Dear Mr. Young:

The Department of Reclamation has conducted a field examination of the land and works covered by the above referenced permit and has found 40 acres of land, which is not covered by the original permit, being irrigated in the NE $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 3, T. 6 S., R. 5 E., B.M. In order to have these 40 acres covered by the license, the above numbered permit must be amended. Enclosed is a partially completed application for amendment. If you agree with the findings of the department, please sign the application and return it with a \$5.00 fee.

Your works were found capable of producing 36.88 c.f.s. of which 5.79 c.f.s. of water can be recognized as beneficially used and licensed under Idaho law. The water is used for irrigation of 315 acres of land in the NW $\frac{1}{4}$, NW $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 2; E $\frac{1}{2}$ NE $\frac{1}{2}$, NE $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 3, T. 6 S., R. 5 E., B.M. ORDER MODIFYING REQUIREMENTS
FOR COMPLETION OF PERMIT TO
APPROPRIATE WATER

WHEREAS, the 39th Idaho Legislature made certain amendments to the Idaho Water Law; and,

WHEREAS, these changes raised questions as to the procedures to be followed by holders of permits issued prior to the effective date of the amendments, May 31, 1967; and,

WHEREAS, on August 1, 1968, the Department of Reclamation adopted Rules of Practice and Procedures for the processing of such permits issued prior to May 31, 1967; and,

WHEREAS, Permit No. 27915 was issued previous to that date;

NOW THEREFORE, the requirements for completion of the above-numbered permit are hereby modified to conform to the adopted Rules of Practice and Procedures as follows:

1. The above-numbered permit will be completed under the terms of Title 42, Chapter 2, Idaho Code, as amended by the 39th Idaho Legislature.
2. The conditions of the above-numbered permit are modified as follows:
 - a. Notice of the issuance of the permit will be published at the permit holders expense for two weekly issues in the official newspaper of the county in which the point of diversion lies.
 - b. The permittee will not be required to submit proof of completion of works as originally specified, but will be required to submit proof to the Department of Reclamation of the application of the water to beneficial use on or before June 2, 1971. The permit holder should be aware that failure to complete one-fifth (1/5) of the works within one-half (1/2) of the time originally set for Completion of Works may be grounds for cancellation at the instance of the Department.

Re: Permit No. 27915

Blaine Mecham
Route # 1
Hazelton, Idaho

Dear Mr. Mecham:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department, stating that you have been issued a permit ~~and are now submitting proof of beneficial use.~~ Previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

Very truly yours,

Dear Mr. McDowell:

Under the terms of your Permit No. 27915 you are required to complete your diversion works on or before May 4, 1964. I enclose blank affidavit to be filled out, sworn to by you before a Notary Public, or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

DECISION

Assignee: **Blaine Mochan**

Desert Land Entry

Assignor: **William L. Hawley**

Assignment Approved

On June 2, 1966, the above entryman (assignor) was allowed desert land entry, I-011211, on the following lands:

T. 6 S., R. 5 E., Boise Meridian, Idaho
sec. 2, lots 3, 4, ~~5, 6, 7, 8, 9, 10, 11, 12~~
sec. 3, lot 1, ~~2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12~~

On August 5, 1966, the entryman (assignor) filed a deed assigning all of his right, title and interest in the entry to the assignee named above. The assignee has filed an affidavit showing that he is qualified to accept an assignment of and hold a desert land entry.

A review of the case file indicates the entry is now in good standing so far as the record shows. However, this office does not attest to the full compliance with the desert land laws as presently reflected by the case record.

The Secretary, Department of the Interior, has set out certain criteria which are now applicable to each entryman. As the assignee is now the entryman of record these criteria are applicable to him. The entry must be reclaimed for his own benefit; the entry may not be assigned to a corporation; the entryman may not, before receiving patent, enter into any arrangement to transfer title to the land after patent is issued; the entryman may not enter into any arrangement which has the effect of permitting anyone to hold more than 320 acres of desert entry land; and the entryman must expend his own money on the necessary irrigation, reclamation and cultivation of the entry or incur a personal liability for any money so expended.

The assignment is hereby approved and the records of this office are noted to show that the assignee is the entryman for the lands assigned under the above-identified desert land entry. The remaining compliance to be met on this entry and the due dates are shown below:
