

Mr. Stanton Park
Attorney At Law
Mountain Home, Idaho

Dear Mr. Park:

Our field engineer's report on the application of water to beneficial use under the terms of Permit No. 25001, Grant Hotchkiss of Hammett, Idaho, shows that his works are capable of conveying 15 miner's inches of water from Snake River for irrigation of 15 acres.

Upon receipt of the statutory fee of \$2.00, we will issue to Mr. Hotchkiss the License and Certificate of Water Right under Permit No. 25001 confirming the right with priority of June 15, 1954, to his use of .3 second foot of water from Snake River, with the point of diversion in the NE $\frac{1}{4}$ NW $\frac{1}{4}$ (Lot 3) of Section 4, for irrigation of 15 acres in the NE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 4, Township 6 South, Range 8 East, B.M.

Very truly yours,

Re: Permit # 25001

Grant Hotchkiss
Hammett, Idaho

Dear Mr. Hotchkiss:

Statutes requires a field inspection in connection with the proofs on Permit # 25001 before license and certificate of water right can be issued.

Such inspection and report on same is required for any and all permits being brought to license within this State.

An inspecting Engineer from this Department requests that you or someone familiar with the terms of the permit and representing you be prepared to accompany him on the inspection, on Friday

October 4, 1957.

If he cannot get in touch with you by phone or otherwise he will drive to the well location or point of diversion given in the permit.

Dear Mr. Park:

Thank you for sending the affidavit of publication in the Mountain Home News in connection with Permit No. 25001 in the name of Grant Hotchkiss.

Since the depositions of Mr. Hotchkiss and two witnesses had previously been received, this completes the proof of beneficial use.

However, before final action is taken in the matter the law requires an inspection by an engineer from this department.

We cannot say just when this examination will be made, but our Field Engineer will try and contact Mr. Hotchkiss at the time set for inspection, so that arrangements may be made to show him over the ground.

PROOF OF COMPLETION OF WORKS

Boise, Idaho

Dear Sir:-

Under the terms of your permit No. 25001 you are required to complete your diversion works on or before June 16, 1955. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.
