Gentlemen:

It appearing to the State Reclamation Engineer that the terms and conditions of Permit 30881 to appropriate the public waters of the State of Idaho, have not been complied with as to failure to submit proof of completion of works due January 8, 1968,

you are hereby notified that under the provisions of Section 42-311, Idaho Code, as amended, said permit is hereby held for cancellation, and you are required to show cause before the State Reclamation Engineer on or before April 8, 1968, why said permit should not be cancelled.

Permit 30881 claims the use of 6.4 c.f.s. of water. The point of diversion was to be located NE1/4, Sec. 36, T. 1 N, R. 3 W, B.M., Canyon County,

and the permit was approved January 8, 1963.

Dear Mr. Clements:

Under the terms of your Permit No. 30881 you are required to complete your diversion works on or before January 8, 1968. I enclose blank affidavit to be filled out, sworn to by you before a Notary Public, or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the said permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.
