Scale: 2 inches Equals 1 Mile. Draw Map in Ink.

19578

Mr. Miller states that the original diversion was from a pump installed by Miller and Wilson in the Indian Cove Irr. Dist. pump house. Since then the diversion pump has been abandoned and that they now get water from the Irr. Dist. pump by contract. Water is delivered to Miller's ranch via Dist. pump, pipe, and canal. Expenses are shared (in contract) by Irr. Dist., Miller, and Wilson.

1. Name of applicant Nathan A. Miller, Box 83, Hammett, Idaho
2. Source of water supply: Snake River
3. Location of point of diversion: Is in the Lot 4 of Section 6
T. 6 S. R. 8 E. County of Owyhee
4. Describe works as they exist, giving dimensions and capacities of same: Point of diversion is the same as for Indian Cove Irr. Dist. (same pump, same penstock, and same canal to the point of redirection. Rediversion works follow: Berkley pump # 4 815 340, Model # 5 WP, 7½ HP. at 1750 rpm., centrifugal, 6" intake, 5" discharge to 6" pipe to a reducer to 430' of 12" steel pipe. 5. Water is used for: Irrigation.
6. State whether or not water has been turned into works of diversion: Yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

Lots 7 and 8, Section 6;Lots 1 and 2, Section 7;Township 6 South, Range 8 East, B. M.See Map

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? Snake River

Remarks: Mr. Miller states that his diversion from the Snake River originally was made by a separate pump installed in the Indian Cove Irr. Dist. pump house. That is now changed. Miller, Wilson, and Indian Cove Irr. Dist. have installed a larger pump and all three use the same pump, penstock, and canal. These three users have a contract agreement to share the cost of operation and maintainance.

General farm crops are produced.

Capacity of rediversion pump is .36' over a 2' cippolletti weir equalling 1.44 c.f.s. or 72 miners inches.

Dear Mr. Miller:

We are in receipt of your notation on office letter addressed you on May 17, 1952, and have accordingly corrected depositions of yourself and two witnesses submitted in proof of beneficial use under Permit No. 19578 to show the point of diversion in Lot 4, Section 6, Township 6 South, Range 8 East, B.M.

Before final action is taken in the matter, the law requires that an examination be made by an engineer from this department.

We cannot say just when this examination will be made as this department has but one field engineer who makes examinations all over the State.

However, he will try to contact you at the time the examination is made so that arrangements may be made to show him over the grounds.

Dear Mr. Miller:

We return the depositions of yourself and two witnesses offered in proof of beneficial use under Permit No. 19578 for the reason that Question 4 in all these depositions, fails to give the legal description of the point of diversion as to Section, Township and Range.

Please make this correction and return the depositions to this department.

INSTRUCTIONS

PROOF OF COMPLETION OF WORKS

Mr. Nathan A. Miller
C/o Mr. Stanton Park
Mountain Home, Idaho

Boise, Idaho **October 4, 1949**

Dear Sir:-

Under the terms of your permit No. **19578** you are required to complete your diversion works on or before **December 18, 1949**. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,
MARK R. KULP
