Dear Mr. Noble:

We acknowledge receipt of your check for \$14.00 to pay the statutory fees in connection with beneficial use proof on Permit No. 19752.

Since we understand that you are now the owner of this property, you doubtless will wish the license issued in your own name instead of Mr. Charles Indermahle the record holder of the permit.

In that case, you should have an assignment executed by Mr. Indermahle on the form enclosed and return to this department with 50 cents recording fee.

Dear Mr. Indermuhle:

We have placed on file the depositions of yourself and two witnesses, together with Affidavit of Publication in the Owyhee Nugget, all submitted in Proof of Beneficial Use under Permit No. 19752.

It was our understanding that you were in a hurry to obtain the License in connection with this Permit, and that you would call the office in order to make an appointment with our Field Engineer for inspection.

However, we have not heard from you and we cannot tell at this time just when the inspection can be made, as we have but one Field Engineer who makes examinations all over the State. If possible, he will try and let you know ahead of time when he can make the inspection, in order that you may arrange to show him over the project.

Dear Mr. Indermuhle:

In sending your Certificate of Completion of Works a few days ago, we omitted to tell you the procedure in making your Proof of Beneficial Use, which we believe we promised to do, when you were in the office.

When you are prepared to make this proof, you may fill out both copies of Form 10 enclosed, setting the time and place and naming the Notary Public before whom the proof is to be made. Both copies of Form 10 are to be returned to this Department together with Form 11 which is your authorization for us to have the notice published at your expense in the designated county newspaper.

This notice must be published once a week for four consecutive weeks and the date should therefore be set sufficiently far ahead to allow for the four weeks publication.

At the time set in the notice, you should appear before the Notary Public together with two disinterested witnesses who are familiar with the terms of this Permit and the work done thereunder for the purpose of executing depositions on forms which will be furnished by this Department.

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Mr. Charles Indermuhle
Meridian, Idaho

Boise, Idaho November 1, 1948

Dear Sir:-

Under the terms of your permit No. 19752-----you are required to complete your diversion works on or before January 26, 1949. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

REPORT OF ENGINEER

Permit No. 19752This proof is for Beneficial use In Water District No. _____

1. Name of applicant Charles Indermuhle, Route 1, Meridian, Idaho
2. Source of water supply: SNAKE RIVER
3. Location of point of diversion: Is in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 14
T. 5 S. R. 3 E. County of Owyhee
4. Describe works as they exist, giving dimensions and capacities of same: This unit pumps water directly out of the Snake River. Pump and motor are mounted on a concrete base approximately 4 ft. by 6 ft. on the bank of the river. Motor is 15 h.p. U. S., 220 volts, 40 amps. 3 phase, 60 cycle, No. 548493. Pump is Deming centrifugal, 6 by 6, No. 3134 F. It is driven from motor by 4 V-belts. Distance between centers is 25 inches. An 8 inch steel intake pipe extends approximately 15 ft. down into the river. Discharge is to the South through a 6 in. pipe into a concrete pipe. Lift is approximately 35 ft. Meter is G. E. 240 volts, No. 28567205. Meter is mounted on pole approximately 40 ft. to the Southeast of the pump. Switches and controls are square D. Delivery was 2.2 c.f.s. at the low head and 1.68 c.f.s. at the high lift.
5. Water is used for: Irrigation
6. State whether or not water has been turned into works of diversion: Yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

Lot 4, Section 13; = 34 aLots 5, 6 & 7, Section 14; = 86 aNW $\frac{1}{4}$ NE $\frac{1}{4}$ & NW $\frac{1}{4}$ Section 23; = 179 a NW of NW = Lot 1.Twp. 5 South, Range 3 East, B. M.See Map

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach?

Remarks: Fluctuation of the river due to operation of Idaho Power Company causes considerable difficulty. Considerable trouble has been experienced with this outfit this season. At one time the bank sluffed and whole outfit slid into the river. Mr. Noble stated that the pump and motor is too small for the amount of water desired. He also stated that during the hot weather the pump could not be adjusted to its full capacity because the motor would over-heat and cut out. He intends to install a new outfit next year.
