Re: Permit No. 30089
Dean E. Call

ATTENTION: Carl E. Tappan

Dear Mr. Tappan:

Thank you very kindly for your letter of June 1, transmitting instructions with respect to Proof of Completion of Works. The permittee, Dean E. Call, completed his diversion of works in advance of the time specified, and the works have been completed, permanently installed and fully utilized for approximately 2 years.

The water and diversion works have been used upon the Desert Entry of this permittee.

The permittee has executed and acknowledged the affidavit of Proof of Completion, under your permit No. 30089.

Once again, both the permittee and this office wish to thank you for the tremendous and conscientious assistance you have given over the period of the diversion and appropriation of this necessary water.

We will look forward to receiving a Certificate of Completion, at your convenience. If there is anything further which either the permittee or this office can do, please advise.

We also note that the law requires the submission of another Proof when the water has been fully applied to a beneficial use. In view of the fact that the water has been fully applied to a beneficial use for quite some time we assume that the Department of Reclamation will want us to proceed with the final and ultimate proof in this regard. At your convenience, then, will you send along the necessary information and material relating to the last Proof required by your department. Thank you, and we will certainly accommodate you in that regard.

Respectfully,

Jayson Holladay

Dear Mr. Holladay:

Under the terms of your Permit No. 30090 you are required to complete your diversion works on or before Aug. 8, 1966. I enclose blank affidavit to be filled out, sworn to by you before a Notary Public, or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, [REDACTED] a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Very truly yours,

CARL E. TAPPAN
