INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
 2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
 3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
 4. If any unusual conditions are discovered, make plain statement of them under remarks.
 5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
 6. Give general characteristics of soils, topography, and crops raised.

NOTICE FOR PUBLICATION NOTICE OF PROOF OF APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10:30 A. M. on the 15th day of June, 1962, at Boise, County of Ada, State of Idaho, before Joan H. Bain, 329 Idaho Bldg., Boise, Idaho, proof will be submitted of the application to beneficial use of 6 cubic feet per second of the waters of Snake River in accordance with the terms and conditions of Permit No. 21734 heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are: **Frank J. Pike, Grand View, Idaho.**

The use to which said water has been applied is irrigation.

The amount applied to beneficial use is 6 cubic feet per second.

The place where said water is used, give full and legal description: **SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 33, T5S, R4E, B. M., Idaho. Lots 3, 4, Sec. 4; Lots 1, 2, S $\frac{1}{2}$ NE $\frac{1}{4}$, Sec. 5, T6S R4E.**

The name of the canal or ditch or other works by which said water is conducted to such place of use is private ditch.

The right to take water from such works is based upon Permit No. 21734.

The source of supply from which such water is diverted is Snake River.

Point of Diversion (legal description) **SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 34, T5S, R4E, B. M., Idaho.**

The date of priority which said user is prepared to establish is 6/8/58.

M E M O R A N D U M

DATE: 3/11/83

TO: Dave Shaw

FROM: Don Shaff *DS*

SUBJECT: 02-2272, 02-2405, Licenses

These water rights and others were first held by D. O. Bybee and his wife. To accomplish the task of issuing licenses for these two rights, the entire package must be dissected and examined from scratch. By carefully reassembling all the rights involved, reason will prevail over what otherwise appears as chaos. This memorandum attempts to provide a vehicle for that careful analysis.

The first problem may have occurred with the first licenses (02-2083 and ~~02-2084~~). Geographic features and the present field designs would lead one to believe the pattern of beneficial use may have been different than the licenses describe. Figure 1 illustrates this problem. A comparison can be made with Figure 1 between 1) what the present pattern of irrigated land is for all the water rights and 2) what the water right records describe.

As can be noted from Figure 1, the analysis is complicated by a division of some of the water rights and the land between two subsequent owners. In some instances the two parcels must be considered as a whole. Yet at the same time the separation cannot be ignored because each owner has developed a separate undivided water right. Some of the rights have licenses for a full or nearly-full miners inch per acre. Yet other rights, licenses and permits, are for less than an inch per acre. For purposes of analysis, the rights were considered in the order of filing with the hope that the intentions of the developer could be discovered and possibly then piece together the rights.

Land List #1 and #2 describe the irrigated lands of Yorgason and Field. Below those descriptions is the breakdown of the water rights as I recommend they be described or licensed. In some cases, a transfer or amendment will be necessary. To assist

Page 2

Memo to Dave Shaw, Subject: 02-2272, 02-2405, Licenses

3/11/83

graphically in this breakdown, Figure 2 shows how the rights would fit together in relation to the land.

Through my investigation I believe 02-2083 and 02-2084 were either licensed incorrectly or the lands as irrigated now were done so before 1969 when the transfer requirement, (Idaho Code 42-108) became effective. ~~I suggest these two rights should be~~ considered as described on Figure 2 and in Land List #2. The changes are systematic although somewhat arbitrary. The right is still described in the same and or adjacent 40-acre tracts. Each was issued at 1.0 inch per acre on 120 and 50 acres, respectively. The change in place of use does not alter these ^{allocations per acre} limitations.

02-2176

Getting by those rights brings us to 02-2176. This license, amended at least twice, is divided by both farms, plus the LDS Church. For Yorgason's farm the right fits like a glove. But on Field's farm, this license was issued without considering the existence of the two earlier licenses above (Figure 1). In some 40-acre tracts the two licenses would exceed the number of acres in the tract and 1.0 inch per acre. Consequently I suggest, 02-2176 should be transferred in part by Field to other lands. The other lands were apparently irrigated earlier, but were not a part of the permit.

Because 02-2176 has a diversion rate of less than 1.0 inch per acre, a second right (02-2405) was acquired by Bybee to supplement it. On Field's land the intent of Bybee to do this is obvious although the combination of the two acreages might be too large for a tract or overlaid one of the earlier licenses. None of the water for 02-2405 has been described up to now on the Yorgason farm except a small part of SWSE and NESW, S. 36. However, there are 43 acres of land described on the permit and adjacent to both owners that is not irrigated at all. I proposed that 02-2405 be amended by Bybee (proof was submitted before 1976) rather than assigning the permit to both current owners. (For the Snake River Adjudication, Bybee has not claimed 02-2405, but Yorgason and Field have claimed applicable parts of it.) Yorgason shares one-half of a 100 HP motor pump that

* ASSIGNED TO YORGASON & FIELD 11/04/83

Page 3

Memo to Dave Shaw, Subject: 02-2272, 02-2405, Licenses
3/11/83

delivers 10 cfs and formerly one of Bybee's three pumps. Bybee now has only one-half of a 75 HP motor and pump that was one of his three pumps. With Yorgason's part of 02-2176 having ^{2.04}~~2.04~~ cfs, he purchased from the assignees of Bybee the capacity to divert 5.0 cfs and ability to irrigate with 02-2405. It would follow the permit should be amended to include his land. By doing so, each owner except the LDS Church will have the lands of 02-2176 supplemented to near 1.0 inch per acre by 02-2405.

The LDS Church by the equitable division of 02-2176 has .07 cfs for 6 of its 11 irrigated acres. Another right, 02-2380, is for .10 cfs on the other 5 acres.

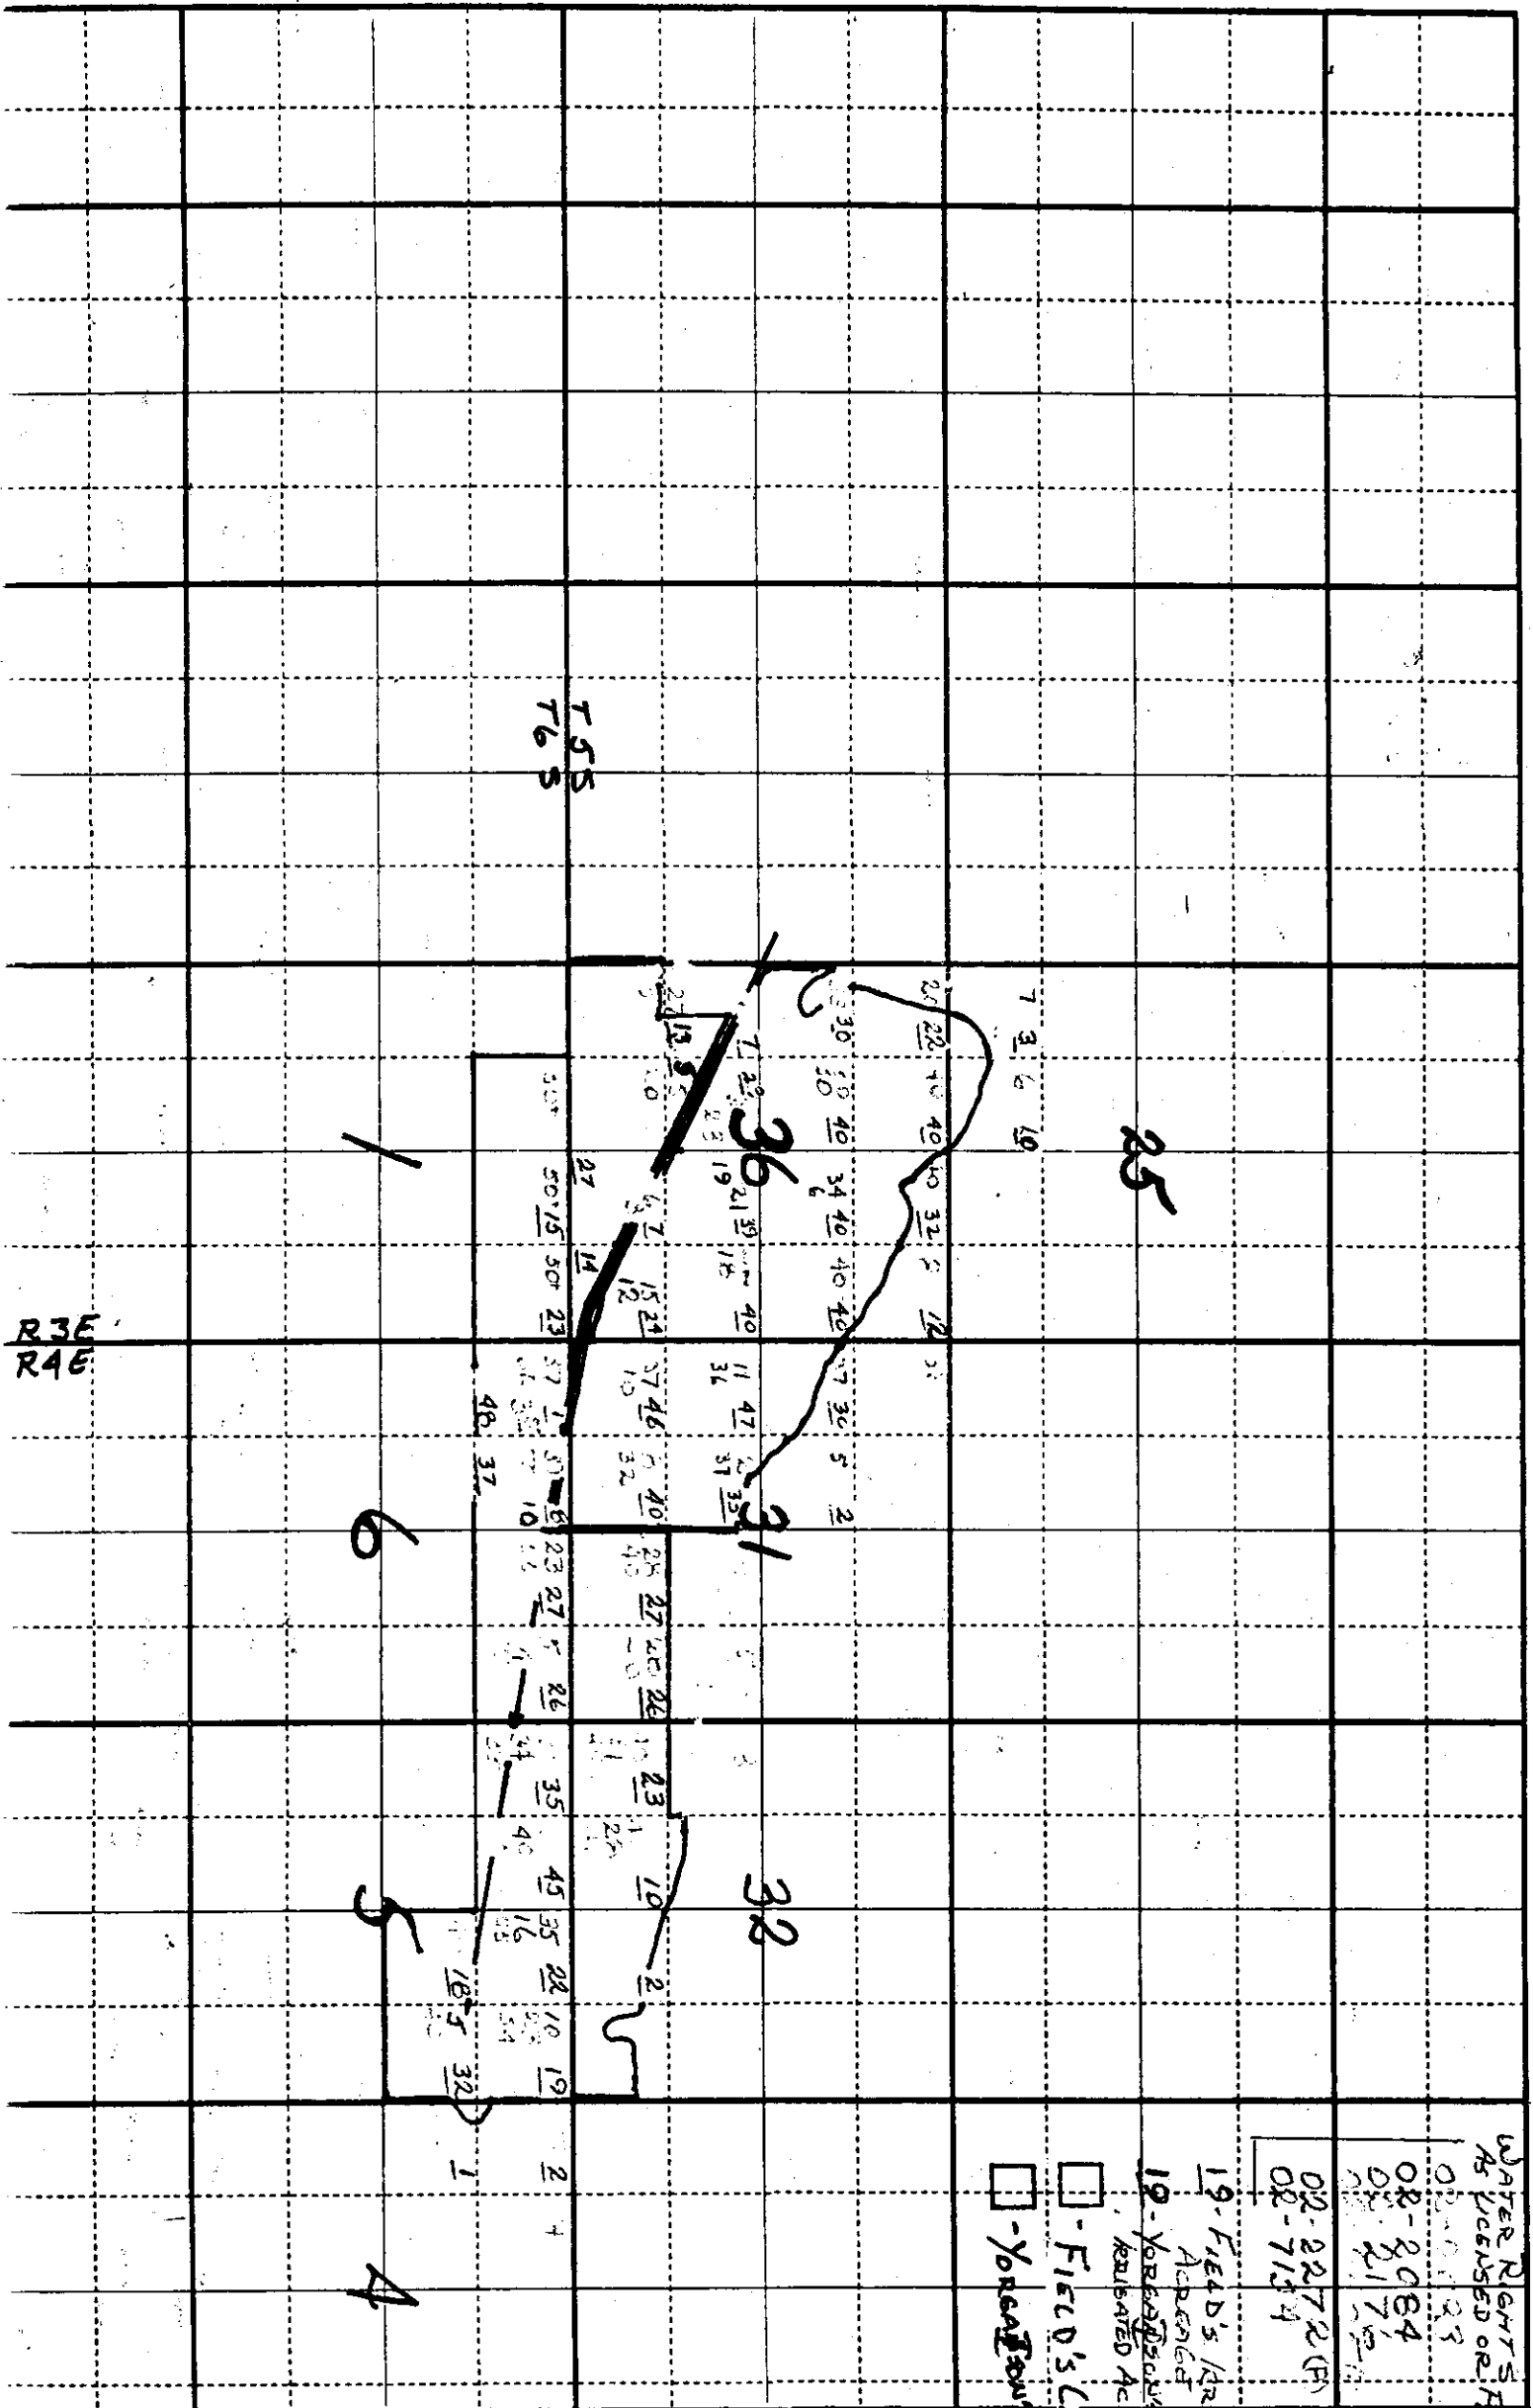

⁰²⁻⁷¹⁵⁴ While on Yorgason's land, 02-7154 should be addressed. This right, developed from a different point of diversion for the Aslett Canal then to the Bybee Canal, fills in where 02-2176 does not cover, (Figure 1). The problem comes about for this right because in some cases more acres were licensed than there are acres owned ^{by Yorgason} and in some cases fewer acres were licensed than were or are now irrigated. The exception is the SWNW, S. 36 where a ^{2 acre} parcel has been sold and is not irrigated now. I suggest an amended license should be issued as shown in Land List #1. This amendment will result in fewer acres and a smaller diversion rate than presently is licensed. But with the changes to 02-2405 as suggested, 02-7154 will contribute its part to ^{.9871}~~.9864~~ inch/acre for all of Yorgason's irrigated land.

⁰²⁻²²⁷² Lastly, 02-2272 is left. This right is used by way of a relift pump described in the Field Report. This right held by Mrs. Bybee, apparently was to fill in some land above the canal between two previous rights on Field's land. The assumption erroneously has been made for some time that Field was the holder of this permit. Apparently an assignment will be necessary.*

With the licensing of the last of the rights for Field, he will have ^{.9396}~~.9269~~ inch/acre for all of his irrigated land.

Re: Permit No. 21734

Frank J. Pike
Grandview, Idaho

Dear Mr. Pike:

Our field engineer's report on his inspection of the application of water to beneficial use under the terms of Permit No. 21734 shows the pump, pipe and ditches are ~~are~~ capable of conveying 50 miner's inches, or 1.0 c.f.s. of water for irrigation of 50 acres.

Upon receipt of the statutory fees of \$ 6.00 - based at the rate of \$2.00 for each 40-acre subdivision - we will issue the License and Certificate of Water Right, confirming the right with priority of June 8, 1958 to the use of 1.0 second feet of surface water with the point of diversion in the SE 1/4, Sec. 34, T. 5 S., R. 4 E., S. 1. from Snake River for irrigation of 50 acres in the NW 1/4, E 1/2, W 1/2, Sec. 5, T. 6 S., R. 4 E., S. 1.

Dear Mr. Pike:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the Ogden Nugget, all submitted in proof of ~~completion of work and~~ beneficial use on Permit No. 21734.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Individual.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit 21734; date of permit, 10/9/50; date of priority, 6/8/58.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Water comes from the Snake River. Point of Diversion, SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 34, T5S-R4E., B.M., Ida.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Works consist of concrete pipe, pumphouse and canal. Pipe is 700' long. Two 75 horsepower pumps are installed at the point of diversion and discharge 500" each. Ditch is 8' bottom, 12' top, 2' deep and about 1 $\frac{1}{2}$ miles long. 110" of water is appurtenant to this land.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for irrigation of the following: T6S-R4E., Sec. 4, Lot 3, 12 acres; Lot 4, 20 acres; Section 5, Lot 1, 40 acres; Lot 2, 40 acres; SW $\frac{1}{4}$ NE $\frac{1}{4}$, 12 acres; SE $\frac{1}{4}$ NE $\frac{1}{4}$, 8 acres. No natural meadow land and all improvement were made as a direct result of said use.

Ques. 6-a If this is a ground water permit, give name and address of person that drilled the well.

Ans.

21734

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Irrigation only.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. I need all this water for purpose specified.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. Assigned to me by Fred Bachman.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Development was started in 1954 and has been continuous.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. Permit 30484.

Dear Sir:

Under the terms of your permit No. 24734 you are required to complete your diversion works and make proof of beneficial use on or before October 9, 1954.

We enclose herewith a blank affidavit to be filled out, sworn to by you before a Notary Public or Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the Completion of the Works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion of Works will be issued to you.

We also enclose blank notice for proof of application of water to Beneficial Use under this permit, which should be filled out and returned to this office at least forty (40) days before the date upon which you wish to make proof. The proof must be submitted before a Notary Public or other officer authorized by law to administer oaths. The date for proof as set out in your permit, is October 9, 1954, and if proof is submitted subsequent to said date, your priority will be brought down a length of time equal to the time elapsing between the date proof should have been made and the date proof is actually made.

Very truly yours,

MARK R. KULP
