Dear Sir:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the Ogden Nugget, Marsing, Idaho, all submitted in proof of completion of works and beneficial use on Permit No. 23358; 22644.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Permit No. X-22644

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. L. E. Haight; residence, 1910 Montclair Dr. Boise, Ida.; occupation, attorney & vice-president, Grandview Realty, Inc.; postoffice address, Box 2777, Boise, Ida.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. I am acting as vice-president of Grandview Realty, Inc., Box 2777, Boise, Ida.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit X-22644; date of permit, 3/11/52; : date of priority 3/7/52.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. The source of this water is the Snake River and the point of diversion is NE $\frac{1}{4}$ NE $\frac{1}{4}$, Section 3, T6S-R4E.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Works consist of 1 turbine type pump with 150 hp motor, producing 3300 gpm; 1 turbine type pump with 60 hp motor producing 1200 gpm; 1 centrifugal pump with 275 hp motor producing 5800 gpm. These fall into a 30" pipeline capable of carrying 1500" of water, then it branches into several laterals and distribution ditches which will carry all the water produced. This was measured by an engineer. On the land irrigated there is also about 1300' of pipeline and a 20 hp relift pump from the main canal.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for the irrigation of 10 acres in SW $\frac{1}{4}$ NW $\frac{1}{4}$; 12 acres in NW $\frac{1}{4}$ SW $\frac{1}{4}$; 15 acres in NE $\frac{1}{4}$ SW $\frac{1}{4}$; 20 acres in SW $\frac{1}{4}$ SW $\frac{1}{4}$; 7 acres in SE $\frac{1}{4}$ SW $\frac{1}{4}$, Section 2, T6S-R4E. This is all cultivated land and all improvements have been made as a direct result of said use.

Ques. 6-a If this is a ground water permit, give name and address of person that drilled the well.

Ans. _____

22644

ST

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. None

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. All water being used is necessary for purpose specified.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. Originally issued to Jean D. Swanson, assigned to Elise Hertig Swanson, then assigned to Grandview Realty, Inc.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Water has been used from this source in irrigating the lands starting in 1959.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. None

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. None.

Ques. 8. If for irrigation, state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. This is a sandy soil and all the water being used is necessary.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have seen this development several times each cropping season for the past 3 years.

Permit No. 23014 - Walter T. Smith

Harley M. McDowell
P. O. Box 3161

Dear Mr. McDowell:

We believe that all of the above numbered permits have a common point of diversion through a pumping plant and pipe to ditches.

Permit No. 23014 was filed in connection with a desert land entry which our records show was not allowed and the case was closed. Possibly this permit should be relinquished or assigned with amendment to the land list.

The other permits claim a total of 21.82 c.f.s. all for irrigation of the same land.

The flow from the penstock was measured as 23 c.f.s. on April 3rd. The examination showed that 542 acres were irrigated, in Sections 3 and 10. Some land in Section 9 had been irrigated in the past, however all of the works and the land were being reworked and the area was not determined from the air photo. There was also some land in Section 11 and NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 9, which is not on the land list.

It seems that the license could be issued under Permit 21789 for all of the present development and later proofs of beneficial use will be necessary under the other permits. Land under Permit No. 22644 were not inspected.

Kindly advise how this problem should be solved.

Dear Mr. McDowell:

The date for proof of application of water to beneficial use, as set out under the terms of Permit No. 22644 is due not later than March 11, 1963. If by this date you are not prepared to make this proof, you may make it at a later date, however, your priority will be advanced the same length of time for which the proof is late.

Before this proof can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county.

We enclose Form 10, in duplicate, which is to be filled in and returned to this department at least forty (40) days before the above mentioned date and/or before the time you intend to make proof. This form, in duplicate, is to include the time of day, the date, the name of the town, the address of the Notary Public before whom you will appear to make the depositions of proof (this may be at any place that is convenient for you and your two witnesses), the quantity of water, for what purpose it is used, the point or points of diversion and the location of use or lands which are irrigated - by legal land description. Descriptions should be taken from your Permit, including any amendments thereto, as recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your notice is published.

Also enclosed is Form 11, which is the authorization for us to have the notice published in the designated county newspaper, at your expense. This is to be returned with Forms 10.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set and at the place named, before the Notary Public, as advertised in the publication notice.

The amount of water allowed in a license cannot be more than is actually produced and measured and put to beneficial use, and cannot be more than the statutory amount allowable per acre of land actually found by field inspection to have been irrigated at the time of proof.

Dear Mr. McDowell:

We have the report of the field examiner that 632 acres are presently being irrigated in Secs. 2, 3, 10 and 11, T. 6 S., R. 4 E., B.M. under the above noted permits.

The land in Secs. 4 and 9 is being leveled, with new location of ditches which will require further proofs of beneficial use of the water.

Permit No. 21789 claims 12.3 cubic feet per second, and Permit No. 22644 claims 1.7 cubic feet per second, sufficient to cover the 12.64 c.f.s. allowable.

The fees for the two water licenses total \$44.00 for 22 subdivisions inspected.

Our letter to Mr. L. E. Haight, Vice President of Grandview Realty, Inc., in regard to Permit No. 26757 is voided as the report of the examiner showed more land than can be irrigated.

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Jean D. Swanson
1820 "T" Street
Caldwell, Idaho

Boise, Idaho January 1, 1957

Dear Sir:-

Under the terms of your permit No. 22644 you are required to complete your diversion works on or before March 11, 1957. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

Mark R. Kulp

State Reclamation Engineer
