, Lot 7

North, South, West 25 feet
East 40 feet

Twin Falls, Idaho 83301

A portion of the lands included in two of these petition-applications has been improved by the Bureau as part of a range improvement program. Prior to allowance of these entries the applicants will be required to make the following reimbursements to the United States for these improvements:

DLA I-4374 - Seeding, 295.55 acres @ \$5.23 per acre
or \$1,545.72

DLA I-4375 - Seeding, 100.00 acres @ \$5.23 per acre, or
\$523.00

The following described lands have been examined and found not suitable for agricultural development:

Boise Meridian, Idaho
T. 7 S., R. 13 E., B.M.
Section 6, E $\frac{1}{2}$ E $\frac{1}{2}$ SE $\frac{1}{4}$ 20.00 acres

These lands are classified as unsuitable for entry under the Desert Land Act of March 3, 1877, as amended, 43 CFR 2520.

This classification is based on the following reasons:

1. Classification as suitable for desert land entry and ultimate disposal would not be consistent with federal programs as they relate to the preservation of adequate public hunting grounds and public access thereto, and maintenance of habitat and food supplies for the wildlife dependent upon the public lands and maintained under Federal and State programs, 43 CFR 2410.1(d).

Wildlife habitat potential can only be realized through foresight in setting aside lands to be managed for this purpose. Present agricultural methods will benefit upland game bird species (i.e. Hungarian partridge, Chinese pheasant) only in that more food and water will be available. Nesting, protective cover, and winter food supplies are the limiting factors.

The retention of this 20-acre tract is, therefore, an attempt to provide lands in a heavily developed agricultural area, for management to benefit upland game birds species. This strip is a continuance of lands previously left undisturbed for wildlife purposes and a wildlife management plan is forthcoming.

2. This classification is consistent with Federal, State and local governmental programs, plans, regulations and policies, 43 CFR 2410.1(c) and (d).

Therefore the following petition-application is denied in part as described:

Dear Mr. Fleenor:

Please find enclosed herewith an Application for
Amendment of the above-referenced water permit.

The amendment does not seek an additional amount
of water but its purpose is to delete certain lands present-
ly covered under the permit and to substitute certain other
lands.

Enclosed herewith is my check in the amount of
\$10.00 in payment of the filing fee.

DECISION

Assignee: Stephen R. Wilson :
Assignor: Jerome P. Wilson :
Desert Land Entry
Assignment Approved

On 8/28/70, the above entryman (assignor) was allowed desert land entry, I- 014471, on the following lands:

T. 6 S., R. 13 E., B.M., Idaho
Sec. 31, E $\frac{1}{2}$.
320 acres

On 9/3/71, the entryman (assignor) filed a deed assigning all of his right, title and interest in the entry to the assignee named above. The assignee has filed an affidavit showing that he is qualified to accept an assignment of and hold a desert land entry.

A review of the case file indicates the entry is now in good standing so far as the record shows. However, this office does not attest to the full compliance with the desert land laws as presently reflected by the case record.

The Secretary, Department of the Interior, has set out certain criteria which are now applicable to each entryman. As the assignee is now the entryman of record these criteria are applicable to him. The entry must be reclaimed for his own benefit; the entry may not be assigned to a corporation; the entryman may not, before receiving patent, enter into any arrangement to transfer title to the land after patent is issued; the entryman may not enter into any arrangement which has the effect of permitting anyone to hold more than 320 acres of desert entry land; and the entryman must expend his own money on the necessary irrigation, reclamation and cultivation of the entry or incur a personal liability for any money so expended.

The assignment is hereby approved and the records of this office are noted to show that the assignee is the entryman for the lands assigned under the above-identified desert land entry. The remaining compliance to be met on this entry and the due dates are shown below:

Re: Carl Osborne - Desert Land Entry
No. I-014324

Dear Mr. Clay:

This is in reply to your letter of October 4, 1971 directed to Mr. Carl Osborne, Sun Valley in which you advised him that your records do not show a valid application for water right covering the lands of his desert land entry.

Mr. Osborne's desert land entry is a part of the Bell Rapids Project. The legal description of the lands lying in his entry are as follows:

T. 7 S., R. 13 E.B.M.
Sec. 4: E $\frac{1}{2}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$, Lot 1 (SE $\frac{1}{4}$ NE $\frac{1}{4}$)
Sec. 9: NE $\frac{1}{4}$ NE $\frac{1}{4}$

All of the lands covered by Mr. Osborne's desert land entry are included in Permit 31679, and amendments thereto, issued to Bell Rapids Mutual Irrigation Company.

If you have any further questions concerning Mr. Osborne's entry, I would appreciate your advising me.

Very truly yours,

KENNETH G. BERGQUIST

Dear Mr. Osborn:

We have been advised by the Bureau of Land Management that Mr. Glen Toolson has assigned his Desert Land Entry No. I-014324, to you.

In checking our records, we fail to find a valid application for a water right filed in connection with the lands covered under your desert entry.

We are enclosing the Department's application for permit form and set of instructions for your convenience.

If you should have any questions in completing this form, or in any other matter, please do not hesitate to contact this Department.

DECISION

Desert Land Entry

Assignment Approved

On August 28, 1970, the above entryman (assignor) was allowed desert land entry, I- 014324, on the following lands:

T. 7 S., R. 13 E., B. M., Idaho
Sec. 4, Lot 1, E $\frac{1}{2}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$,
Sec. 9, NE $\frac{1}{4}$ NE $\frac{1}{4}$.

On August 17, 1971, the entryman (assignor) filed a deed assigning all of his right, title and interest in the entry to the assignee named above. The assignee has filed an affidavit showing that he is qualified to accept an assignment of and hold a desert land entry.

A review of the case file indicates the entry is now in good standing so far as the record shows. However, this office does not attest to the full compliance with the desert land laws as presently reflected by the case record.

The Secretary, Department of the Interior, has set out certain criteria which are now applicable to each entryman. As the assignee is now the entryman of record these criteria are applicable to him. The entry must be reclaimed for his own benefit; the entry may not be assigned to a corporation; the entryman may not, before receiving patent, enter into any arrangement to transfer title to the land after patent is issued; the entryman may not enter into any arrangement which has the effect of permitting anyone to hold more than 320 acres of desert entry land; and the entryman must expend his own money on the necessary irrigation, reclamation and cultivation of the entry or incur a personal liability for any money so expended.

The assignment is hereby approved and the records of this office are noted to show that the assignee is the entryman for the lands assigned under the above-identified desert land entry. The remaining compliance to be met on this entry and the due dates are shown below:

These lands were classified suitable in 1969 under I-1236, which application was not allowed due to death of the applicant. Present applicant complied with primary steps required for allowance, including personal interview on March 17, 1971 and executed agreements. Defacto allowance existed as of April 23, 1971. Only remaining action was on Bureau's part, to continue existing classification of lands to application I-4070 and issue Notice of Allowance. This was done for like applicants and would have been done for Harry Holmes had the Bureau done its job completely. Notice of Intention to Make Proof was filed July 30, 1971, further evidence of applicant's good faith.

STATE OF IDAHO EASEMENT

NO. 4190

THIS INDENTURE, made this 26th day of April, 1971, by and between the STATE OF IDAHO, acting by and through the State Board of Land Commissioners, as party of the first part, and BELL RAPIDS MUTUAL IRRIGATION COMPANY, as party of the second part;

WITNESSETH: That for and in consideration of the sum of Two Thousand Four Hundred Forty Seven and no/100 DOLLARS (\$2,447.00), lawful money of the United States of America, receipt whereof is hereby acknowledged, the party of the first part does hereby grant to the party of the second part an easement for the purpose of constructing and maintaining a pipeline and canal right-of-way, drainage right-of-way and operational reservoir right-of-way over and across the following described lands situated in Twin Falls County, State of Idaho, to-wit:

Canal and Pipeline Right-of-Way:

A strip of land 100 feet wide (50 feet each side of center line), which center line is more particularly described as follows:

Commencing at the southeast corner of Section 36, Township 6 South, Range 12 East, Boise Meridian, thence N 0°19' E 864.5 feet along the east line of said Section 36 to the REAL POINT OF BEGINNING; thence N 57°05' W a distance of 272.0 feet; thence N 35°45' W a distance of 300.0 feet; thence N 45°37' W a distance of 300.0 feet; thence N 65°34' W a distance of 300.0 feet; thence N 86°40' W a distance of 300.0 feet; thence N 87°44' W a distance of 300.0 feet; thence N 83°56' W a distance of 300.0 feet; thence N 82°52' W a distance of 300.0 feet; thence S 81°44' W a distance of 300.0 feet; thence S 66°12' W a distance of 300.0 feet; thence S 48°59' W a distance of 300.0 feet; thence S 6°06' W a distance of 150.0 feet; thence S 86°13' W a distance of 1238.7 feet; thence N 25°22' W a distance of 303.5 feet; thence N 30°37' W a distance of 296.6 feet; thence N 44°15' W a distance of 127.9 feet; thence N 61°27' W a distance of 303.4 feet; thence N 69°01' W a distance of 93.6 feet; thence S 71°49' W a distance of 121.6 feet; thence N 31°44' E a distance of 97.9 feet; thence N 41°17' W a distance of 298.2 feet; thence N 52°03' W a distance of 188.3 feet to the end of the irrigation canal center line, which point is S 0°14' W 387.8 feet from the west quarter corner of said Section 36; containing 14.90 acres more or less.

Drainageway Right-of-Way:

A strip of land 40 feet wide (20 feet each side of center line), which center line is more particularly described as follows:

Commencing at Station 158+05 of the above described canal and pipeline, in the SE $\frac{1}{4}$ SW $\frac{1}{4}$ of said Section 36, thence N 5°00' E a distance of 721 feet; thence N 71°00' W a distance of 112 feet; thence N 33°30' E a distance of 140 feet; thence N 24°00' W a distance of 651 feet; thence N 49°55' W a distance of 694 feet; thence N 82°20' W a distance of 350 feet; thence N 67°30' W a distance of 648 feet to a point on the west line of said Section 36, said point being N 0°15' E 680 feet from the west quarter corner of said Section 36; containing 3.04 acres, more or less.

Operational Reservoir Right-of-Way:

A parcel of land within the SE $\frac{1}{4}$ SW $\frac{1}{4}$ of said Section 36, lying south of the above described canal and pipeline, said parcel being more particularly described as follows:

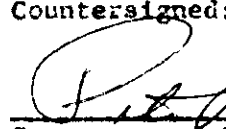

Commencing at the south quarter corner of said Section 36, Thence N 89°56' W a distance of 510.0 feet to the point of beginning; thence N 89°56' W a distance of 235.0 feet; thence N19°10' W a distance of 1143.6 feet; thence N 86°13' E a distance of 331.0 feet; thence S 14°50' E a distance of 1140.0 feet to the point of beginning; containing an area of 6.53 acres, more or less.

The total area within said Section 36 for all of the above rights-of-way contains 24.47 acres, more or less.

It is further understood and agreed that in the event the lands hereinabove described are not used for the purposes herein specified for any five year period, the State Board of Land Commissioners may declare such right-of-way forfeited and the use of the lands will revert back to the State of Idaho or to the record owner of the lands.

IN WITNESS WHEREOF, the State Board of Land Commissioners has caused these presents to be executed by its President, the Governor of the State of Idaho, and countersigned by the Secretary of State and the State Land Commissioner.

APR 22 1971

DECISION

Assignee: Charles Schriber :
Assignor: Hugh Faulkner :
Desert Land Entry :
Assignment Approved

On Sept. 2, 1970, the above entryman (assignor) was allowed desert land entry, I- 014306, on the following lands:

T. 7 S., R. 13 E., B.M., Idaho
Sec. 9: W $\frac{1}{2}$ NE $\frac{1}{4}$, SE $\frac{1}{4}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$, NW $\frac{1}{4}$ SE $\frac{1}{4}$.

On April 16, 1971, the entryman (assignor) filed a deed assigning all of his right, title and interest in the entry to the assignee named above. The assignee has filed an affidavit showing that he is qualified to accept an assignment of and hold a desert land entry.

A review of the case file indicates the entry is now in good standing so far as the record shows. However, this office does not attest to the full compliance with the desert land laws as presently reflected by the case record.

The Secretary, Department of the Interior, has set out certain criteria which are now applicable to each entryman. As the assignee is now the entryman of record these criteria are applicable to him. The entry must be reclaimed for his own benefit; the entry may not be assigned to a corporation; the entryman may not, before receiving patent, enter into any arrangement to transfer title to the land after patent is issued; the entryman may not enter into any arrangement which has the effect of permitting anyone to hold more than 320 acres of desert entry land; and the entryman must expend his own money on the necessary irrigation, reclamation and cultivation of the entry or incur a personal liability for any money so expended.

The assignment is hereby approved and the records of this office are noted to show that the assignee is the entryman for the lands assigned under the above-identified desert land entry. The remaining compliance to be met on this entry and the due dates are shown below:

First annual proof	<u>9-2-71</u>	Third annual proof	<u>9-2-73</u>
Second annual proof	<u>9-2-72</u>	Final proof	<u>9-2-74</u>

Re: BELL RAPIDS MUTUAL IRRIGATION COMPANY 31679
No. 314 Application for Easement and 02-2968
Right-of-Way

O
Gentlemen:

Reference is made to the application for an easement and right-of-way upon lands owned by the State of Idaho located in Section 36, T. 6 S., R. 12 E., B.M. in Twin Falls County, Idaho, submitted with my letter of August 28, 1970. Reference is also made to my letter of October 15, 1970, advising your office of proposed amendment to that application.

P
Y
Please find enclosed four (4) sets of prints of the proposed easement and right-of-way for pipeline and canal right-of-way, drainage right-of-way and operational reservoir right-of-way. Also enclosed are four metes and bounds descriptions of the rights-of-way shown upon the foregoing plats. These plats and descriptions supersede those submitted with my transmittal letter of August 28, 1970. The proposed rights-of-way are directly connected to other facilities on the Bell Rapids Project of Bell Rapids Mutual Irrigation Company, particularly in the need for the operational reservoir and drainage rights-of-way. The company operates another pumping plant, canal and irrigation system located to the south of the facilities related to the instant right-of-way application. These two facilities are directly related to each other in their proposed interconnection of service to the Bell Rapids Project and in the drainage pattern of the area.

Re: Permit No. 31679 (02-2268)
Bell Rapids Mutual
Irrigation Company

Dear Mr. McEldowney:

Please find enclosed herewith an Application for Amendment of the above-referenced water permit.

The amendment does not seek an additional amount of water but its purpose is to delete certain lands presently covered under the permit and to add certain other lands. Under the present permit there are two points of diversion, one of which is being changed by the amendment and the other is being clarified as follows:

Fossil Gulch Pump Site

The point of diversion under the existing permit is described by a certain course and distance in the NW $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Sec. 16, T. 7S., R. 13 E., B.M. That point of diversion is being changed to Lot 2, Sec. 16, T. 7S., R. 13 E., B.M.

Bell Rapids Pump Site

There is no change in the point of diversion from that shown in the present permit as being in the SW $\frac{1}{4}$ of the NW $\frac{1}{4}$ of Sec. 28, T. 7S., R. 13 E., B.M. However, by resurvey the records of the Bureau of Land Management now show a corrected designation of this point as Lot 3, Sec. 28, T. 7S., R. 13 E., B.M.

Application for Easement and Right-of-Way

O
Gentlemen:

Bell Rapids Mutual Irrigation Company submits herewith its application for an Easement and Right-of-Way upon land owned by the State of Idaho located in Section 36, T. 6 S., R. 12 E., B.M. in Twin Falls County, Idaho.

P
The purpose for which the easement and right-of-way is desired is for an irrigation canal in connection with the development of the Bell Rapids Desert Land Project. The requested easement and right-of-way is an extension of State of Idaho Easement No. 4126 granted to the company on May 21, 1970. Other portions of the right-of-way across land owned by the United States is covered by a Right-of-Way granted to the company by the Bureau of Land Management in Case I-2053.

Y
The Bell Rapids Project comprises a group development under the Federal Desert Land Act of approximately 18,000 acres of land lying to the west of the Snake River in Townships 6 and 7 South and Ranges 12 and 13 East., B. M. in Twin Falls County, Idaho. The entire project will involve approximately fifty-five entries. Allowances have been granted by the Bureau of Land Management to sixteen entrymen comprising the first stage development and the company has been recognized as the source of water for those entries. Allowances are being granted by the Bureau of Land Management for an additional 15 entries comprising the second stage development and the company is recognized as the source of water for

these additional entries. The desert lands covered by the second stage development will be irrigated from the facilities covered by the State of Idaho Easement 4126 and the canal system covered by the Right-of-Way I-2053 and easement and right-of-way requested herein. The irrigation facilities involved in the second stage development are referred to as the Fossil Gulch facilities.

Bell Rapids Mutual Irrigation Company is authorized under Permit No. 31679 issued by the State Reclamation Engineer to divert water from the Snake River at both the Bell Rapids and Fossil Gulch pump sites.

Transmitted herewith are four (4) sets of plats of the proposed Easement and Right-of-Way, duly certified by licensed engineers employed by the company. Each set comprises two large survey plats prepared by Tudor Engineering (sheets 1 of 3 and 2 of 3) and a small plat prepared by Anderson and Kelly showing the length of the right-of-way and computed references to the section lines. Also enclosed are four metes and bounds descriptions of the right-of-way shown upon the foregoing plats.

A copy of the complete application is being filed concurrently herewith with the Idaho Department of Water Administration.

Upon notification, the required fees and charges will be tendered by the applicant.

Re: Bell Rapids Mutual Irrigation Company-Application
for Easement and Right-of-Way

Gentlemen:

O
Bell Rapids Mutual Irrigation Company submits herewith its application for an Easement and Right-of-Way upon land owned by the State of Idaho located in Section 16, T. 7 S., R. 13 E., B.M. in Twin Falls County, Idaho.

The purpose for which the easement and right-of-way is desired is for a pump site, pipeline and access road in connection with the development of the Bell Rapids Desert Land Project.

P
Bell Rapids Mutual Irrigation Company is a non-profit corporation, organized and existing under the laws of the State of Idaho.

Y
The Bell Rapids Project comprises a group development under the Federal Desert Land Act of approximately 18,000 acres of land lying to the west of the Snake River in Townships 6 and 7 South and Ranges 12 and 13 East., B.M. in Twin Falls County, Idaho. The entire project will involve approximately fifty-five entries. Allowances have been granted by the Bureau of Land Management to sixteen entrymen comprising the first stage development. Bell Rapids Mutual Irrigation Company has been recognized by the BLM as the source of water for these sixteen entries, and will subsequently be recognized as the source of water for remaining entries in the project.

Two separate pumping plants and canal systems will be used to deliver water to the project. The pumping plant involved in the present application is known as the Fossil

Re: Permit No. 31679

Bell Rapids Mutual Irrigation Co.,
720 Commercial Avenue
Twin Falls, Idaho 83301

Gentlemen:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with those rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department, stating that you have been issued a permit ~~and have submitted proof of beneficial use~~. Previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

Very truly yours,

Donald W. McEldowney

Dear Mr. Jarolinek:

Your letter of October 12 asked for information on possible irrigation development proposals in the Hagerman area on the south side of the Snake River. Although the U. S. Bureau of Reclamation has been aware of the land- and water-resource development opportunities in this area, we do not have any specific project proposals under active consideration there at this time.

The Idaho State Reclamation Engineer may have information on individual private development proposals for that area. I am sending your letter to Mr. Tappan, the State Reclamation Engineer, with the suggestion that he furnish to you what information he has that is pertinent to your inquiry.

Dear Mr. Jarolimek:

We received a copy of your letter of October 12th, addressed to the Bureau of Reclamation.

There are three permits of record claiming a relatively large amount of water from Snake River opposite Hagerman Valley.

Permit No. 31383, in name of Mountain View Irrigation Co., of Buhl, Idaho, filed March 15, 1963, claims 200 cubic feet per second for irrigation of 12,520 acres of land.

Permit No. 31420, in name of Crystal Springs Irrigation Co., c/o M.C. Kiser, 5000 Fairview, Boise, Idaho, filed July 16, 1963, claims 500 cubic feet per second for irrigation of 66,000 acres of land.

Permit No. 31679, in the name of Bell Rapids Mutual Irrigation Co., 729 Commercial Ave., Twin Falls, Idaho, filed October 18, 1963, claims 572.8 cubic feet per second for irrigation of 29,850 acres.

There is some overlap in lands to be irrigated under above permits. There is probably some private land in the total to be irrigated, however we believe most of the land is under jurisdiction of the Bureau of Land Management.

Maps in connection with the permits may be studied in this office, or you could probably obtain maps from the holders of the permits.

Gulch pump site. The other pumping plant is known as the Bell Rapids pump site which is presently being constructed on federal land approximately two and one-half miles up stream from the Fossil Gulch pump site. The Fossil Gulch pump site will be required for subsequent stages of development of the Bell Rapids project. Under Permit No. 31679 issued by the State Reclamation Engineer, the company is authorized to divert water from the Snake River at these two locations with a priority of October 18, 1963. The access road is necessary to provide access between the two pump sites, the Idaho Power Company facilities and the lands located on the Bell Rapids project.

Attached hereto are four (4) copies of the plat of the pump site, pipeline and access road, duly certified by a licensed engineer employed by the company. A copy of the application and map is being filed concurrently herewith with the State Reclamation Engineer.

Upon notification, the required fees and charges will be tendered by the applicant.

Dear Mr. McDowell:

Returned herewith are applications for permit noted above.

Regulations and Instructions, issued by this department, shows a number of requirements for maps to accompany applications for large amount of water. The scale is not shown. The scale must be such as to show details and must not be less than one inch per mile. The section tie to the point of diversion, streams within boundary of map, canals and laterals to lands to be irrigated, ties between sections on line between T. 6 S., and T. 7 S., sufficient to show offset (one on each side, if uniform), secondary pump lifts, canal sections and computed capacity are among items which should be shown. Licensed Engineer to certify the maps as shown in instructions.

Answer 1 - "If applicant is a corporation, give: if incorporated.

Answer 1 - The financial resources, etc.

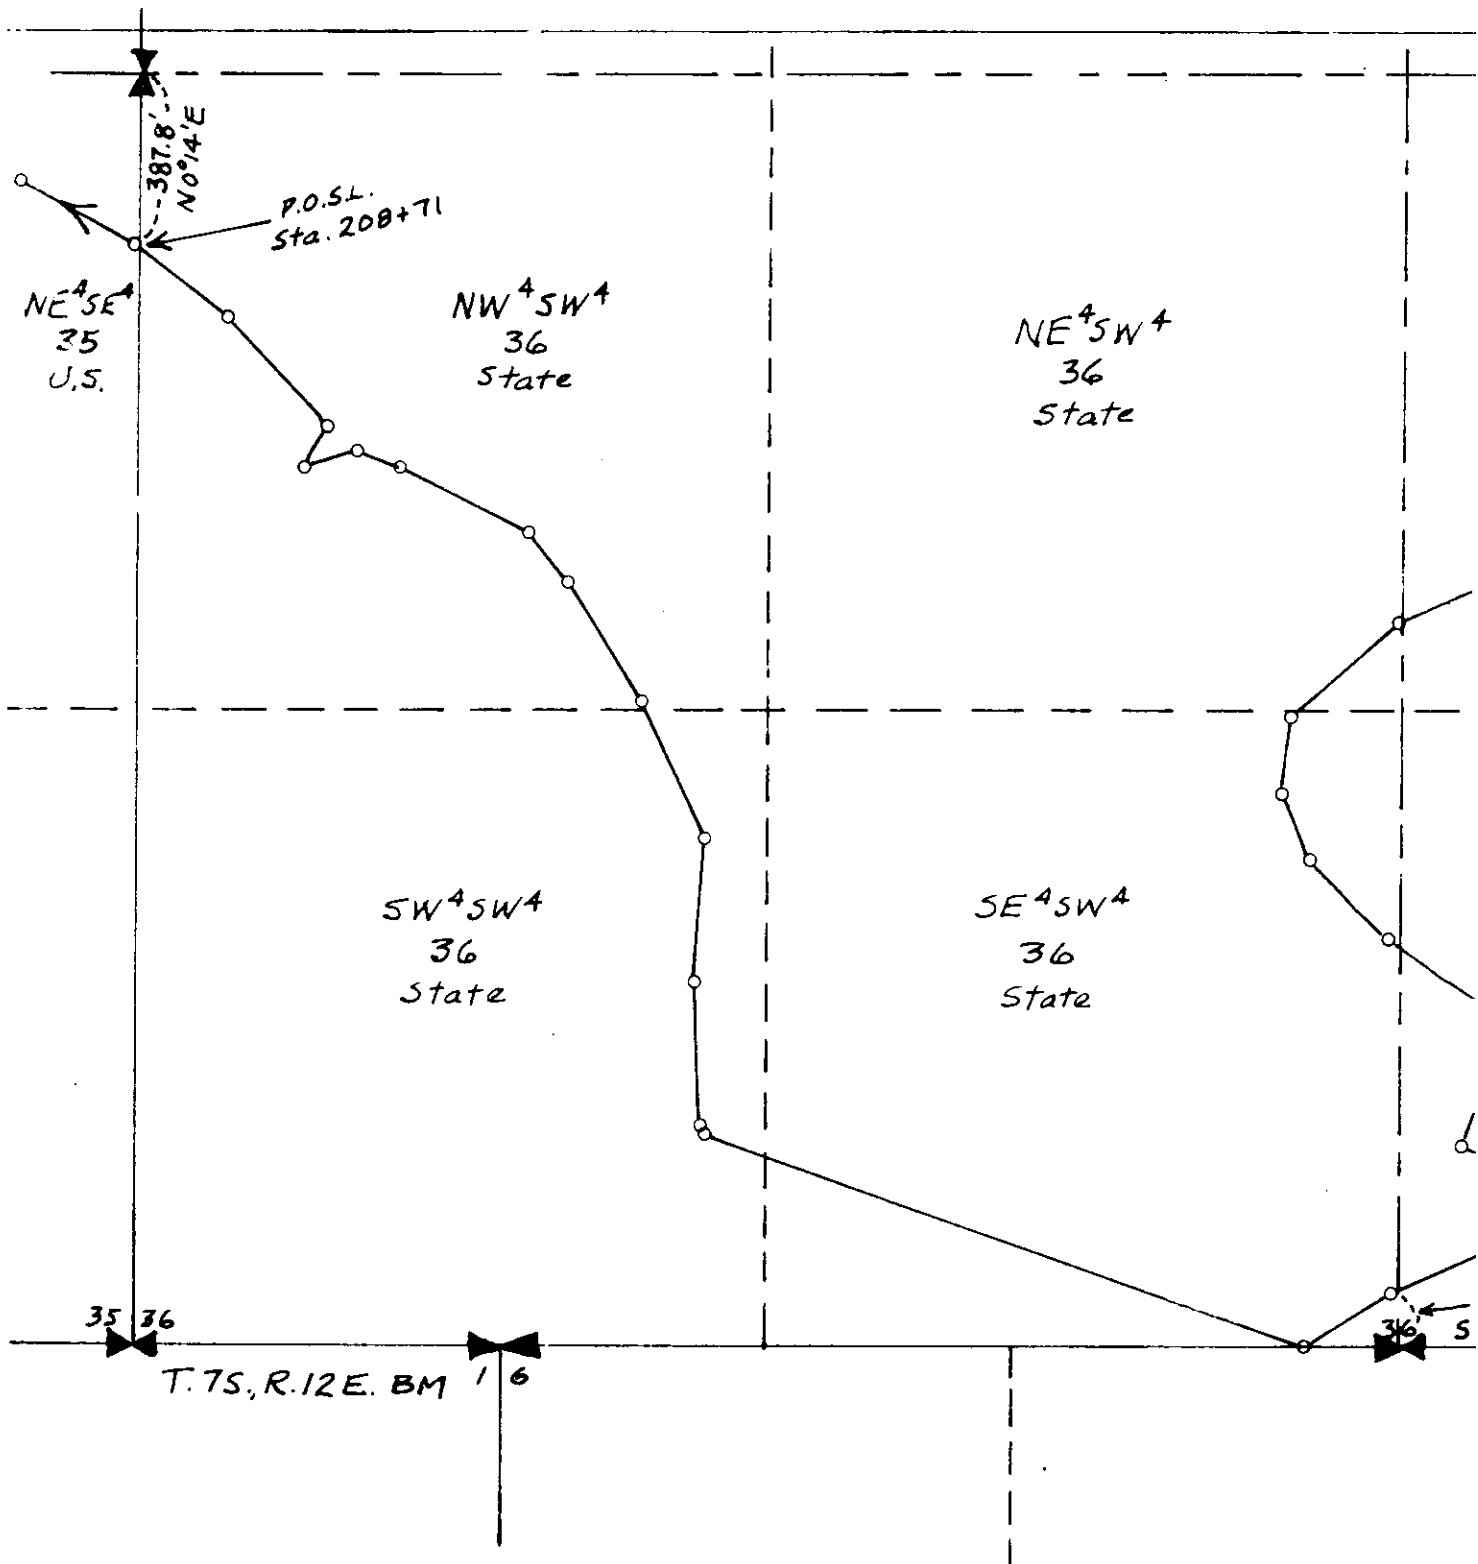

Return the applications immediately after completion of financial report. The legal notice must be sent to you within ten days. Send maps as soon as possible.
