(if foreign corporation, give name of postoffice of statutory agent), your
position with reference to same, and your authority for appearing in its behalf:

individual

Ques. 3. State number, approval date of permit, and date of priority: 26757,
approved 3/1/57; priority 4/9/57

Ques. 4. State source of water supply: Snake River.
Give location of point of diversion, showing subdivision, section, township and range
Lot 1 (NE $\frac{1}{4}$ NE $\frac{1}{4}$) Sec. 3, T6S-R4E, B.M.

Ques. 5. Describe your works of diversion: _____

Works consist of 1 turbine type pump, 150 horsepower, producing 3300 gpm; 1-60 hp turbine type pump, producing 1200 gpm; 1-275 hp centrifugal pump, producing 5800 gpm, all installed to fall into a 30" pipeline which is capable of carrying 1500 miner's inches. This falls into a ditch approximately 1/4 mile long. This is a private ditch which will readily carry 1500 miner's inches, then this branches into several laterals and distribution ditches over the entire area which will adequately carry all the water produced. The drawdown, static water level would be from 150' to 143'. This is a point where it is discharged from the pipeline into the ditch and then flows from gravity. This was measured by an engineer hired by Grandview Realty, Inc. I have not seen it measured myself, I only know that it should do that from having seen other water measured. All surface gravity, no sprinklers. I have been assigned 75 inches of water from the above described works under permit 26757.

Ques. 6. State for what purpose water is used: irrigation
(If for irrigation, name each subdivision in which used and number of acres in each subdivision that have actually been irrigated with said water:

irrigation only

Ques. 8: If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder:

John Reid Robinson, Mildred E. Swanson, Margaret E. Robinson & Ralph E. Gale assigned this permit to Grandview Realty; Grandview Realty assigned 75 inches to me.
Quest. 9: State when and in what amount the water diverted under above mentioned permit has been first used: _____ - Time used since first use:

This water was immediately developed after it was filed on in 1957 and has been used each season since then.

Ques. 10. Describe all other water rights appurtenant to same place of use: none

Ques. 5. Describe your works of diversion: _____

Works consist of 1 turbine type pump, 150 horsepower, producing 3300 gpm; 1-60 hp turbine type pump, producing 1200 gpm; 1-275 hp centrifugal pump, producing 5800 gpm, all installed to fall into a 30" pipeline which is capable of carrying 1500 miner's inches. This falls into a ditch approximately 1/4 mile long. This is a private ditch which will readily carry 1500 miner's inches, then this branches into several laterals and distribution ditches over the entire area which will adequately carry all the water produced. The drawdown, static water level would be from 150' to 143'. This is a point where it is discharged from the pipeline into the ditch and then flows from gravity. This was measured by an engineer hired by Grandview Realty, Inc. I have not seen it measured myself, I only know that it should do that from having seen other water measured. All surface gravity, no sprinklers. I have been assigned 75 inches of water from the above described works under permit 26757.

Dear Mr. McDowell:

Returned herewith are six applications for
amendment to land list for revision of land.

I understand that NE₄NE₄, Sec. 9 should be
included and suggest that NE₄, be shown and NW₄NE₄, S₂NE₄, should
be crossed out.

What about SE₄SE₄, Sec. 4?

RE: Permit Nos. 21789, 22653, 26518, 26757

L. E. Haight, Vice President
Grandview Realty Inc.
Box 2297
Boise, Idaho

Dear Mr. Haight:

Enclosed is the report of examination of works under Permit No. G-26757, Also enclosed are four forms to amend the land list.

The other permits listed above, all of different priority, conflict to some extent with No. 26757 which is the latest priority. All permits were for one miner's inch per acre of land except 21789 and 22653 which together make a total of one inch per acre for the same land. A rough check shows one 40-acre subdivision with over 40 inches and most with less.

The examination report shows more acres irrigated than shown on the permits together in some subdivisions, though some particular subdivisions are less.

This office cannot allow over one miner's inch per acre of irrigable land under all water rights from the same source. Trouble will arrive with the three other permits, two of which cover the same subdivisions plus additional land, and one covering part of this land, but not all the land, in arriving at an equitable distribution of water.

I suggest that all permits be amended to show all of the project land without restriction to acres in each subdivision such as NE $\frac{1}{4}$ SW $\frac{1}{4}$, S $\frac{1}{2}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$, Sec. 3; SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 4; NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 8 etc. with any extra land you are irrigating which is not shown on the permits at present. That will give all the land an equal water right with equal priorities. It would also require another inspection of the property under Permit No. 26757.

Re: Permit No. 26757

L. E. Haight, Vice President
Grandview Realty Inc.
Box 2297
Boise, Idaho

Dear Mr. Haight:

Our field engineer's report on his inspection of the application of water to beneficial use under the terms of Permit No. 26757 shows the pump and pipe line are ~~is~~ capable of conveying 110 miner's inches, or 2.2 c.f.s. of water for irrigation of 582 acres.

Upon receipt of the statutory fees of \$ 28.00 - based at the rate of \$2.00 for each 40-acre subdivision - we will issue the License and Certificate of Water Right, confirming the right with priority of April 9, 1957 to the use of 2.2 second feet of surface water with the point of diversion in Lot 1 (NE $\frac{1}{4}$ NE $\frac{1}{4}$) Sec. 3, T. 6 S., R. 4 E., B.M. from Snake River for irrigation of 582 acres in the S $\frac{1}{2}$ NE $\frac{1}{4}$, Sec. 3; NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 8; NW $\frac{1}{4}$ NE $\frac{1}{4}$, S $\frac{1}{2}$ NE $\frac{1}{4}$, N $\frac{1}{2}$ NW $\frac{1}{4}$, Sec. 9; NW $\frac{1}{4}$ NE $\frac{1}{4}$, S $\frac{1}{2}$ NE $\frac{1}{4}$, S $\frac{1}{2}$ NW $\frac{1}{4}$, NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 10, T. 6 S., R. 4 E., B.M.

Since your permit does not include the SE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 10 it will be necessary to amend the land list on the permit if you want the extra land included in the license. Complete the enclosed form, submit it with the above mentioned statutory fees, plus an additional fee of \$1.00 for recording the amendment, to this office and the License and Certificate of Water Right will be issued as shown above.

If you do not want the extra land included the statutory fees will total \$26.00 and the land list will be restricted to the lands shown on the permit which are actually irrigated.

Dear Mr. McDowell:

We have the report of the field examiner that 632 acres are presently being irrigated in Secs. 2, 3, 10 and 11, T. 6 S., R. 4 E., B. 1" under the above noted permits.

The land in Secs. 4 and 9 is being leveled, with new location of ditches which will require further proofs of beneficial use of the water.

Permit No. 21789 claims 12.3 cubic feet per second, and Permit No. 22644 claims 1.7 cubic feet per second, sufficient to cover the 12.4 c.f.s. allowable.

The fees for the two water licenses total \$44.00 for 22 subdivisions inspected.

Our letter to Mr. L. E. Haight, Vice President of Grandview Realty, Inc., in regard to Permit No. 26757 is voided as the report of the examiner showed more land than can be irrigated.

Permit No. 26757

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. L. E. Haight; residence, 1910 Montclair Dr., Boise, Ida.; occupation, attorney & vice-president, Grandview Realty, Inc.; postoffice address, Box 2277 Boise, Idaho.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Acting as vice-presidence Grandview Realty, Inc., Box 2777, Boise, Idaho

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit 26757; date of permit, 3/1/57; date of priority 4/9/57.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Snake River. Point of diversion, Lot 1 (NE $\frac{1}{4}$ NE $\frac{1}{4}$,) Sec. 3, T6S-R4E., B.M., Ida.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure. Works consist of 1 turbine type pump, 150 horsepower, producing 3300 gpm; 1-60 hp turbine type pump, producing 1200 gpm; 1-275 hp centrifugal pump, producing 5800 gpm, all installed to fall into a 30" pipeline which is capable of carrying 1500 miner's inches. This falls into a ditch approx. 1/4 mile long. This is a private ditch which will readily carry 1500 miner's inches, then this branches into several laterals and distribution ditches over the entire area which will adequately carry all the water produced. The drawdown, static water level would be from 150' to 143'. This is a point where it is discharged from the pipeline into the ditch and then flows from gravity. This was measured by an engineer hired by Grandview Realty, Inc. I have not seen it measured myself. I only know that it should do that from having seen other water measured. All by surface gravity, no sprinklers.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for irrigation only of the following lands: T6S-R4E., Sec. 10, NW $\frac{1}{4}$ NE $\frac{1}{4}$, 20 acres; SE $\frac{1}{4}$ NW $\frac{1}{4}$, 40 acres; SW $\frac{1}{4}$ NW $\frac{1}{4}$, 40 acres; Sec. 9, SW $\frac{1}{4}$ NE $\frac{1}{4}$, 40 acres; NW $\frac{1}{4}$ NE $\frac{1}{4}$, 20 acres; SE $\frac{1}{4}$ NE $\frac{1}{4}$, 40 acre; NE $\frac{1}{4}$ NW $\frac{1}{4}$, 15 acres; Sec. 3, SE $\frac{1}{4}$ SE $\frac{1}{4}$, 10 acres; SW $\frac{1}{4}$ SE $\frac{1}{4}$, 30 acres. This is all cultivated land and all the improvements were made as a direct result of said use.

Ques. 6-a If this is a ground water permit, give name and address of person that drilled the well.

Ans. _____

26757

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Irrigation only.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. We need at least 1 miner's inch to the acre for this surface irrigation and, in order to raise diversified crops, we could use 2"/acre and do in order to produce a crop.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. This was assigned from John R. id Robinson, Mildred E. Swanson, Margaret E. Robinson & Ralph E. Gale.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. This water was immediately developed after it was filed on in 1957 and has been used each season since then.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. 22653, 21789, 26518. Waters from these permits have been diverted on the land and beneficial use proof is set for 8/17/62.

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. None.

Ques. 8. If for irrigation, state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. This is a basaltic soil and is very sandy. In my opinion, for profitable irrigation here and cultivation of the crops grown, he would need 2^m/acre. This soil has a great deal of perosity.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I knew the area before this installation was made. I was hired to check the design. I have improved on the original design and have supervised the present facilities here and have been very familiar with it during each irrigation season.

Dear Mr. McDowell:

This acknowledges the Notice of Proof of ~~Completion of Works and~~ Application of Water to Beneficial Use under Permit No. 26757, in the name of Grandview Realty, Inc.. Final Proof is to be made before you, as Notary on the 20th day of April, 1962, ~~1962~~ at 10:00 o'clock A.M., at 329 Idaho Building, Idaho.

As of this date we have mailed the Notice to the Owyhee Nugget, Marsing, Idaho with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions, (Holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

Date: Jan. 3, 1962

Harley M. McDowell
Boise, Idaho

Dear Mr. McDowell:

The date for proof of application of water to beneficial use, as set out under the terms of Permit No. 26757 is due not later than March 1, 1962. If by this date you are not prepared to make this proof, you may make it at a later date, however, your priority will be advanced the same length of time for which the proof is late.

Before this proof can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county.

We enclose Form 10, in duplicate, which is to be filled in and returned to this department at least forty (40) days before the above mentioned date and/or before the time you intend to make proof. This form, in duplicate, is to include the time of day, the date, the name of the town, the address of the Notary Public before whom you will appear to make the depositions of proof (this may be at any place that is convenient for you and your two witnesses), the quantity of water, for what purpose it is used, the point or points of diversion and the location of use or lands which are irrigated - by legal land description. Descriptions should be taken from your Permit, including any amendments thereto, as recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your notice is published.

Also enclosed is Form 11, which is the authorization for us to have the notice published in the designated county newspaper, at your expense. This is to be returned with Forms 10.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set and at the place named, before the Notary Public, as advertised in the publication notice.

The amount of water allowed in a license cannot be more than is actually produced and measured and put to beneficial use, and cannot be more than the statutory amount allowable per acre of land actually found by field inspection to have been irrigated at the time of proof.
