NOTICE FOR PUBLICATION

NOTICE OF PROOF APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 11 A. M. on the 12th day of July 1949, at Glens Ferry, County of Elmore, State of Idaho, before Fred Robertson, Notary Public, proof will be submitted of the application to beneficial use of 5 cubic feet per second of the waters of Snake River in accordance with the terms and conditions of Permit No. 19467 heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are West Indian Cove Water Co., Inc., Hammett, Idaho.

The use to which said water has been applied is Irrigation and Domestic.

The amount applied to beneficial use is 5 cubic feet per second.

The place where said water is used 483.4 acres of land situated in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 34 Township 5 South, Range 7 East, B. M., and the S $\frac{1}{2}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$, N $\frac{1}{2}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$ SW $\frac{1}{4}$ and SE $\frac{1}{4}$ of Section 3; N $\frac{1}{2}$ NE $\frac{1}{4}$ of Section 10; and NW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 11 Township 6 South, Range 7E, B. M.

The name of the canal or ditch or other works by which said water is conducted to such place of use is Pump, Pipe and Canal.

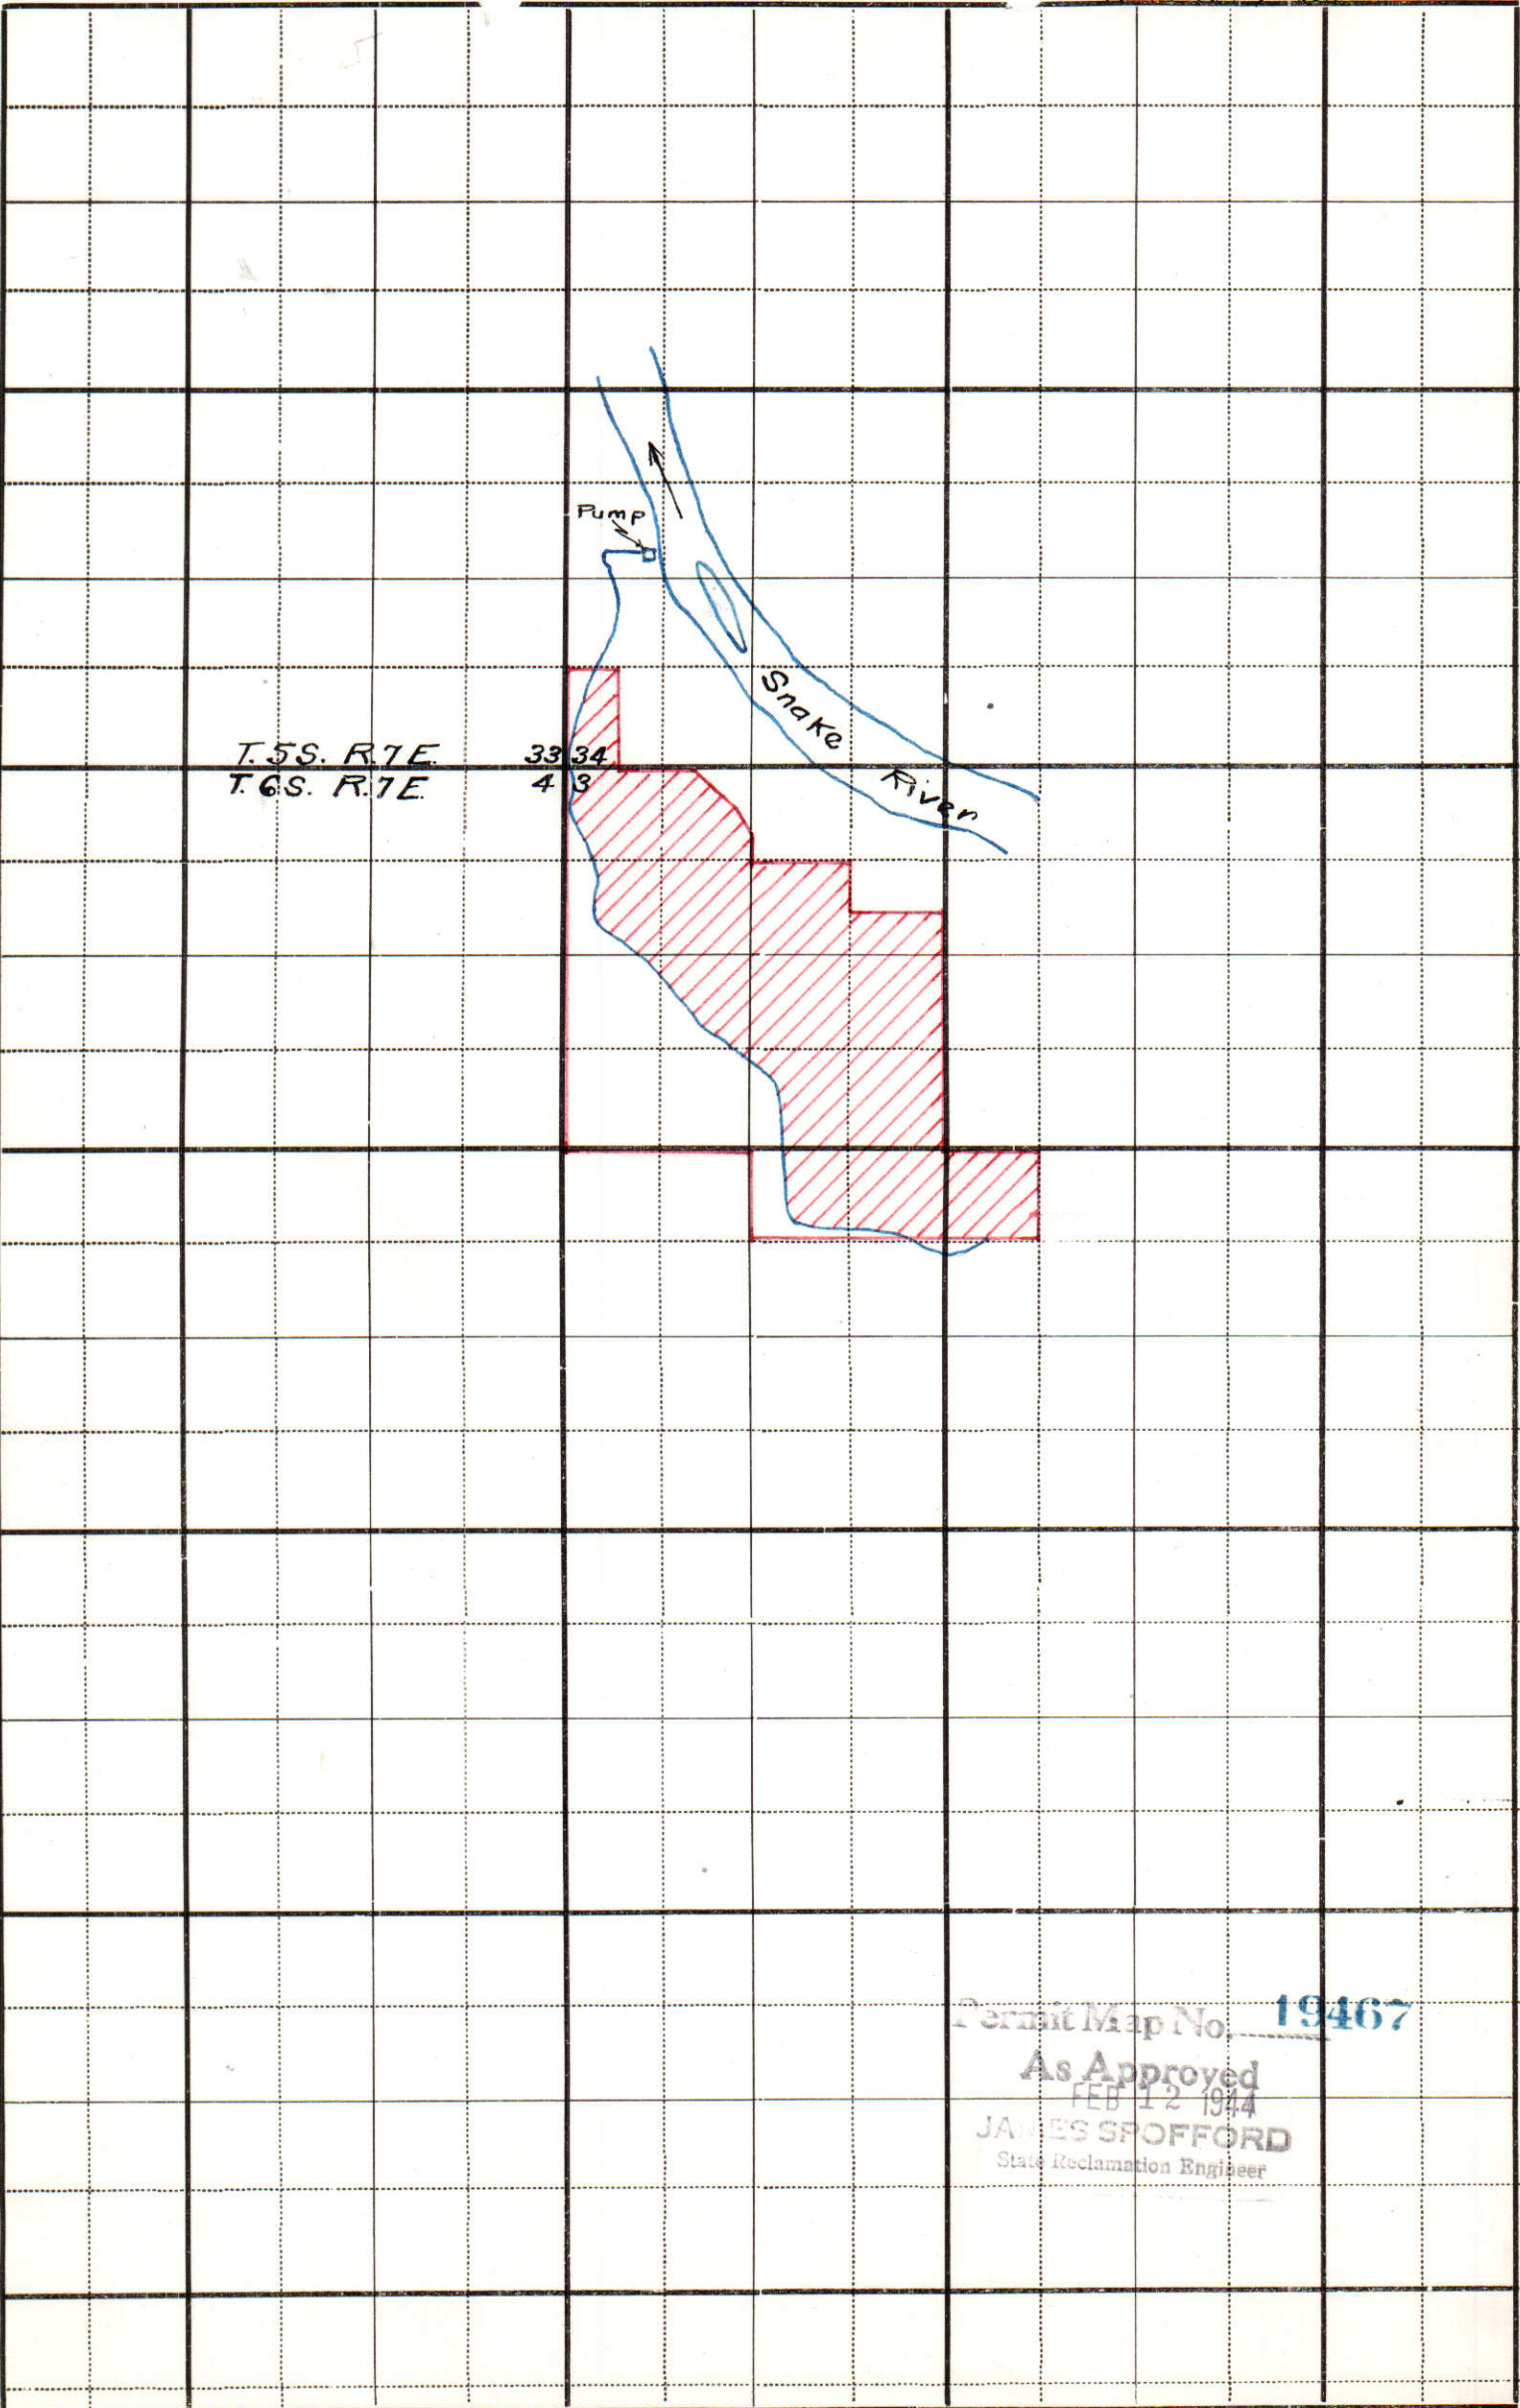

The right to take water from such works is based upon Permit No. 19467.

The source of supply from which such water is diverted is Snake River.

The date of priority which said user is prepared to establish is February 7, 1944.

MARK R. KULP
State Reclamation Engineer

APPLICATION FOR PERMIT

To Appropriate the Public Waters of the State of Idaho

02-2044

Application No. 26970

Permit No. 19467

District No.

1. Name of Applicant: WEST INDIAN COVE WATER COMPANY, INC.

Postoffice address: Hammett

County: Elmore

State: Idaho

I. If applicant is a corporation, give:

(a) Date and place of incorporation: March 16, 1940- Hammett, Idaho

(b) Amount of capital stock: \$6,000.00

(c) Amount paid in: \$250.80

(d) Names and addresses of directors: Jacob Kauffman, Pres. Wesley Hooley, Secy.
Vernon Kauffman, Member. Amos Shenk, Member. All of Hammett, Idaho

II. The financial resources of the applicant are:

(a) Cash on hand: None

(b) Treasury stock:

(c) Bonds to be issued:

(d) Other resources: Farm Security Administration loan 2675.70. Membership labor
on enlarging canal and pump house 510.00

2. Quantity of water claimed: 5.0 cubic feet per second.

3. Source of water supply: Snake River which is a tributary of Columbia River

4. Location of point of diversion: N. 18° 57' 1/2" E. 3183.6 feet distant from the southwest

corner of Section 34, T. 5 S., R. 7 E., B. M., and is in the SW 1/4 NW 1/4 (Lot 2)

of Section 34, T. 5 S., R. 7 E., B. M., County of Owyhee

5. Water is to be used for Irrigation

6. If for mining, milling, power or manufacturing purposes, give:

(a) Point of use of water: feet distant from corner of Section

T., R., B. M., in the of Section, T., R., B. M.

(b) Amount of power generated: H. P., under feet head.

(c) Water is to be returned to at a point feet

distant from the corner of Section, T., R., B. M., in the
of Section, T., R., B. M.

7. Estimated cost of works: \$ 3185.70

8. Kind of works: Pump- pipe- ditch

9. Height of dam feet; length of dam at top feet; length of dam at bottom
feet; material used in dam:

10. Size of headgate: Width feet; height feet;

11. Ditch: Width at bottom 4 feet; width at water line 9.6 feet; depth of water 2.8 feet;

dimensions of flume:

Diameter of pipe 24 inches; length of conduit Pipe 410 feet
Canal 2.5 miles.

Average grade per mile 2.6 feet.

12. The time required for the completion of such work is 5 years.

13. The time required for the complete application of the water to the proposed use is 6 additional years.

14. The land to be irrigated is described in the following tabulation: See remarks.

Re: Permit No. 18636 and 19467

Mr. Wesley Hookey, Secretary
West Indian Cove Water Company
Hammett, Idaho

Dear Mr. Hookey:

We enclose License and Certificate of Water Right issued under Permit No. 18636, confirming the right of the West Indian Cove Water Company to the use of 10 second feet of water from Snake River, with priority of June 22, 1938.

We also enclose License and Certificate of Water Right issued under Permit No. 19467, confirming the right of the West Indian Cove Water Company to the use of 3.74 second feet of water from Snake River, with priority of February 7, 1944.

The point of diversion in each License is located in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 34, Township 5 South, Range 7 East, B.M. and the water is to be used on 458 acres as described in Section 34, Township 5 South, Range 7 East, B.M. and Sections 3, 10, and 11, Township 6 South, Range 7 East, B.M.

We also enclose Departmental Receipt No. 22345 for the \$28.00 fee paid in connection with final proofs on these two permits.

Very truly yours,

MARK R. KULP

Re: Permits Nos. 18636 and 19467

Mr. Wesley Hooley, Secretary
West Indian Cove Water Co.
Hammett, Idaho

Dear Mr. Hooley:

Licenses are issued on the basis of land actually irrigated as shown by the report of the Field Engineer which in this case was 458 acres which was allowed one and one-half inch per acre at the point of diversion, or 13.74 cubic feet per second.

The full 10 cubic feet per second was allowed on Permit No. 18636 which had the earlier priority and the balance on the other Permit.

Additional proof may be offered on the land covered by the permits and not found irrigated at the time of the examination and an additional amount licensed for the additional land. If the proof is made before the expiration of the time set (February 12, 1955), the priority date could be the same as the original and if later than 1955, the priority would be later by the elapsed time after proof was due.

The Department of Reclamation is satisfied that one and one half inches per acre is necessary for the irrigation of this land measured at the point of diversion, and the present License can be issued on this basis: I.E. 3.74 cubic feet per second under Permit No. 19467 as stated in our letter of March 27, 1950.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

MRK:bh

~~18636~~
19467

March 27, 1950

Re: Permits No. 18636 and 19467

Mr. Wesley Hooley, Secretary
West Indian Cove Water Company
Hammett, Idaho

Dear Mr. Hooley:

We now have on file the reports of our Field Engineer on Examination for Beneficial Use under Permits No. 18636 and 19467.

These reports show that 458 acres have been irrigated in fourteen 40 acre subdivisions, in Sections 3, 10, and 11, Township 6 South, Range 7 East, B.M.

Therefore, upon receipt of the statutory fee of \$28.00, a License will be issued for 10 cubic feet per second of water from Snake River under Permit No. 18636 and for 3.74 cubic feet per second under Permit No. 19467. This is a total of 687 inches, or an inch and one-half per acre for the 458 acres irrigated.

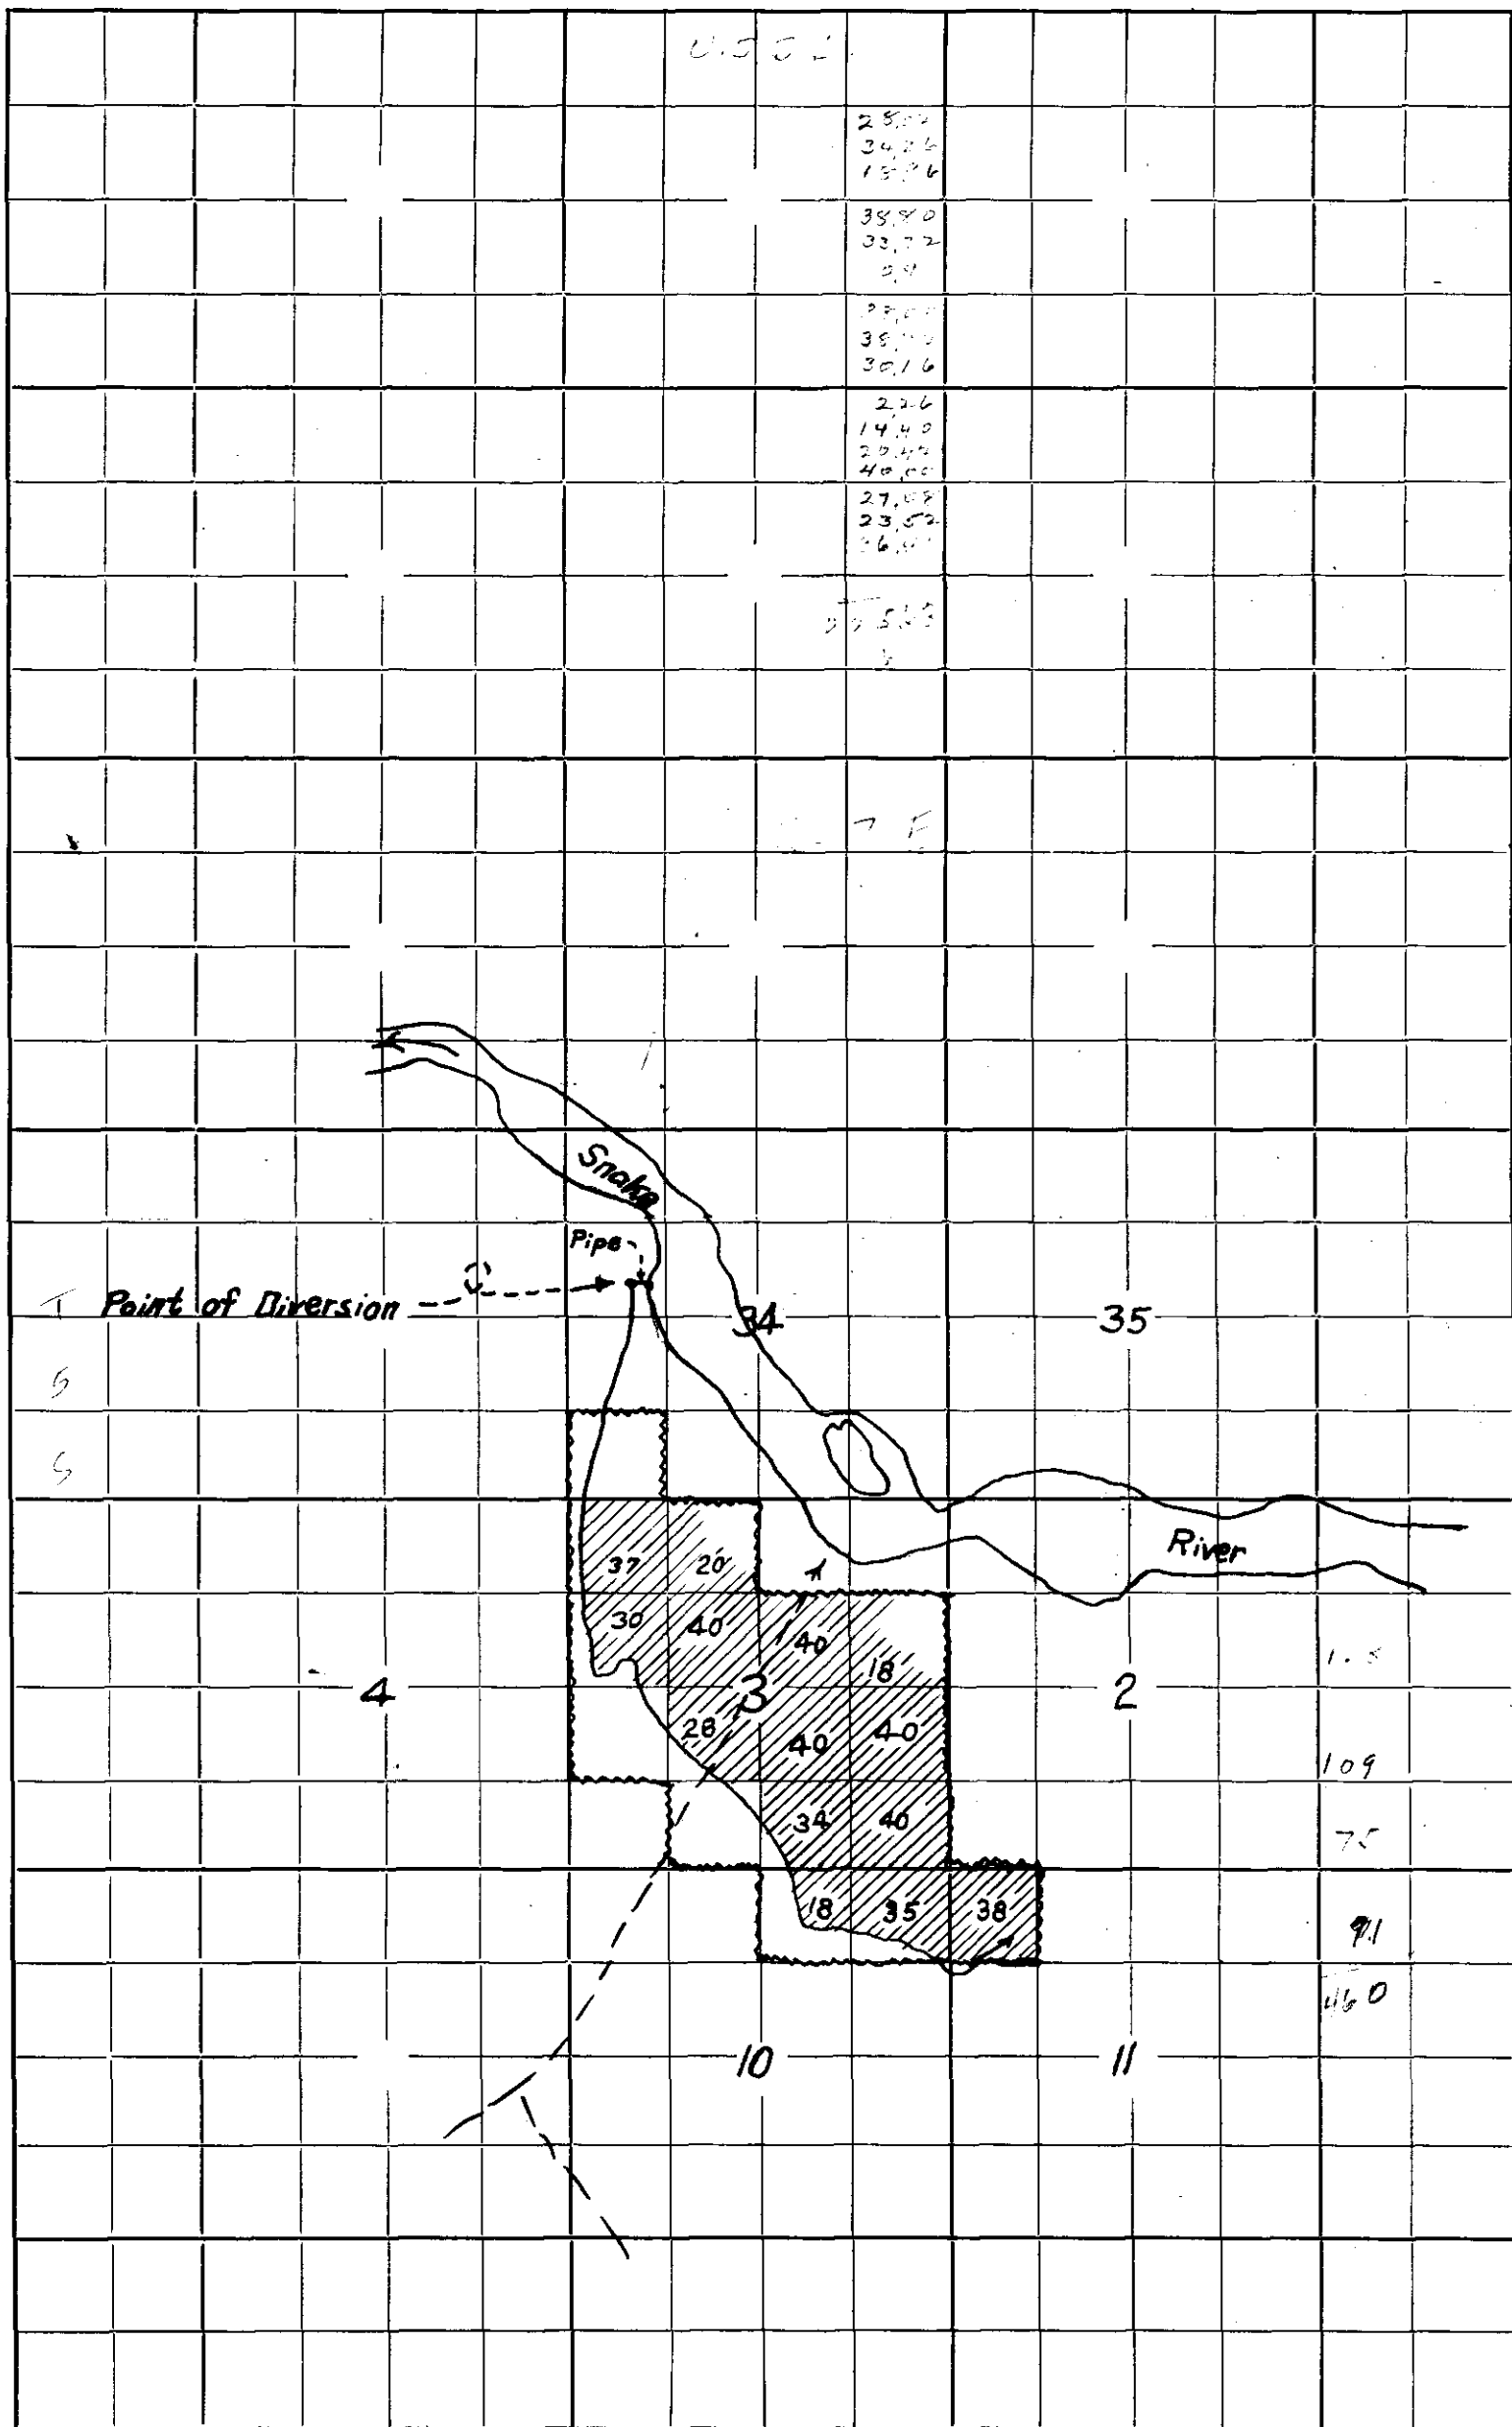

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Re: Permits Nos. 18636 and 19467

Mr. Wesley Hookey, Secretary
West Indian Cove Water Company
Hammett, Idaho

Dear Mr. Hookey:

We have placed on file the depositions of yourself and two witnesses; also Affidavits of Publication in the Owyhee Nugget, all in proof of beneficial use under the above numbered Permits.

However, before final action is taken in the matter, the law requires that a field examination be made by an Engineer from this Department.

We are unable to say just when this examination will be made as this Department has but one Field Engineer who makes examinations all over the State.

However, Mr. Tolman, Field Engineer for this Department, will try and contact you at the time he makes the examination in order that you may arrange to show him over the grounds.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. 19467

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Wesley Hooley, Hammett, Idaho; reside in Indian Cove
valley in Owyhee Co.; Occupation - Farmer

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. I am Sec.-Treas. of Holder
West Indian Cove Water Co., Inc., Hammett, Ida.; Indian Cove Valley

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. 19467, Feb-12, 1944. Date of Priority July 18, 1949

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Snake River in the SW $\frac{1}{4}$, NW $\frac{1}{4}$ of Sec. 34, T5S, R7E, B.M.,
County of Owyhee

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use.

Ans. Pumps, Pipeline and Canal, Capable of Conveying 15 Cu ft per sec.
(for Permit No. 18636 also). Canal has its name. There are two
pumps, one with 100 H.P. motor and one 50 H.P. motor, vertical centrifugal
Domons Pumps. Pipeline is 400 ft. long.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is to be used for Irrigation and Domestic. 488.33 acres
situated in the S $\frac{1}{2}$ SW $\frac{1}{4}$ Sec. 34, Twp 5S, Range 7E B.M.; S $\frac{1}{2}$ NE $\frac{1}{4}$,
NW $\frac{1}{4}$, N $\frac{1}{2}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$ SW $\frac{1}{4}$ and SE $\frac{1}{4}$ of Sec. 3; N $\frac{1}{2}$ NE $\frac{1}{4}$ Sec. 10, and
NW $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 11, Twp. 6S, Range 7E, B.M. Land is all cultivated and
improved into individual farms as a direct result of this water (including Permit
No. 18636)

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. The only other purpose for which water is used is for
watering of livestock

19467

17717

If question 8 refers to question 6 - The minimum amount of water required is 15 cu. ft. per sec.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. The amount used for livestock is negligible and the minimum is none

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. The water was used, beginning April, 1944 on the land herein described. The 5 cu. ft. per sec. was applied to full beneficial use by the stockholders of the Corporation for irrigation and domestic purpose

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. Permit No. 18636 was approved July 18, 1938 for 10 cu. ft. per sec. This was the original amount pumped by a 100 H.P. motor, but was not sufficient to irrigate the 488.33 acres

(Sign) Stanley Hooley - Sec. Treas.

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and ^{affirmed} sworn to before me, at my office in Glenns Ferry, County of Elmore, State of Idaho, on this 18 day of July, A. D. 1949.

PERMIT NO. 19467

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. W. J. Snyder, Age 47, Residence in Indian Cove Community, Farmer, Hammon, Idaho

Ques. 2. Are you acquainted with West Indian Cove Water Co., the holder of Permit No. 19467? How long have you known him and where does he reside?

Ans. Yes. Since Company was formed, about 1940. Members of Company all reside in Indian Cove Community except one who resides at present in Indian.

Ques. 3. Have you read or heard read said Permit No. 19467, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Source: Snake River. Diversion point: SW $\frac{1}{4}$, NW $\frac{1}{4}$, Sec. 34, T5S, R7E, B.M., Owyhee County. Water conveyed by pumps, pipe, and canal. 2 pumps - 100 H.P. and 50 H.P. respectively, vertical centrifugal type; pipe - 24 inch, 400 ft. long. Canal - ave. 8 ft width, $1\frac{1}{2}$ ft. depth at water line. Works include permit No. 18636.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 15 cu. ft. per second with safe margin.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Used for irrigation and water for livestock. Irrigation water used altogether on cultivated land. Description: 488.33 acres of land situated in the S $\frac{1}{2}$ SW $\frac{1}{4}$ of Sec. 34, T5S, R7E, B.M.; S $\frac{1}{2}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$, N $\frac{1}{2}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$ SW $\frac{1}{4}$, and S $\frac{1}{4}$ of Sec. 3; N $\frac{1}{2}$ NE $\frac{1}{4}$ of Sec. 10; and NW $\frac{1}{4}$ NW $\frac{1}{4}$ of Sec. 11, T6S, R7E, B.M. This description includes permit No. 18636. Improvements are adequate for farming and operation and for family life in pioneering stage of development.

19467

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. None, except water for livestock.

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Ordinary Snake River Valley sandy loam, with good slope for surface irrigation. $1\frac{1}{4}$ inches per acre profitable. $1\frac{1}{2}$ inches would be better.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. Residence in community, witnessed construction of works and later raising of crops and actual application of water to land by occasional visits and observation when driving through community, also by exchange of farm labor with farmers on land under this project.

NOTICE FOR PUBLICATION

11 A. M. on the 12th day of July 1949, at Glens Ferry, County of Elmore, State of Idaho, before Fred Robertson, Notary Public, proof will be submitted of the application to beneficial use of 5 cubic feet per second of the waters of Snake River in accordance with the terms and conditions of Permit No. 19467 heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are West Indian Cove Water Co., Inc., Hammett, Idaho.

The use to which said water has been applied is Irrigation and Domestic.

The amount applied to beneficial use is 5 cubic feet per second.

The place where said water is used 483.4 acres of land situated in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 34 Township 5 South, Range 7 East, B. M., and the S $\frac{1}{2}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$, N $\frac{1}{2}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$ SW $\frac{1}{4}$ and SE $\frac{1}{4}$ of Section 3; N $\frac{1}{2}$ NE $\frac{1}{4}$ of Section 10; and NW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 11 Township 6 South, Range 7E, B. M.

The name of the canal or ditch or other works by which said water is conducted to such place of use is Pump, Pipe and Canal.

The right to take water from such works is based upon Permit No. 19467.

The source of supply from which such water is diverted is Snake River.

The date of priority which said user is prepared to establish is February 7, 1944.

Re: Permits Nos. 18636 and 19467

Mr. Wesley Hooley, Secretary
West Indian Cove Water Company
Hammett, Idaho

Dear Mr. Hooley:

We are in receipt of your letter of July 12, advising that your Notary Public, Mr. Fred Robertson was not on hand to take your depositions for Beneficial Use Proof under the above numbered Permits on July 12, 1949, as scheduled.

We regret this, and as Mr. Robertson was notified on July 1, 1949 about this hearing and was sent the proper forms of deposition.

However, your water right will not be effected by this postponement, but in addition to the regular proofs, Mr. Robertson should furnish an Affidavit, stating that the office was open at the time set on July 12 and that no protests were filed and that the hearing was continued until July 18, 1949.

Very truly yours,

MARY R. KULP
State Reclamation Engineer

Re: Permits Nos. 18636 and 19467

Mr. Wesley Hooley, Secretary
West Indian Cove Water Company
Bismarck, Idaho

Dear Mr. Hooley:

We have sent to the Owyhee Nugget, at Marsing, Idaho, Notices of Beneficial Use Proofs to be made under Permits Nos. 18636 and 19467 on July 12, 1947, with instructions to publish them once a week for four consecutive weeks, prior to that date and to send you the Affidavit of Publication, together with Statement of costs.

We shall send Mr. Fred Robertson, Notary Public at Glenns Ferry, Idaho, the necessary forms of deposition, consisting of one for the Permit Holder and one for each of two witnesses for each Permit, so that he may have them in ample time for the proofs.

At the time set, a representative of the West Indian Cove Water Company should appear before Mr. Robertson, together with two disinterested witnesses who are familiar with the terms of the Permits, and the work done thereunder, for the purpose of executing the depositions.

Very truly yours,

Re: Permit No. 19467

Mr. Wesley Hooley, Secretary
West Indian Cove Water Co. Inc.
Hammett, Idaho

Dear Mr. Hooley:

We enclose Certificate of Completion of Works issued under Permit No. 19467 for the diversion of five (5) second feet of water from Snake River for the irrigation of land in Section 34, Twp. 5 S., Rge. 7 E. B.M. and Sections 3, 10 and 11, Twp. 6 S., Rge. 7 E. B.M.

We also enclose Departmental Receipt No. 21076 for the \$5.00 fee paid in connection with completion of works proof.

Beneficial use proof may be made at the same time under both Permits Nos. 18636 and 19467, and we enclose two sets of notice for publication in connection with these proofs.

Form 10 should be filled out in duplicate for each permit setting the time and place and naming the Notary Public before whom the proof is to be made. The date, of course, must be sufficiently far ahead to allow for the statutory four weeks publication. Both copies of Form 10 to be returned to this Department together with Form 11, which is your authorization for us to have the notice published at your expense in the designated newspaper.

We shall then send a copy of the notice to the newspaper with instructions in regard to publishing.

Very truly yours,

MARK R. KULP

Dear Sirs,

Enclosed is Proof of Completion of Works for Permit No. 19467 for 5 cfs. of water. In looking through our records I find that our Proof of Beneficial Use of Water for our Permit No. 18636 is due July 18, 1949. I am wondering if the Proof of Beneficial Use for both permits could not be taken care of at the same time after this Proof of Completion of Works for permit No 19467 is completed. I would say that we are making full beneficial use of the water claimed in both permits.

Yours Respectfully,
West Indian Cove Water Co. Inc.

INSTRUCTIONS

PROOF OF COMPLETION OF WORKS

West Indian Cove Water Co., Inc.
C/o Wesley Hooley, Secretary,
Hammett, Idaho

Boise, Idaho **December 1, 1948**

Dear Sir:-

Under the terms of your permit No. 19467 you are required to complete your diversion works on or before February 12, 1949. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

MARK R. KULP

Subject Indian Cove Pumping Plants

File Permits - Nos. 14452 and 19467

In compliance with your request, I left Boise on September 19th in company with Mr. J. W. Bouton for the Indian Cove Project on Snake River for the purpose of measuring the discharge of the various pumps on the project. The results are as follows:

Measurement No. 1 - High line ditch, with one pump in operation, old pump, 65 foot lift, 30" pipe line, discharge 11.29 c.f.s.

Measurement No. 2 - One pump in operation, Pomona Pump, 16" - 100 H. P. motor, 65 foot lift, in same pipe line as above, with old pump shut off, discharge 8.86 c.f.s.

Measurement No. 3 - High line ditch same as above, old pump and new pump pumping into same pipe line, 2 pumps in operation, discharge 17.40 c.f.s.

Measurement No. 4 - Low line ditch, 50 foot lift, one pump in operation, discharge 16.21 c.f.s.

Measurement No. 5 - Private pumps - Owner, Frank Wilson, located approximately two miles down from head of ditch pumping from High line canal, Pomona pumps 10" - 10 H. P. Low Lift 12' Discharge - 4.03 c.f.s. High Lift 23', Discharge 2.36 c.f.s.

Measurement No. 6 - Private pump - Owner, Mr. Miller, located about 3/4 mile from head of ditch, pumping out of High line canal, Lift 25', 6" Pomona pump 5 H. P. Measured of 2' weir, Discharge 1.18 c.f.s.

Supervisor of Water Distribution.

IN REPLY REFER TO

R11-CE HGH

APR 28 1945

Mr. Mark R. Kulp, State Engineer
Department of Reclamation
State House
Boise, Idaho

Dear Mr. Kulp:

Enclosed herewith are two prints of the irrigation installation of the West Indian Cove Water Company in Owyhee County. One print showing the canal lay-out was previously approved by James Spofford, then State Engineer for the Reclamation Department. Since that time, a supplemental filing has been made on five c.f.s. of water for the West Indian Cove Water Company, and in order to deliver this water to the land it was necessary to install an additional pump of 2250 GPM capacity. It is our desire to ask you for approval of the design for the new pump installation. It apparently is necessary that we obtain your approval in order to close the loan.

The original pump installed for this water facility was 100 h.p., 4480 GPM with a 24" discharge pipe and 63' head. The new pump installation, as shown on the enclosed print, was 50 h.p. 2250 GPM. This new installation was made in the same structure and using the same discharge pipe as originally installed. It was necessary to shift the large pump and install the two pumps side by side with a fabricated "Y" transition connection. For this valves were also installed, as shown, in order that one pump may be operated independently of the other.

The small pump was installed late in the summer of 1944, and immediately began to give trouble. This was brought to the attention of the company who furnished the pump, and it was found that due to faulty construction, the drive shaft came loose in the bowls. It was late in the season when this pump went bad, and we immediately made request to the Intermountain Equipment Company who furnished the pump to install a new pump. This was done in February, 1945, and was inspected and tested at that time and found entirely satisfactory in all respects, and is no doubt in operation at the present time. You will note on the plans submitted, some minor changes made during

19467

2 - Mr. Mark R. Kulp

construction. You will also note a typical canal section enlargement which was made to take care of the additional water. The original canal as constructed was sufficiently large to take care of the additional water. However, a large amount of cleaning, removal of rock, and improvement of grade was accomplished.

Would you be kind enough to place your approval on this supplemental pump installation and return it to me in Portland. If you find there are any oppositions to approving this design with the explanations I have made in this letter, kindly advise me as to what further steps you would desire us to take in order to obtain approval.

Very truly yours,

A handwritten signature in cursive script, appearing to read "H. G. Haight".

REPORT OF ENGINEER

Permit No. 19467

This proof is for Beneficial use In Water District No. _____

1. Name of applicant West Indian Cove Water Co., Wesley Hooley, Sec'y., Hammett, Idaho

2. Source of water supply: Snake River

3. Location of point of diversion: Is in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 34

T. 5 S. R. 7 E. County of Owyhee

4. Describe works as they exist, giving dimensions and capacities of same: _____

G. E. Pump, Model 12F2820, 220/440 volts, 60 cycles, 123/61.5 amps., Full

load 1770 R.P.M., 50 cycles 128/64 Full load, 1470 R.P.M., Type KF, 3 phase,

No. 577708. 12" intake and outlet, 60' static head.

5. Water is used for: Irrigation and domestic purposes

6. State whether or not water has been turned into works of diversion: Yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

SW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 34, Twp. 5 S., Range 7 E., B.M.

S $\frac{1}{2}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$, N $\frac{1}{2}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$ Section 3, Twp. 6 S., Range 7 E., B.M.

N $\frac{1}{2}$ NE $\frac{1}{4}$ Section 10; NW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 11; " " "

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? Snake River

Remarks: Supplemental water

NOTICE FOR PUBLICATION

NOTICE OF APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 11 A. M. on the 12th day of July 1949, at Glenns Ferry, County of Elmore, State of Idaho, before Fred Robertson, Notary Public proof will be submitted of the application to beneficial use of 5 cubic feet per second of the waters of Snake River in accordance with the terms and conditions of Permit No. 19467 heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are Western Indian Cove Water Co., Inc. Hammett, Idaho.

The use to which said water has been applied is Irrigation and Domestic.

The amount applied to beneficial use is 5 cubic feet per second.

The place where said water is used 483.4 acres of land situated in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 34 Township 5 South, Range 7 East, B. M., and the S $\frac{1}{2}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$, N $\frac{1}{2}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$ SW $\frac{1}{4}$ and SE $\frac{1}{4}$ of Section 3; N $\frac{1}{2}$ NE $\frac{1}{4}$ of Section 10; and NW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 11 Township 6 South, Range 7E, B. M.

The name of the canal or ditch or other works by which said water is conducted to such place of use is Pump, Pipe and Canal.

The right to take water from such works is based upon Permit No. 19467.
