			<u>REMARKS:</u> herein It will be noted that I have applied for more than 1" to the acre of land. This is a particular necessity because of the fact that the land I am irrigating here is a small tract with only a head of 60" of water, it is impossible to irrigate the area. I will need a larger head of water to cover it and the land in this area is extremely sandy. This sand will not raise a crop on the area I intend to irrigate with less than 100". I have lived many years in this area and have land adjacent with is even better than that applied for and utilized by this irrigation. On lands of this nature with very little or no organic matter, quite porous and any type of crop has to be wet several times to keep the surface and growing area in such a condition that it will support plant growth. For these reasons it is respectfully requested that my application for 100" of water be granted so I can use it more efficiently on this ground to bring it to its highest and best use.

Re: Permit No. 27756

Dear Sirs:

Under the terms of your Permit No. 27756 you are required to complete your diversion works on or before Feb. 17, 1964. I enclose blank affidavit to be filled out, sworn to by you before a Notary Public, or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Very truly yours,

Boise, Idaho.

Dear Mr. McDowell:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. 27756, in the name of Cecil L. Hampton. Final Proof is to be made before ~~you~~ Joan Bain as Notary on the 22nd day of May, 19 64, at 11:00 o'clock A.M., at 224 Idaho Building, Boise, Idaho.

As of this date, we have mailed the Notice to the Owyhee Nugget Marsing, Idaho, with instructions to publish it once a week for 3 consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done hereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In return the depositions to this office, be sure that all copies have been filed, that your Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION.

Dear Mr. Hampton:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the Owyhee Rugget, all submitted in proof of completion of works and beneficial use on Permit No. ²⁷⁷⁵⁶.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours ,
