RE: Permit No. 20398

Date February 3, 1958

Mr. Robert Lee Wood
Glenns Ferry, Idaho

Dear Sir:

The date for proof of application of water to beneficial use, as set out under the terms of Permit No. 20398 is due not later than April 22, 1958. If by this date you are not prepared to make this proof, you may make it at a later date, however, your priority will be advanced the same length of time for which the proof is late.

Before this proof can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county.

We enclosed Form 10, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the above mentioned date or before the time you intend to make proof. This form, filled out in duplicate, is to include the time of day, the date (allowing for four weeks publication), the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place that is convenient for you and your two witnesses), the quantity of water filed on, for what purpose it is used, the point or points of diversion and the location of use or lands which are irrigated--all by legal land description.

Also enclosed is Form 11, which is the authorization for us to have the notice published in the designated county newspaper, at your expense. This is to be returned with Forms 10.

At the time we send the notice to the newspaper, we will also send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

Robert Lee Wood, being first duly sworn, upon his oath deposes and says:

First: That he is the holder and owner of Permit to Appropriate the Public Waters of the State of Idaho, No. 20398, and that his postoffice address is Glens Ferry.

State of Idaho.

Second: That the name of the stream from which said water is to be diverted is

Snake River

Third: That the point of diversion of said water is SW $\frac{1}{4}$ SW $\frac{1}{4}$ (Lot 12), Section 3,

T. 6 S. - R. 8 E.

Fourth: That under the terms and conditions of said permit, construction thereunder was required to be completed by April 22, 1953.

Fifth: That the use for which said water is intended is agricultural.

Sixth: That on the date above mentioned, the works constructed under said permit were (or were not) fully completed and consisted of the following:

I. Kind of works: 400 ft. 10" pipe, 1 centrifical turbine type electric motor, 3/4 mi. of distribution ditch. (Reservoir, dam, ditch, flume, pipe or otherwise)

II. Dimensions of work: Ditch: 2' bottom, 2 1/2 ft. deep, 4 ft. top.

(a) Height of dam None feet, length of dam at top feet, length of dam at bottom feet. Material used in construction

(State whether wood, earth, stone or concrete)

(b) Capacity of reservoir None acre feet.

(c) Size of headgate: Width feet, height feet.

INSTRUCTIONS

PROOF OF COMPLETION OF WORKS

Mr. Robert Lee Wood

Boise, Idaho **February 2, 1953**

Glenns Ferry, Idaho

Dear Sir:-

Under the terms of your Permit No.20398..... you are required to complete your diversion works on or before.....April 22, 1953.... I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intened use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,
