NOTICE OF EXISTING WATER PERMIT

Notice is hereby given that DARYL M. KECK, Star Route, Box 27, Hammett, Idaho, has received an approved Permit No. 24636/02-2106 issued by the Idaho Department of Water Administration authorizing the diversion of 0.16 cubic feet per second of water from the Snake River. The priority to be established under this permit is March 4, 1961, and the permit was approved January 9, 1954.

Water is to be diverted by pump and ditch from a point within Lot 10 (SW $\frac{1}{4}$ SW $\frac{1}{4}$), Sec. 2, Twp. 6 S., Rge. 8 E., B. M., Owyhee County, to be used for irrigation purposes in the SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 2, Twp. 6 S., Rge. 8 E., B. M.

Proof of the application of the water to beneficial use was submitted to the Department on August 30, 1972. Any protest against the issuance of the license for the above referenced permit should be filed with the Idaho Department of Water Administration, Statehouse, Boise, Idaho, 83707, within ten (10) days of the last date of publication of this notice.

_____)

ORDER

WHEREAS, on July 12, 1952, Robert Lee Wood applied to the Department of Water Administration (formerly the Department of Reclamation) for a permit to appropriate 0.16 c.f.s. of water from the Snake River within Lot 10 (SW $\frac{1}{4}$ SW $\frac{1}{4}$), Sec. 2, Twp. 6 S, Rge. 8 E, B.M., Owyhee County, to be used for irrigation and domestic purposes; and,

WHEREAS, on January 9, 1954, the Department approved said application and issued Permit No. 24636/02-2106 with the condition that one-fifth of the work be completed on or before July 9, 1956; and that the whole of said work be completed on or before January 9, 1959; and that the water be appropriated to a beneficial use on or before January 9, 1964; and,

WHEREAS, on March 5, 1958, Robert Lee Wood assigned all his right, title and interest in and to Permit No. 24636/02-2106 to F. H. VanLydegraf; and,

WHEREAS, proof of completion of works was made on December 31, 1958; and,

WHEREAS, on April 16, 1971, the estate of F. H. VanLydegraf assigned all its right, title and interest in and to Permit No. 24636/02-2106 to Daryl M. Keck; and,

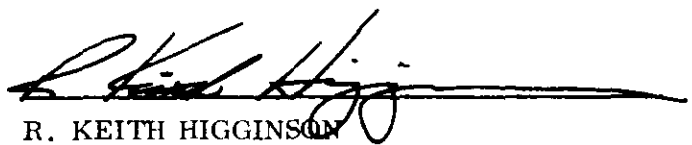

WHEREAS, on August 1, 1972, the Department notified the permit holder that Permit No. 24636/02-2106 was subject to cancellation for failure to submit proof of beneficial use of water on or before January 9, 1964; and,

WHEREAS, proof of beneficial use of water was received by the Department on August 30, 1972; and,

WHEREAS, Section 42-218a of the Idaho Code provides that in the event that proof of beneficial use is submitted after the deadline set forth in the condition of approval, the priority date of such permit shall be advanced the same number of days that said proof is late;

IT IS, THEREFORE, HEREBY ORDERED that the priority under Permit No. 24636/02-2106 be advanced to March 4, 1961.

Dated this 18 day of September, 1972.

ORDER MODIFYING REQUIREMENTS
FOR COMPLETION OF PERMITS TO
APPROPRIATE WATER

WHEREAS, the 39th Idaho Legislature made certain amendments to the Idaho Water Law; and,

WHEREAS, these changes raised questions as to the procedures to be followed by holders of permits issued prior to the effective date of the amendments, May 31, 1967; and,

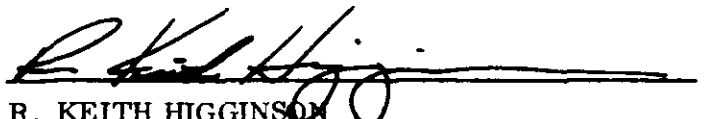

WHEREAS, on August 1, 1968, the Department of Water Administration (formerly the Department of Reclamation) adopted Rules of Practice and Procedure for the processing of such permits issued prior to May 31, 1967; and,

WHEREAS, Permits No. 24636/02-2106 and 24637/02-2107 were issued previous to that date:

NOW THEREFORE, the requirements for completion of the above numbered permits are hereby modified to conform to the adopted Rules of Practice and Procedure as follows:

1. The above numbered permits will be completed under the terms of Title 42, Chapter 2, Idaho Code, as amended by the 39th Idaho Legislature.
2. The conditions of the above numbered permits are modified as follows:
 - a. Notice of the issuance of the permits will be published at the permit holders expense for two weekly issues in a newspaper of general circulation in the county in which the point of diversion lies.

Dated this 18 day of September, 1972.

APPLICATION FOR PERMIT

To Appropriate the Public Waters of the State of Idaho

APPLICATION No. 30656
PERMIT No. 24636
DISTRICT No.

Assigned to

State: Idaho

1. Name of Applicant: ROBERT LEE WOOD

Postoffice address: Glenss Ferry

County: Elmore

I. If applicant is a corporation, give:

- (a) Date and place of incorporation:
- (b) Amount of capital stock:
- (c) Amount paid in:
- (d) Names and addresses of directors:

II. The financial resources of the applicant are:

- (b) Treasury stock:
- (d) Other resources:

- (a) Cash on hand:
- (c) Bonds to be issued:

2. Quantity of water claimed: eight(8) miners inches or 0.16 cubic feet per second.

3. Source of water supply: Snake River which is a tributary of Columbia River

4. Location of point of diversion: 300 feet distant from the Northeast
of Lot 10
corner of Section 2, T. 6 S., R. 8 E., B.M., and is in ~~the~~ Lot 10 (SW $\frac{1}{4}$ SW $\frac{1}{4}$)
of Section 2, T. 6 S., R. 8 E., B.M., County of Owyhee

5. Water is to be used for Irrigation and domestic purposes

6. If for mining, milling, power or manufacturing purposes, give:

(a) Point of use of water: feet distant from corner of Section
T., R., B.M., in the of Section, T., R., B.M.

(b) Amount of power generated: H.P., under feet head.

(c) Water is to be returned to at a point feet
distant from the corner of Section, T., R., B.M., in the
of Section, T., R., B.M.

7. Estimated cost of works: \$ 1,550.00

8. Kind of works: Pump with motor, sump and pipe line

9. Height of dam feet; length of dam at top feet; length of dam at bottom
feet; material used in dam:

10. Size of headgate: Width feet; height feet.

11. Ditch: Width at bottom feet; width at water line feet; depth of water feet;
dimensions of flume: approx. 120 feet
Diameter of pipe inches; length of conduit 10 in. pipe line for a distance of / miles--
Average grade per mile feet.

12. The time required for the completion of such work is Five (5) years.

13. The time required for the complete application of the water to the proposed use is Five (5) additional years.

14. The land to be irrigated is described in the following tabulation: See remarks.

15. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: Permit No. 21377 which is inadequate. See Remarks.

16. (a) Is reservoir to be used? No If so, fill in (b) and (c) below:
(b) Name of Reservoir and number of Storage Permit:
(c) Date of filing of Application for Storage Permit and Name of Applicant:

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public water of the State of Idaho as herein set forth.

ROBERT LEE WOOD Applicant.

By Agent.

Date of first receipt at Department of Reclamation: 11:00 A. M. July 12, 1952

Returned to applicant for correction:

Corrected application received:

Approval of State Reclamation Engineer

The number of this permit is 24636
Recorded in Book 87 Page 24636 Approved January 9, 1954
This is to certify that I have examined the within application for a permit to appropriate the public waters of the State of Idaho, and hereby approve the same, subject to the following limitations and conditions:
Bond in the sum of \$ to be filed on or before
Work to begin on or before March 9, 1954 and to continue diligently and uninterruptedly to completion, unless temporarily interrupted by circumstances over which permit holder has no control.
One-fifth of the work above specified to be completed on or before July 9, 1956
The whole of said work to be completed on or before January 9, 1959
Beneficial use of water appropriated in accordance herewith, to be made on or before January 9, 1964

WITNESS My hand this 9th day of January, 1954
MARK R. KULP
State Reclamation Engineer.

IN TESTIMONY WHEREOF, WE, LEN JORDAN, Governor of the State of Idaho,
and IRA H. MASTERS, Secretary of State of the State of Idaho, have caused this instrument to be executed in the name of the State of Idaho, and caused the Great Seal of the State of Idaho to be hereunto affixed, this 9th day of January, 1954.

Countersigned:
(SEAL) By IRA H. MASTERS, Secretary of State.
By Paula L. Fleebor, Acting Secretary of State.
By LEN JORDAN, Governor.

REMARKS The land office survey shows this lot to include only 31.20 acres of land. It is estimated from measurements given by land levelling, etc. that the irrigable area of this lot now contains in the neighborhood of 43 or 44 acres. In addition to this the soil is extremely sandy and in an area of low humidity so it requires approximately 1 1/2 miner's inches for each surface acre of land. The permit now (#21377) calls for 35 miner's inches. The permit at this time applied for is for another 35 miner's inches, making a total of 70 miner's inches available for this area, which is no more than necessary (Continued below)

Twp.	Range	Sec.	NE 1/4				NW 1/4				SW 1/4				SE 1/4				Totals
			NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	
6 S.	8 E.	2												43					43

REMARKS (Continued) to adequately irrigate the land. At this time, the applicant has competent irrigators on the land and they are using more than 1 1/2 miner's inches per acre to a maximum beneficial use.

ASSIGNMENT
For value received, I hereby assign all my right, title, and interest in and to Permit to Appropriate the Public Waters of the State of Idaho, No. 24636 to H. F. VanLydegraf of Hammett, Idaho.

Re: Permit No. 24636/02-2106

Daryl M. Keck
Star Route, Box 27
Hammett, Idaho 83627

Dear Mr. Keck:

A representative of this Department has made an examination of the works covered by your Permit No. 24636/02-2106 and has found the following:

Quantity of water diverted: 1.05 cfs Source: Snake River

Amount of water that can be recognized as beneficially used under Idaho law: 0.16 cfs

The maximum quantity diverted shall not exceed 78 acre feet per year.

Beneficial use: For irrigation of 28 acres within the SW 1/4, Sec. 2, Twp. 6 S, Rge. 8 E

Point of diversion: Lot 10 (SW 1/4) Sec. 2, Twp. 6 S, Rge. 8 E, B.M.

Priority date established: March 4, 1961 (late proof)

If you do not concur with these findings, please advise us within 10 days; otherwise, a license will be issued as set forth in this letter.

Sincerely,

BOBBY D. FLEENOR
Assistant Director

Re: Permits No. 24636/02-2106
24637/02-2107

Mr. Daryl M. Keck
Star Route - Box 27
Hammett, Idaho 83627

Dear Mr. Keck:

We acknowledge receipt of the affidavits of publication submitted in connection with the above referenced permits.

Before water licenses can be issued, a field examination must be made by a representative of this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the exam so that you may show him the systems.

Sincerely,

BOBEY D. FLEENOR
Assistant Director

Re: Permits No. 02-2106 & 02-2107

Owyhee Nugget
Marsing,
Idaho 83639

Gentlemen:

Enclosed is a legal notice which we wish to have published for two consecutive weekly issues of your newspaper. We have inserted the publication dates, allowing time for you to submit to us a galley proof for our review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted, assuming the notice is correct. If we have any corrections, we will notify you before the first publication date. If you cannot publish the notice on the proposed dates, please contact this office immediately.

The expense of the publication is to be paid by:

Daryl M. Keck
Star Route - Box 27
Hammett, Idaho 83627

to whom you should furnish an affidavit of publication.

Very truly yours,

BOBBY D. FLEENOR
Assistant Director

NOTICE OF EXISTING WATER PERMIT

Notice is hereby given that Daryl M. Keck, Star Route, Box 27,
Hammett, Idaho, has received an approved Permit No. 24636/02-2106 issued by the Idaho Department of Water Administration authorizing the diversion ~~excess~~ of 0.16 cubic feet per second ~~excess~~ ~~excess~~ of water from the Snake River.
The priority to be established under this permit is March 4, 1961,
and the permit was approved January 9, 1954.

Water is to be diverted by pump and ditch
from a point within ~~the~~ Lot 10 (SW $\frac{1}{4}$ SW $\frac{1}{4}$), Sec. 2, Twp. 6S, Rge. 8E, B.M.,
Owyhee County,
to be used for irrigation purposes
in the SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 2, Twp. 6S, Rge. 8E, B.M.

Proof of the application of the water to beneficial use was ~~submitted~~
submitted to the Department on ~~August 30, 1972~~ August 30, 1972. Any protest
against the issuance of the license for the above referenced permit should
be filed with the Idaho Dept. of Water Administration, Statehouse, Boise,
Idaho, 83707, within ten (10) days of the last date of publication of this
notice. ~~or prior to the licensing of the permit. Licensing may commence prior~~
~~to the time beneficial use proof is due without further notice.~~

R. KEITH HIGGINSON

Director

Published in the Owyhee Nugget, Marsing, Idaho,
on October 12 and October 19, 1972.

Permit No. 24636/02-2106

Director: 2106

You are hereby authorized to have the above notice published at my expense
in the Owyhee Nugget of Marsing, Idaho;
published in the county in which the works are situated.

Re: Permits No. 24636/02-2106
24637/02-2107

Mr. Daryl M. Keck
Star Route - Box 27
Hammett, Idaho 83627

Dear Mr. Keck:

We acknowledge receipt of your affidavits submitted as proof of beneficial use for the above referenced permits. Enclosed you will find two Orders; please note that the priority dates under these permits have been advanced.

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a permit holder to make proof of beneficial use.

The enclosed order modifies the above referenced permits to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a newspaper as prescribed by the Department. If you will complete and return the enclosed advertising authorizations, we will cause the notices to be published.

If you have any questions regarding the above matters, please contact us.

Sincerely,

BOBBY D. FLEENOR
Assistant Director

Hammett, Idaho 83627

Dear Mr. Keck:

It appearing to the Department of Water Administration that the terms and conditions of Permit 24636/02-2106 to appropriate the public waters of the State of Idaho have not been complied with as to failure to submit proof of beneficial use of water due on January 9, 1964, you are hereby notified that under the provisions of Section 42-311, Idaho Code, as amended, said permit is hereby held for cancellation, and you are required to show cause before the Director of the Department of Water Administration on or before September 11, 1972, why said permit should not be cancelled.

Permit 24636/02-2106 claims the use of 0.16 cubic feet per second of water from the Snake River,
the point of diversion was to be located within the (SW¹₄SW¹₄) Lot 10 of Sec. 2,
Twp. 6 S, Rge. 8 E, B.M. Jan. 9, 1954
and the permit was approved _____

Re: Permits No. 24636; 24637
F. H. Van Lydegraph

Daryle M. Keck
Hammett, Idaho

Dear Mr. Keck:

Returned herewith are the two applications for extension of time for making proof of beneficial use of the water.

The forms were sent to you January 10th, with instructions to return them promptly. The State Statutes provides that the application must be filed not later than 30 days after the due date. As the proofs were due January 9, 1964, and the applications were received February 13, 1964, they cannot be approved.

You can make the proofs of beneficial use at a later date, however the date of priority will be advanced the length of time the proofs are late.

You must have the assignments recorded in this office.

Very truly yours,

RALPH W. THOMAS, Deputy
State Reclamation Engineer

F. H. Van Lydegraf

Daryl H. Keck
Hannett, Idaho

Dear Mr. Keck:

Enclosed are assignment forms and forms to apply for an extension of time.

The applications for extension of time must be completed and returned promptly to this office. You may request one year extension. The forms will be held pending receipt of the assignments. One form to be used for each permit.

Have Mr. and Mrs. Van Lydegraph complete the assignment forms and return to this office with a fee of \$0.50 for each assignment, or \$1.00 total.

You must have the permits in your name before you can make proof of beneficial use of the water.

Very truly yours,

RALPH W. THOMAS

RWT:mr

Enc. Form 4A 2
Assignment 2

24636

STATE OF IDAHO
DEPARTMENT OF RECLAMATION

Re: Permit No. 24636; 24637

Date:
Nov. 1, 1963

F. H. Van Lydegraf
Hammett, Idaho

Dear Mr. Van Lydegraf:

The date for proof of application of water to beneficial use, as set out under the terms of Permit No. 24636 is due not later than January 9, 1964. If by this date you are not prepared to make this proof, you may make it at a later date, however, your priority will be advanced the same length of time for which the proof is late.

Before this proof can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county.

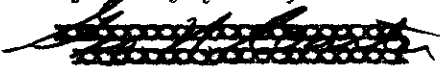

We enclose Form 10, in duplicate, which is to be filled in and returned to this department at least forty (40) days before the above mentioned date and/or before the time you intend to make proof. This form, in duplicate, is to include the time of day, the date, the name of the town, the address of the Notary Public before whom you will appear to make the depositions of proof (this may be at any place that is convenient for you and your two witnesses), the quantity of water, for what purpose it is used, the point or points of diversion and the location of use or lands which are irrigated - by legal land description. Descriptions should be taken from your Permit, including any amendments thereto, as recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your notice is published.

Also enclosed is Form 11, which is the authorization for us to have the notice published in the designated county newspaper, at your expense. This is to be returned with Forms 10.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set and at the place named, before the Notary Public, as advertised in the publication notice.

The amount of water allowed in a license cannot be more than is actually produced and measured and put to beneficial use, and cannot be more than the statutory amount allowable per acre of land actually found by field inspection to have been irrigated at the time of proof.

Very truly yours,

Re: Permits No. 24636 and 24637

Mr. F. H. Van Lydegraf
Box 302
Hammett, Idaho

Dear Mr. Van Lydegraf:

Our records show that assignments of Permits No. 24636 and 24637 were made to H. F. Lydegraf. Proofs of Completion of Works were made by F. H. Lydegraf. To substantiate the change of initials in name in our files it will be necessary that you furnish us with a notarized affidavit that H. F. Van Lydegraf and F. H. Van Lydegraf are one and the same person and that error of initials was made in the assignments.

Affidavit of Proof of Completion of Works under Permit No. 24637 states that the point of diversion is located in Lot 12, Section 3, Township 6 South, Range 8 East, BM, whereas, record of the permit describes it to be in Lot 9 (SE $\frac{1}{4}$ SE $\frac{1}{4}$) of Section 3. We enclose an Application for Amendment to change of point of diversion, for your signature.

INSTRUCTIONS

PROOF OF COMPLETION OF WORKS

F.H.

H. F. Van Lydegraf
Hammett, Idaho

Boise, Idaho November 26, 1958

Dear Sir:-

Under the terms of your permit No. 24636 you are required to complete you diversion works on or before January 9, 1959. I enclose blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Very truly yours,

Geo. N. Carter
State Reclamation Engineer

CC/ Mr. Harley E. McDowell

24 36

app. 30656-30657

September 4, 1952

Mr. Robert Lee Wood
Glenns Ferry
Idaho

Dear Mr. Wood:

This is in reply to your letter of recent date requesting additional water to an amount of one and one-half inches per acre, submitted by Harley M. McDowell.

In the Southern part of Idaho, water is one of the most important and valuable resources, if not the most valuable. The time is probably not too far distant, in the future, when all of the available water supply in Southern Idaho will be put to beneficial use upon the arid lands of Idaho. Conceivably, the time may even come when it becomes necessary to use the water for agricultural purposes even to the point of requiring its use for power purposes in sequence with irrigation. Although the laws grant a limited amount of discretion on the part of the administration of this department, we do not feel that the right has been granted to this department to extend the privilege of a filing above one inch per acre except in the most extreme cases.

There are a number of factors that I wish to point out to you in regard to your request for $1\frac{1}{2}$ inches per acre to be used on the South bank of Snake River, South of Hammett for purposes of irrigation.

1. You may search the records, and almost without exception extra water has not been granted by this department on a surface flow permit.
2. The sandy loam for which you request this additional grant of water is little, if any, different in character than that of many other farms throughout the Southern portion of the State and especially along the Snake River.
3. The problem of fluctuating water due to the operation of the power plants upstream from your farm is one common to all pumping plants between you and the upstream power dams. Furthermore, it is doubtful if the fluctuation is as great in this area as it is below the C. J. Strike power plant. The problem of fluctuation water levels is one that is met in a good many places, and a satisfactory solution is being worked out.

24636

September 4, 1952

4. Your feeling that the water of Snake River may be used for power in the future, to the extent that the stream bed is practically dried up and no water left for irrigation pumping, undoubtedly very real to you, actually has very little basis in fact.

5. As soon as a few crops of hay have been produced, the soil firms up, and some humus is incorporated into the soil, it will become much easier to irrigate and will not require so much water.

6. The sandy lands of which you speak are so sandy that it is very doubtful if any satisfactory irrigation can be made except by use of a sprinkling system.

7. Water to wash the alkali salts from the salty land is not protested by this department. This washing will constitute a non-consumptive use of water and one that may be done without objection, for the most part, by anyone in either the spring, winter or fall in this region and does not in any way interfere with irrigation.

8. In the irrigation of sandy loam soils, it frequently becomes necessary to place the laterals closer together, thus shortening the length of row run.

9. Granting of this request commits an injury to a greater portion of other farmers who have received license along the Snake River in other sections of South Idaho.

10. Fortunately, refusal by this department in cases of this nature does not close the door to you in such matters. You have legal access to, and may take a request for such grant of water, to a court of competent jurisdiction and if they see fit they may grant same.

11. To grant additional license rights in this case would be a change by this department in the long range view of irrigation development for Southern Idaho, and one we feel not justified by the facts.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Mr. Mark R. Kulp
State Reclamation Engineer
Department of Reclamation
State House
Boise, Idaho

Dear Mr. Kulp:

Re: Applications #20656 and #30657

With reference to your letter of August 14, 1952, I would like to submit additional evidence for your consideration in the allowance of these applications as submitted.

You may remember that these applications were originally submitted for an amount of water in excess of $1\frac{1}{2}$ Miner's inches per acre. After discussion with you, it was determined that the conditions existing on these particular permits would not justify this amount; therefore, they were reduced to $1\frac{1}{2}$ Miner's inches per acre with the thought in mind that said conditions would require a minimum for this amount for the proper irrigation.

As mentioned in the permit and previously, the soil over this entire area is extremely sandy and one miner's inch to the acre will not cover the land and produce a properly irrigated crop. Due to the high water table there is a definite need to have an adequate supply of water on the land in order that proper leaching of any alkaline salts may be thorough.

Also another factor which enters into this picture is in view of the constant fluctuation in the river level due to the storage and release of waters at the Bliss Dam, an irrigator has to constantly watch the water level so that his pumps will not run dry and at other times so that they may not be nearly submerged. In so doing, there are certain times when the water will have to be shut off completely. With this condition, one may at times have considerably more than $1\frac{1}{2}$ miner's inches per acre running over the land but as a whole if my permit could be guaranteed for $1\frac{1}{2}$ miner's inches per acre, I could adequately irrigate the land.

As you know, I am not questioning the present conditions in that the water is available and I have never been restricted in adequate use for proper irrigation; however, I want to definitely establish my record and be issued a permit and in due time a license for enough water for proper irrigation so if at any time the Federal Government may ever try to place restrictions or gauge my water, I will then have adequate water. I am more concerned with future developments than I am at the present time for the reason that I have in several instances seen specific cases where a water permit issued inadequately did in due time limit the amount of land irrigated to that which the water

24636

permit was issued for.

For these reasons, I respectfully request that you reconsider my application on the basis as submitted.

Very truly yours,

Robert Lee Wood

Re: Applications Nos. 30656 and 30657

Mr. Robert Lee Wood
Glenns Ferry, Idaho

Dear Mr. Woods:

We can approve your applications for permits, which we have numbered Application No. 30656 and No. 30657, for eight (8) miner's inches and nine (9) miners inches respectively, or one inch per acre.

Application No. 30656 is on the same land as Permit No. 21377 for 35 miner's inches, and Application No. 30657 the same land as Permit No. 19750.

The license on the Bliss plant of the Idaho Power Company requires a minimum release at all times of 2500 cubic feet per second, and any other similar license would have the same restriction. Thus, there will always be plenty of water at your point of diversion with no practical restriction on its use for leaching out alkali or diverting more than the specified amount.

You may withdraw your applications and have the fees refunded, or accept the change to one inch per acre for the additional land.

Very truly yours,

MARK R. KULP

State Reclamation Engineer

Twin Falls
Aug. 6, 1952

Mr Wood stated that he was advised by Attorney "Gene" Anderson "that if he needed more water to go after it"

Mr Wood is worried or apprehensive re. the water supply if and when the Idaho Power Co. build a dam at Bancroft Springs. He says the water fluctuates as much as four feet now daily without another power plant added.

He is building a farm and already has a rather heavy investment and does not want to be left in the position of having his water supply cut off daily.

The soil in his fields divides roughly into three categories.

- (1) The greater portion is a very fine sandy loam.
- (2) There is one spot several acres in extent that is tight alkali.
- (3) In the south east corner there is a few acres of blow sand. This is similar in nature to that in the region west and south of Jerome.

It is possible that the fine soil is underlain with coarser gravel similar to that on the "Old Slick Ranch".

I do not see a need for more water here in so far as the soil is concerned that is any greater than on many other farms similarly located.

Furthermore I do not see a reason for arbitrarily setting $1\frac{1}{2}$ " per acre as the amount required. I feel quite certain that it is entirely possible to filter and sink at least 3" per acre (and that is exactly what is happening on a large portion of it)

He states that it will require ten tons of gypsum per acre on the alkali after which it can be washed out and made into good soil. Gypsum cost \$20.00 per acre plus hauling and spreading.

I asked him why he did not wash the alkali out during the non irrigating season and he replied that he did not have time.

He has argued some with the Idaho Power re. his water and it seems that a Mr Moore made him a bit peeved. So he is trying to nail down an adequate water right ahead of another power filing.

Right now while the land is new and he is trying to get alfalfa established I do not doubt that most anyone would desire to use more than an inch per acre for gravity irrigation. But once a sod is established it should not require an excess of water.

E. N. Humphrey

INTER-DEPARTMENT MEMO--1

DATE 7/30/52

FROM State Reclamation Engineer

TO Deputy " "

SUBJECT Applications Robert Lee Wood

App. 30656- for 29" or 0.58 c.f.s. from Snake River, for 43 acres in Lot 10 (SW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 2- 6 S., 8 E.

App. 30657- for 73" or 1.46 c.f.s. from Snake River, for 125 acres in SE $\frac{1}{4}$ SW $\frac{1}{4}$ and S $\frac{1}{2}$ SE $\frac{1}{4}$ (or Lots 9, 10, 11) Section 2, and 4 acres in Lot 10(SW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 2, 6 S., 8 E.

Permit No. 19750- for 2.4 c.f.s. or 120", from Snake River, for 120 acres in Lots 9,10,11, Section 3, 6 S., 8 E.

Permit No. 21377- for 35", or 0.7 c.f.s., from Snake River, for 35 acres in Lot 10(SW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 2, 6 S., 8 E.

These are supposed to equal 1 $\frac{1}{2}$ inches per acre- and the pending applications are held awaiting a report from you as to whether conditions would justify or show the necessity of more than the one inch per acre.
