Petroleum Construction, Inc.
P.O. Box 592
Santa Paula, CA 93060

Gentlemen:

Our office acknowledges receipt of Assignment of Permit for the above referenced water rights. However, in reviewing the files I find that the Permits have been licensed.

In Idaho, a licensed water right is considered real property and is acquired when the property to which it is appurtenant to is purchased. Proof to owning the property is proof of owning the water right license.

Therefore, I have put the Assignment of Permit into the files for future reference only and no other action will be taken. I have also enclosed copies of the licenses for your records.

If you have any questions please feel free to contact our office.

Sincerely,

DECISION

Assignee: _____ :
Rex G. Steiner : Desert Land Entry
Assignor: _____ :
Bob D. Collett : Assignment Approved

On January 30, 1969, the above entryman (assignor) was allowed desert land entry, I- 014973, on the following lands:

T. 4 S., R. 2 E., Boise Meridian, Idaho
Sec. 17, NW $\frac{1}{4}$, S $\frac{1}{2}$ NE $\frac{1}{4}$;
Sec. 18, E $\frac{1}{2}$ NE $\frac{1}{4}$.

On July 9, 1970, the entryman (assignor) filed a deed assigning all of his right, title and interest in the entry to the assignee named above. The assignee has filed an affidavit showing that he is qualified to accept an assignment of and hold a desert land entry.

A review of the case file indicates the entry is now in good standing so far as the record shows. However, this office does not attest to the full compliance with the desert land laws as presently reflected by the case record.

The Secretary, Department of the Interior, has set out certain criteria which are now applicable to each entryman. As the assignee is now the entryman of record these criteria are applicable to him. The entry must be reclaimed for his own benefit; the entry may not be assigned to a corporation; the entryman may not, before receiving patent, enter into any arrangement to transfer title to the land after patent is issued; the entryman may not enter into any arrangement which has the effect of permitting anyone to hold more than 320 acres of desert entry land; and the entryman must expend his own money on the necessary irrigation, reclamation and cultivation of the entry or incur a personal liability for any money so expended.

The assignment is hereby approved and the records of this office are noted to show that the assignee is the entryman for the lands assigned under the above-identified desert land entry. The remaining compliance to be met on this entry and the due dates are shown below:

Re: Permit No. 31606

Bob D. Collett
Oreana, Idaho 83659

Dear Mr. Collett:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with those rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department, stating that you have been issued a permit and are now submitting proof of beneficial use. Previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.
