NOTICE FOR PUBLICATION NOTICE OF PROOF APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 11 A. M. on the 30th day of October, 1953, at Mountain Home, County of Elmore, State of Idaho, before Stanton Park, a Notary Public, proof will be submitted of the application to beneficial use of six & 1/3 cubic feet per second of the waters of Snake River in accordance with the terms and conditions of Permit No. 19877 heretofore issued by the State Reclamation Engineer of the State of Idaho.

The name and postoffice address of the person holding said permit are Lucille A. Wilson, Hammett, Elmore Co., Idaho.

The use to which said water has been applied is irrigation.

The amount, applied to beneficial use is six and 1/3 cubic feet per second.

The place where said water is used S 1/2 NE 1/4, SE 1/4, Section 12, Twp. 6 South, Rgn. 6 East, and Lots 1, 2, Section 7, Twp. 6 South, Rgn. 7 East, B. M.

The name of the canal or ditch or other works by which said water is conducted to such place of use is Unnamed.

The right to take water from such works is based upon Permit No. 19877.

The source of supply from which such water is diverted is Snake River.

The date of priority which said user is prepared to establish is July 10th, 1946.

MARK R. KULP
State Reclamation Engineer

License and Certificate of Water Right

Water License No. 19877 Amount 3.66 second feet
Water District No. Priority July 10, 1946

THIS IS TO CERTIFY that LUCILLE A. WILSON
of Hammett, Idaho, made application for a permit to appropriate the
public waters of the State of Idaho, dated July 10, 1946; that Permit No. 19877
was issued under said application; that Certificate of Completion of works, with a carrying capacity of
6-1/3 second feet, was issued thereunder on May 15, 1951, showing that said works
were completed on the 14th day of May, 1951; and that on the 30th
day of October, 1953,

LUCILLE A. WILSON
of Hammett, State of Idaho, made proof to the satisfaction of the
State Reclamation Engineer of Idaho, of the right to use the waters of Snake River
a tributary of Columbia River, for the purpose of Irrigation
under Use Permit No. 19877 of the Department of Reclamation
and that said right to the use of said waters has been perfected in accordance with the laws of Idaho,
and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume
9 of Licenses at page 5245, on the 12th day of April, 1954;
The right hereby confirmed dates from July 10, 1946;
The Point of Diversion is located Lot 6
in the 1/4 Sec. 36, Tp. 5 S., R. 6 E., B. M. County Owyhee
That the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall
not exceed 3.66 cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated

APPLICATION FOR PERMIT
To Appropriate the Public Waters of the State of Idaho

Application No. 27422
Permit No. 19877
District No.

Stanton Park
Mountain Home, Idaho

1. Name of Applicant: LUCILLE A. WILSON

Postoffice address: Hammett

County: Elmore

State: Idaho

I. If applicant is a corporation, give:

- (a) Date and place of incorporation:
- (b) Amount of capital stock:
- (c) Amount paid in:
- (d) Names and addresses of directors:

II. The financial resources of the applicant are:

- (b) Treasury stock:
- (d) Other resources:

(a) Cash on hand:

(c) Bonds to be issued:

2. Quantity of water claimed: Six and one-third cubic feet per second.

3. Source of water supply: Snake River which is a tributary of

4. Location of point of diversion: feet distant from the

corner of Section , T. , R. , B.M., and is in the Lot 6

of Section 36 , T. 5 S. , R. 6 E. , B.M., County of Owyhee

5. Water is to be used for Irrigation

6. If for mining, milling, power or manufacturing purposes, give:

(a) Point of use of water: feet distant from corner of Section

T. , R. , B.M., in the of Section , T. , R. , B.M.

(b) Amount of power generated: H.P., under feet head.

(c) Water is to be returned to at a point feet

distant from the corner of Section , T. , R. , B.M., in the

of Section , T. , R. , B.M.

7. Estimated cost of works: \$ 5,000.00

8. Kind of works: Motor, pump, pipe-line and ditch

9. Height of dam feet; length of dam at top feet; length of dam at bottom

feet; material used in dam:

10. Size of headgate: Width feet; height feet;

11. Ditch: Width at bottom 6 feet; width at water line 12 feet; depth of water 2 feet;

dimensions of flume:

Diameter of pipe 36 inches; length of conduit 2½ miles.

Average grade per mile 3.17 feet.

12. The time required for the completion of such work is Five (5) years.

13. The time required for the complete application of the water to the proposed use is Four (4) additional years.

14. The land to be irrigated is described in the following tabulation: See remarks.

14-A. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are:

15. (a) Is reservoir to be used? No If so, fill in (b) and (c) below.
 (b) Name of Reservoir and number of Storage Permit:
 (c) Date of filing of Application for Storage Permit and Name of Applicant:

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

LUCILLE A. WILSON *Applicant.*

Mountain Home, ID 83647

Re: Request for Information about Neighboring Irrigation Lands

Dear Mr. Wegryniak:

We are in receipt of your letter dated February 5, 1985, in which you requested information regarding the history of irrigation of lands east of Bruneau Dunes State Park. We have conducted a preliminary analysis and have enclosed some information for your review.

The attached copy of a portion of the 1:100,000 scale BLM map at Glens Ferry, ID describes the area in the vicinity of Bruneau Dunes State Park. Note that as shown on the photocopy, the lands in which you are interested are located within Twp 6S Rge 6E and Twp 6S Rge 7E. Based on your description, it appears that you are mostly interested in lands located within Secs. 1 and 12 of Twp 6S Rge 6E and Secs. 7 and 18 of Twp 6S Rge 7E.

We have enclosed copies of microfiche which depict information regarding water rights with use of irrigation and with place of use within the tracts of interest. Note that the information on the microfiche is organized by legal description, and the information shown includes water right number, priority date (date of filing), and source.

Based on a review of both the place of use information and a search of water rights in the name of Wilbur Wilson, we have identified three water rights which appear to be of interest to you. Copies of the three water rights, identified as Nos. 02-2054, 02-2047, and 02-7272 are enclosed for your information. Note that the first two water rights are licenses which have been examined and are fully approved. For these two water rights, copies of our field examiner reports are included. Because the third water right is still in the form of a permit, it has not been examined and our file does not currently contain information regarding the extent of development of the right.

Ed Wegryyniak
February 12, 1985
Page 2

To specifically respond to the questions in your letter, it may be interesting for you to review the proof of application of water to beneficial use. A copy of this form has been included for both licenses. Note that this form contains information regarding the original irrigation system. Regarding the date that sprinklers were installed to irrigate the property instead of flood irrigation, there is no information in our files.

Based on the information herein, you may find certain data that is useful in your analysis, and you may find a need for additional information. If so, please feel free to contact us and we will be happy to assist you further. The complete files for the Wilbur Wilson water rights are located in this office and are available for your review. In addition, you may want to contact the Soil Conservation Service office in Owyhee county, which is likely located in Murphy. The Soil Conservation Service is often involved in design and implementation of conversion from flood irrigation to sprinkler irrigation, and they may have records that would be of interest to you.

Sincerely,

DAVID R. TUTHILL, JR., P.E.
Supervisor, Water Allocation Section

RECEIVED

FEB 7 1985

2-5-85

Dear Sir;

Department of Water Resources

We have recently been updating our interpretive slide presentation here at the Bureau Dunes State Park. In our program we've given a brief explanation of the forming of lakes here and in the past assumed their appearance was due to the building of C. J. Strike Dam and the flow of the Snake River. Since about 1980 we've seen a steady decline of the water level in our larger lakes and the disappearance of the smaller lakes in the marsh area. The combination of these ecosystems have provided a very unique experience for many visitors to the park.

We've talked to a number of people who visited the area frequently before, during and after the formation of the lakes and have heard from different people that there was development of additional agricultural projects, about the same time the completion of Strike Dam came about.

The area that we're concerned about is the adjacent land to the east of the park property which was cultivated and formerly Willbur Wilson. Could your department tell us when this piece of land was irrigated and the amount of water used to flood irrigate it? Would your staff know where

it was that the method of irrigation changes from flood to sprinklers?

The explanation for the formation of the lakes has been a regular part of our program and the question seems to be fairly common now is, "Why are the lake levels dropping?" We hope with some addition information on the facts that surrounded the formation of the lakes, we can provide an answer to both question.

Where did the water come from and why are the lakes disappearing?

Any help from your agency would be greatly appreciated. Thank You.

Sincerely
Ed Wegrynkiak
Park Ranger

RE: Permit No. 19877

Mr. Wilbur F. Wilson
Hammett
Idaho

Dear Mr. Wilson:

We enclose License and Certificate of Water Right issued under Permit No. 19877 confirming the right of Lucille A. Wilson to the use of 3.66 second feet of water from Snake River with priority of July 10, 1946 and point of diversion in Lot 6 Section 36, Township 5 South, Range 6 East B.M. for the irrigation of land in the $S\frac{1}{2}$ NE $\frac{1}{4}$, and SE $\frac{1}{4}$ Section 12, Township 6 South, Range 7 East B.M.

Very truly yours,

MARK R. KULP

RE: Permit No. 19877

Mrs. Lucille A. Wilson
Hammett
Idaho

Dear Mrs. Wilson:

The report of our field engineer on examination for beneficial use on your Permit No. 19877 shows that you have irrigated 183 acres of land in the SW¹/₄ NW¹/₄ (Lot 2 Section 7, Township 6 South, Range 7 East B.M. and the S¹/₂ NE¹/₄ and SE¹/₄ Section 12, Township 6 South, Range 6 East B.M.).

Therefore, upon receipt of the statutory fee of \$14.00, which is at the rate of \$2.00 for each 40 acre subdivision in which the land is located, a License can be issued for 183 inches or 3.66 cubic feet per second of water from Snake River.

Very truly yours,

MARK R. KULP

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO
REPORT OF ENGINEER

Permit No. 19877

This proof is for Beneficial Use In Water District No. _____

1. Name of applicant Lucille A. Wilson, Hammett, Idaho
2. Source of water supply: Snake River
3. Location of point of diversion: Is in the Lot 6 of Section 36
T. 5 S. R. 6 E. County of Owyhee
4. Describe works as they exist, giving dimensions and capacities of same: The same pump, canal, and general system that is used in Permit No. 19562 are also used to deliver the water under this permit.

5. Water is used for: Irrigation
6. State whether or not water has been turned into works of diversion: Yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

S $\frac{1}{2}$ NE $\frac{1}{4}$, SE $\frac{1}{4}$ Section 12, Twp. 6 South, Range 6 East, B. M.

Lots 1 and 2, Section 7, Twp. 6 South, Range 7 East, B. M.

See Map.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach?

Remarks: See companion permit No. 19562.

It is the intent to get a supplemental or additional license later under this same permit.

This examination was made on the 23rd day of March, 19 54.

(Signed) E. N. Humphrey Examiner.

19877

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
 2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
 3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
 4. If any unusual conditions are discovered, make plain statement of them under remarks.
 5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
 6. Give general characteristics of soils, topography, and crops raised.

Mrs. Lucille A. Wilson
Hammett, Idaho

Dear Mrs. Wilson:

We have placed on file the depositions of yourself and two witnesses, also affidavit of publication in the Owyhee Nugget all in proof of Beneficial Use on Permit No. 19877.

Before final action is taken the law requires that a field examination be made by an engineer from this Department.

We cannot say just when this examination will be made, but our field engineer will contact you or someone on the premises at the time he makes the examination in order that they may arrange to show him over the ground.

NOTICE FOR PUBLICATION RIGHT OF WAY APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 11 A. M. on the 20th day of October, 1953, at Mountain Home, County of Elmore, State of Idaho, before Stanton Park, Notary Public, proof will be submitted of the application to beneficial use of 22 & 1/3 cubic feet per second of the waters of Snake River in accordance with the terms and conditions of Permit No. 19877 heretofore issued by the State Reclamation Engineer of the State of Idaho.

The name and postoffice address of the person holding said permit are Lucille A. Wilson, Hammett, Elmore Co., Idaho.

The use to which said water has been applied is irrigation.

The amount applied to beneficial use is six and 1/3 cubic feet per second.

The place where said water is used S 1/4 NE 1/4, SE 1/4, Section 12, Twp. 6 South, Rgn. 6 East, and Lots 1, 2, Section 7, Twp. 6 South, Rgn. 7 East, E. M.

The name of the canal or ditch or other works by which said water is conducted to such place of use is unnamed.

The right to take water from such works is based upon Permit No. 19877.

The source of supply from which such water is diverted is Snake River.

The date of priority which said user is prepared to establish is July 10th, 1946.

Ans. _____

Ques. 3 State number and date of permit, and date of priority you propose to establish under the permit.

Ans. No. 19877. July 12th, 1946. July 10th, 1946.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Snake River. Lot 6, Section 36, Twp. 5 South, Rng. 6 East, B.M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined.

Ans. Electric motors, pump, pipe-line and ditch. 6.4 Sec. ft.

Discharge from pump measured by wier.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation. (SW/NE, Sec. 12, 30 ac.) (SE/NE, Sec. 12, 40 ac.)
(NE/SE, Sec. 12, 40 ac.) (NW/SR, Sec. 12, 10 ac.) (SW/SE, Sec. 12, 10 ac.)
(SE/SE, Sec. 12, 35 ac.) Twp. 6 So., Rng. 6 East, B.M.
Lot 1, Sec. 7, 30 ac.) Lot 2, Sec. 7, 30 ac.) T. 6 S., R. 7 E., B.M.

Cultivated: in hay and/or grain.

19877
 PL

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. For Irrigation.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. One miners inch per acre. (One Sec. ft. for 50 acres.)

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. Original Permit holder.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. For the past four seasons water has been applied to the lands as shown in this Proof. Good returns have been had from hay and grain.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. None.

PERMIT NO. 19877.

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Andres Achabal, 54 years. Farmer, Hammett, Idaho.

Ques. 2. Are you acquainted with Lucille A. Wilson, the holder of Permit No. 19877? How long have you known ~~him~~^{her} and where does he reside?

Ans. Yes. 7 years. Hammett, Idaho.

Ques. 3. Have you read or heard read said Permit No. 19877, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Snake River. Lot 6, Section 36, T. 5 South, R. 6 East, B.M.

Motors, pump, pipe and ditch.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 1000. inches. Have seen that much.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use. Irrigation.

Ans. SW/NE, Sec. 12, 30 acs) SE/NE, Sec. 12, 40 acs) NE/SE, Sec. 12, 40 acs)

NOTICE FOR PUBLICATION
NOTICE OF PROOF APPLICATION OF WATER
TO BENEFICIAL USE

Notice is hereby given that at 11 A. M. on the 30th day of October, 1953,
at Mountain Home, County of Elmore, State of Idaho, before
Stanton Park, a Notary Public, proof will be submitted of the
application to beneficial use of six & 1/3 cubic feet per second of the waters of
Snake River in accordance with the terms and conditions of Permit No. 19877
heretofore issued by the State Reclamation Engineer of the State of Idaho.

The name and postoffice address of the person ~~or corporation~~ holding said permit are
Lucille A. Wilson, Hammett, Elmore Co., Idaho

The use to which said water has been applied is irrigation

The amount applied to beneficial use is six & 1/3 cubic feet per second

The place where said water is used (if for irrigation give full and accurate description of the lands irrigated)
~~XXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXX~~
S¹/₄ NE¹/₄, SE¹/₄, Section 12, Twp. 6 South, Rng. 6 East, and
Lots 1, 2, Section 7, Twp. 6 South, Rng. 7 East, B. M.

The name of the canal or ditch or other works by which said water is conducted to such place of use is
Unnamed.

The right to take water from such works is based upon Permit No. 19877.

The source of supply from which such water is diverted is Snake River.

The date of priority which said user is prepared to establish is July 10th, 1946.

MARK R. KULP

State Reclamation Engineer.

NOTICE TO ACCOMPANY THIS LETTER MUST BE MADE IN DUPLICATE

(Date).....September 21, 1953.

(P. O.).....Hammett, Idaho.

TO THE STATE RECLAMATION ENGINEER:

Boise, Idaho.

Dear Sir:

You are hereby authorized to have the attached notice published at my expense in the
.....Owyhee Nugget..... of Marsing, Idaho..... published in
the county in which the works are situated.

Lucille A. Wilson,
by, *Stanton Earl* Agent.

(In case of canals or other works designed to divert and carry more than 50 cubic feet of water per second, the following certificate must be signed by a well-known and competent engineer.)

I hereby certify that the facts set forth in the attached notice are true.

.....
Engineer.

INSTRUCTIONS

PROOF OF COMPLETION OF WORKS

Lucille Wilson

Hammett, Idaho

Boise, Idaho

May 1, 1951

Dear ~~Sir~~ Madam:

Under the terms of your permit No. 19877 you are required to complete your diversion works on or before July 12, 1951. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

MARK R. KULP
