

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

NOTICE OF PROOF OF COMPLETION OF WORKS and APPLICATION OF WATER TO BENEFICIAL USE

NOTICE is hereby given that at 2 P. M., on the 28th day of March, 1964, at Nampa, County of Canyon, State of Idaho, before Merle E. McReynolds, Notary Public, at 215 11th Ave. S., Nampa, Idaho, proof will be submitted of the completion of works for the diversion of 4.8 cubic feet per second of the waters of Snake River, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. 20897, heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit is: John H. Brandt, Rt. 2, Nampa, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion and the amount of water which said works are capable of conveying to the place of use is 4.8 cubic feet per second.

3. The use to which said water has been applied is Irrigation purposes, and the amount applied to beneficial use is 4.8 cubic feet per second.

4. The point of diversion of said water is NW $\frac{1}{4}$ of SE $\frac{1}{4}$, Sec. 36, T 1 N., R 3 W. B.M., Canyon County, Idaho.

5. The place where said water is used is SE $\frac{1}{4}$, & S $\frac{1}{2}$ NE $\frac{1}{4}$, Sec. 11, T. 1 N., R. 3 W. B.M., Canyon County, Idaho. Total 240 acres.

6. The date of priority which said user is prepared to establish is Jan. 11, 1963.

CARL E. TAPPAN
State Reclamation Engineer
Feb. 29; March 7, 14, 21, 1964.

Jeanne Bruner
of Nampa, Canyon County, Idaho, being first duly sworn, deposes and says:

1. That I am a citizen of the United States of America, and at all times hereinafter mentioned was over the age of twenty-one years, and not a party to the above entitled action.

2. That I am the Principal Clerk of the Idaho Free Press, a daily, (except Sunday) newspaper published in the City of Nampa, in the County of Canyon, State of Idaho; that the said newspaper is in general circulation in the said County of Canyon, and in the vicinity of Nampa, and has been uninterruptedly published in said County during a period of seventy-eight consecutive weeks prior to the first publication of the notice, a copy of which is hereto attached.

3. That the notice, of which the annexed is a printed copy, was published in said newspaper

Four times in the regular and entire issue of said paper, and was printed in the newspaper proper, and not in a supplement.

4. That said notice was published the following dates:

State of Idaho
License and Certificate of Water Right

Water License No. 30897 Amount 4.46 c.f.s.
Water District No. Priority Jan. 11, 1963

THIS IS TO CERTIFY that JOHN H. BRANDT
of Nampa, Idaho, made application for a permit to appropriate the
public waters of the State of Idaho, dated January 11, 19 63 ; that Permit No. 30897
was issued under said application; that Certificate of Completion of works, with a carrying capacity of
4.46 second feet, was issued thereunder on August 18, 19 65, showing that said works
were completed on the 28th day of March, 19 64 ; and that on the 28th
day of March, 19 64, JOHN H. BRANDT

of Nampa, State of Idaho, made proof to the satisfaction of the
State Reclamation Engineer of Idaho, of the right to use the waters of Snake River
, a tributary of Columbia River, for the purpose of irrigation
, under Use Permit No. 30897 of the Department of Reclamation
and that said right to the use of said waters has been perfected in accordance with the laws of Idaho,
and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume
13 of Licenses at page 8223, on the 18 day of August, 19 65 ;

The right hereby confirmed dates from January 11, 19 63 ;

The Point of Diversion is located
in the NW 1/4 SE 1/4, Sec. 36, Tp. 1 N, R. 3 W, B. M. Canyon County
That the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall
not exceed 4.46 cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated

Application For Permit To Appropriate the Public Waters of the State of Idaho

APPLICATION No. 38979
PERMIT No. 30897
DISTRICT No.

02-2193

1. Name of Applicant: John H. Brandt

Postoffice address: R. #2, Nampa

County: Canyon

State: Idaho

I. If applicant is a corporation, give:

- (a) Date and place of incorporation:
- (b) Amount of capital stock:
- (c) Amount paid in:
- (d) Names and addresses of directors:

II. The financial resources of the applicant are:

- (a) Cash on hand:
- (b) Treasury stock:
- (c) Bond to be issued:
- (d) Other resources:

2. Quantity of water claimed: 4.8

cubic feet per second.

3. Source of water supply: Snake River

which is a tributary of Columbia River

4. Location of point of diversion:

feet distant from the

corner of Section , T. , R. , B.M., and is in the NW $\frac{1}{4}$ of SE $\frac{1}{4}$

of section 36 , T. 1 N , R. 3 W. , B. M., County of Canyon

5. Water is to be used for Irrigation

6. If for mining, milling, power or manufacturing purposes, give:

(a) Point of use of water: feet distant from corner of Section

T. , R. , B.M., in the of Section of , T. , R. , B.M.

(b) Amount of power generated: H.P., under feet head.

(c) Water is to be returned to at a point feet

distant from the corner of Section , T. , R. , B.M., in the
of Section , T. , R. , B.M.

7. Estimated cost of works: \$ 30,000

8. Kind of works: Pump, Penstock & ditches - possibly some concrete

9. Height of dam feet; length of dam at top feet; length of dam at bottom

feet; material used in dam:

10. Size of headgate: Width feet; height feet.

11. Ditch: Width at bottom 1 fee; width at water line 3 feet; depth of water 1 $\frac{1}{2}$ feet;
dimensions of flume:

Diameter of pipe inches; length of conduit miles.

Average grade per mile feet.

12. The time required for the completion of such work is 5 years.

13. The time required for the complete application of the water to the proposed use is 6 additional years.

14. The land to be irrigated is described in the following tabulation: See remarks.

15. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: none

16. (a) Is reservoir to be used? If so, fill in (b) and (c) below:
 (b) Name of Reservoir and number of Storage Permit:
 (c) Date of filing of Application for Storage Permit and Name of Applicant:

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public water of the State of Idaho as herein set forth.

REPORT OF ENGINEER

Permit No. 30897

This proof is for Completion of Works & Beneficial Use In Water District No. _____

1. Name of applicant John H. Brandt
2. Source of water supply: Snake River
3. Location of point of diversion: Is in the NW 1/4 SE 1/4 of Section 36
T. 1N R. 3 W.B.M. County of Canyon

4. Describe works as they exist, giving dimensions and capacities of same:

Retift Pump from Hat Butte System is a 75 HP US Holloshaft Motor # 3476797, Layne-Bowker Pump # 44065P, 10" discharge into a 12" steel main line for Sprinkler System. There is a 12" Sparling Meter in line at Pump # 54577. There is a control valve at pump flange.

5. Water is used for: irrigation

6. State whether or not water has been turned into works of diversion: yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

S 1/2 NE 1/4, SE 1/4 Sec. 11., Twp. 1 N., Rge. 3 W.B.M.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach?

Remarks: No one along at time of examination

8/11/65 Mr. John Brandt and Dale Jones, center along on this examination. It was necessary to clean and repair meter head to obtain reading.

11 lines on

1 off
12 total lines

The system had one 1/4 mile line not in operation. The meter registered 5 Rev. = to 217.8 cubic feet in 58 seconds = 3.75 cfs.

8/11/65 Remeasured 12 lines 1 open run = 5 Rev. 49 Sec. = 4.46 cfs.

This examination was made on the 5th day of June, 1964

BRANDT FARM MANAGEMENT SERVICE

EXPERIENCED :: SUCCESSFUL :: COMPLETE

215 ELEVENTH AVENUE SOUTH
NAMPA, IDAHO

September 25, 1964

Department of Reclamation
107 State House
Boise, Idaho

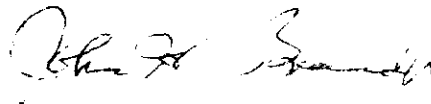

Attention: Engineer Johnson

Gentlemen:

When I was last in the office, arrangements were made that I would call when Hat Butte and West End Projects were pumping to full capacity so that Mr. Johnson could see them and at the same time review the completion of works on our 240 acres. As I stated when in the office, there are certain seasons of the year when a larger amount of water is needed on crops than at other times of the year. When the water is applied by sprinkler system, a simple means of controlling this is by putting on a larger orifice. At the time Mr. Johnson checked the usage, we had on a smaller outlet than the one which would use the system to full capacity.

The purpose of this letter is to inform you that I spent approximately a month in the hospital this summer. Because of this and certain ditch breaks and motor trouble, we were not able to set a date when proper and adequate checking was possible. We are consequently delaying requests for license on our 240 acres in Section 11 until next summer, at which time the system will be operating at full capacity, and we hope at a time when both West End and Hatt Butte will likewise be operating to full capacity so that a trip will be justified. We will notify you accordingly.

Very truly yours,

John H. Brandt

John H. Brandt
Rt 2
Nampa, Idaho

Dear Mr. Brandt:

Our field engineer's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. 30897 shows the pumps and pipe lines are capable of conveying 200 miner's inches, or 4.0 c.f.s. for irrigation of 238 acres.

Upon receipt of the statutory fees totaling \$19.00 we will issue the Certificate of Completion of Works and License and Certificate of Water Right, confirming the right, with priority of January 11, 1963, to the use of 4.0 second feet of surface water with the point of diversion in the NW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 36 from Snake River for irrigation of 238 acres in the S $\frac{1}{2}$ NE $\frac{1}{4}$, SE $\frac{1}{4}$, Sec. 11, T. 1 N., R. 3 W., S.M.

Very truly yours,

CARL E. TAPPAN
State Reclamation Engineer

Re: Permit No. 30897

John H. Brandt
Route #2
Nampa, Idaho

Dear Mr. Brandt:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the IDAHO FREE PRESS, all submitted in proof of completion of works and beneficial use on Permit No. 30897.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours ,

GEO. N. CARTER
State Reclamation Engineer

PROOF OF APPLICATION OF WATER TO BENEFICIAL USE
and Completion of Works

DEPOSITION OF HOLDER

Ques. 1. State your name, residence, occupation and postoffice address: _____

John H. Brandt, R. 2 Range, Idaho, farmer & real estate

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf: _____

Ques. 3. State number, approval date of permit, and date of priority you propose to establish under the permit; 30897 Jan 14 1963, Jan 14 1963

Ques. 4. State source of water supply: Snake River Canyon County Idaho
Give location of point of diversion, showing subdivision, section, township and range:

NW 1/4 Sec 36, T1N, R3W, B1M

Ques. 5. Describe your works of diversion: 6 - 600 horse power motors

1 - 350 horse motor now supply them; 30" pipe to Hat Butte Canal.
We have right with 3 - 125 horse 160' - Then we have 75' to put these sprinklers
veying from point of diversion to place of use 2500; Give name of canal or ditch

or other works by which water is conducted to such place of use: Hat Butte

_____ ; if a well, state depth of well _____ ; depth and size of casing: _____ ; depth to water _____ ; if pump is used,

state discharge of pump: 240' ; tell how it was measured or determined: gauge

_____ ; if sprinkler irrigation, give number and size of nozzles and operating pressure: 396 - 430 Rainbirds 5/32 - 4 1/2 gal per min. As pressure at nozzle 40 lb or more. 70 lb at pump.

Ques. 6. State for what purpose water is used: Irrigation
If for irrigation, name each subdivision in which used and number of acres in each subdivision that have actually been irrigated with said water: _____

SE 1/4 & SE 1/2 R 3 E 4 Sec 11 T 1 N. R 3 W B 1 M

State nature of all improvements which have been made as a direct result of said use:

11 acres 8000 grain, 160 potatoes in 1963 - leveled, fertilized irrigated after clearing brush.

DR

Ques. 6-a: If this is a ground water permit, give name and address of person that drilled the well: _____

Ques. 7. If for other than irrigation purposes, state purpose and how used: _____

Ques. 8. What is the minimum amount of water required for the purpose specified above: _____

240 minus inches - 4.8 CFS

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder: _____

Ques. 10. State when and in what amount the water diverted under above mentioned permit has been first used: Spring 1963 Time used since first use: _____

Continuously throughout season

Ques. 11. Describe all other water rights appurtenant to same place of use: _____

None

PERMIT NO. _____

**Proof of Application of Water to Beneficial Use
and Completion of Works
Deposition of Witness**

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Ernest E. Johnson, 52 R 5 Range, Idaho, farmer
realtor,

Ques. 2. Are you acquainted with John H. Grandt, the holder of Permit No. 30897? How long have you known him and where does he reside?

Ans. Many years R 2 Range, Idaho

Ques. 3. Have you read or heard read said Permit No. 30897, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Snake River NW SE Sec 36 T 14 R 2 W 13 M
Pumps from river - Kat Battle Canal Co. concrete ditch,
culvert

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 4.8 cfs.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Raised 80 acres grain & 160 acres potatoes in 1963
all irrigated - grubbed, leveled,

30897

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. _____

Ques. 8. If for irrigation, state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Class 1 & 2 1" per acre

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I work in the same office with John Brant and have full knowledge of the project, having watched it develop from the beginning.

(Signed) Ernest H. Schoen

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Kemp, County of Canyon, State of Idaho, on this 28 day of March, A. Re: Permit No. 30897

Mr. John H. Brandt,
Rt. 2,
Nampa, Idaho.

Dear Mr. Brandt:

This acknowledges the Notice of Proof of Completion of Works and Application of water to Beneficial Use under Permit No. 30897. The proofs are to be made at 2:00 o'clock P.M. on the 28th day of March, 1964, before Merle E. McKeaynolds, 215 - 11th Ave. So., Nampa, Idaho, Notary Public.

As of this date, we have mailed the Notice to the Idaho Free Press Nampa, Idaho, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION.

Very truly yours,

CARL E. TAPPAN

BRANDT FARM MANAGEMENT SERVICE

EXPERIENCED :: SUCCESSFUL :: COMPLETE

206½ TWELFTH AVENUE SOUTH
NAMPA, IDAHO

April 18, 1963

Mr. and Mrs. Leonard Bledsoe
Marsing, Idaho

Dear Mr. and Mrs. Bledsoe:

We regret the inconvenience which we have caused you with respect to your domestic water supply. Little did we think that at the distance which our well is situated from yours that it would affect your water supply, but it appears that when we are pumping full force for a number of days, your well is affected adversely.

You will recollect that immediately upon your bringing this to our attention, we shut off our pump, and with your consent and cooperation, voluntarily proceeded to deepen your well and put in an expensive new pump. Unfortunately your old casing would not drive more than about 20 to 25 feet, but the driller went on to a depth of about 176 feet or thereabouts.

Upon installing the pump above the 150 foot level, it appeared that the problem was solved, as you had an ample supply of water even tho our well was running full force for many days, drawing down to 240 feet.

Altogether for pump and well we spent over \$800.00 to provide you with good water. This spring, however, you again reported that you were short of water, this in spite of the fact that our well was drawing down to only 160 feet. Again we dug out your well covering and lowered the pump, only to discover the well had filled up to about 136 feet. Our well driller informs us that it will likely be impossible to keep the sand out of the well without going on down with a three inch liner in your four inch well.

Undoubtedly this will provide ample good water and perhaps in as adequate supply as you originally had, especially if we put a three inch submersible pump in place of the four inch pump we supplied you and then put a booster pump in your basement as you originally had it. This we are willing to do.

We are also willing to pipe the good water from our well over to your house, install a new pump, and thus provide an ample supply of water.

As a last resort we offered to drill a new five inch well for you to the 240 foot level, thus insuring you an adequate supply of good water. We were willing to have a neutral committee determine that the water is good for culinary use.

Mr. and Mrs. Leonard Bledsoe

-2-

This offer you have refused. We have made every effort to remedy the situation voluntarily, without being forced. We have tried to be neighborly and friendly.

We are still desirous of providing you with an adequate supply of good water. We are willing to leave the determination of what is "adequate" and "good" to a committee of disinterested people. We wish to explore all possibilities of such supply and to provide said water at the lowest possible cost acceptable to said committee.

May we please have your acceptance of this offer at once? We will then take such steps as are necessary to provide the water as recommended by the committee.

We expect to turn on our irrigation pump full force within the next few days. In case you do not care to agree between ourselves, we will gladly abide by the decision of the Underground Water Board as provided by law to be set up by the State of Idaho Reclamation Engineer. Please consult said engineer or your own attorney to determine the limits of your priority and water right. We now intend to stand on our rights.

Leonard Tiegs
