ORDER MODIFYING REQUIREMENTS
FOR COMPLETION OF PERMIT TO
APPROPRIATE WATER

WHEREAS, the 39th Idaho Legislature made certain amendments to the Idaho Water Law; and,

WHEREAS, these changes raised questions as to the procedures to be followed by holders of permits issued prior to the effective date of the amendments, May 31, 1967; and,

WHEREAS, on August 1, 1968, the Department of Reclamation adopted Rules of Practice and Procedures for the processing of such permits issued prior to May 31, 1967; and,

WHEREAS, Permit No. 31536 was issued previous to that date;

NOW THEREFORE, the requirements for completion of the above-numbered permit are hereby modified to conform to the adopted Rules of Practice and Procedures as follows:

1. The above-numbered permit will be completed under the terms of Title 42, Chapter 2, Idaho Code, as amended by the 39th Idaho Legislature.
2. The conditions of the above-numbered permit are modified as follows:
 - a. Notice of the issuance of the permit will be published at the permit holders expense for two weekly issues in the official newspaper of the county in which the point of diversion lies.
 - bb. The permittee will not be required to submit proof of completion of works as originally specified, but will be required to submit proof to the Department of Reclamation of the application of the water to beneficial use on or before November 29, 1970. The permit holder should be aware that ~~Failure to complete one-fifth~~ (1/5) of the works within one-half (1/2) of the time originally set ~~for~~ Completion of Works may be grounds for cancellation at the instance of the Department.

Re: Permit No. 31536

Leon W. Gingrich
Route 4
Nampa, Idaho 83651

Dear Mr. Gingrich:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with those rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department, stating that you have been issued a permit and are now submitting proof of beneficial use. Previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

Very truly yours,

Donald W. McEldowney

Dear sir;

I received your letter concerning the extension of time and point of diversion change concerning my filing. I contacted Mr. Rinehart, my attorney and he suggested that twenty Mile Irrigation Co. release everything back to me.

I am sending two completed forms that he gave me. If there is anything else would you please notify me of it. Also, will you let me know if the amendment to the point of diversion and the extension of time are now valid with these forms. I would like for you to make the change of the two if it is legal, if not I will make application again.

Re: Permit No. 31536
Twenty Mile Water Company

Leon W. Gingrich
Route #4
Nampa, Idaho

Dear Mr. Gingrich:

We are in receipt of your application for extension of time on the above referenced permit. However, in reviewing Permit No. 31536, it is brought to our attention that on September 29, 1964, you and your wife assigned all of your right, title, and interest in Permit No. 31536 to the Twenty Mile Water Company, Grandview, Idaho. In checking with the records of the Secretary of State, it is noted that you are not an elected official of the Twenty Mile Water Company.

In order that an application for amendment or an extension of time be valid, it must be signed by either the applicant, or in case of a corporation, by an elected official of the corporation, or by an individual possessing the power of attorney from the applicant.

It is further noted, that on March 3, 1967, an application for amendment to the point of diversion for Permit No. 31536 was submitted to the Department of Reclamation under your signature. It appears that the amendment was approved in error, therefore, having no valid effect on this permit. In order to correct the situation at hand, it will be necessary for you to either have the permit assigned from the Twenty Mile Water Company back to yourself, or for you to submit evidence that you are an elected official of the corporation or supply the Department of Reclamation with a power of attorney. This would enable you to act in behalf of the corporation in the matters regarding this permit.

If you intend to supply evidence of your authority to function in behalf of this permit for the Twenty Mile Water Company, you should also supply the department with a directive to change the application for amendment dated March 3, 1967, to include a phrase indicating that your name should be shown as representative of the Twenty Mile Water Company instead of the indication which now exists, showing it as a personal amendment.

Your prompt attention to these matters will be appreciated.

Re: Permit No. 31536

Twenty Mile Water Company
Grandview, Idaho 83624

Gentlemen:

Under the terms of your Permit No. 31536 you are required to complete your diversion works on or before Nov. 29, 1967. I enclose blank affidavit to be filled out, sworn to by you before a Notary Public, or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the said permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Very truly yours,

State Reclamation Engineer

Dear Mr. Bosch,

I am writing in answer to your letter concerning Mr. Leon Gingrich. The amendment to point of diversion for Mr. Gingrich is correct. He is connected with the Twenty Mile Water Company, and will be using water from the same source and through the same canal as the other entries are doing now, as soon as he is granted an allowance. I understand the right of ways to his entry are being prepared now, an irrigation plan is being drawn for his entry and everything is in order. He should be pumping water in the near future.

Sincerely,

Ivan Nanney
