Re: Permits Nos. 18902 and 19084

Mr. Stanton Park
Mountain Home, Idaho

Dear Mr. Park:

We enclose herewith Licenses and Certificates of Water Right issued under the above numbered permits in the name of the Elmore Company.

License No. 18902 confirms their right to the use of 1.8 second feet of water from Snake River, with priority of November 24, 1939; and License No. 19084 confirms their right to the use of 0.9 second foot of water from Snake River, with priority of December 28, 1940.

These two licenses total 2.7 second feet, or 135 inches of water, appurtenant to 90 acres in Lot 1 Section 35, Lot 5 Section 36, Twp. 5 South, Range 9 East, B.M., and Lots 2 and 3 and the SW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 1, Twp. 6 South, Range 9 East, B.M.

We also enclose Departmental Receipt No. 19764 for the \$10.00 fee paid by the Elmore Company in connection with these proofs.

Very truly yours,

Re: Permits Nos. 18902 and 19084
The Elmore Company

Mr. Stanton Park
Mountain Home, Idaho

Dear Mr. Park:

We now have on file the report of our Field Engineer on examination for beneficial use under the above numbered permits, assigned to the Elmore Company by Joaquin Solosabal.

These permits appear to be identical as to diversion and land description- Permit No. 18902 being for 2.8 second feet of water from Snake River, with date of priority of November 24, 1939, and Permit No. 19084 being for 1.8 second feet, with priority of December 28, 1940.

The engineer's report shows that out of the 140 acres described in the permits, only 90 acres have been actually irrigated, in five legal subdivisions, namely, Lot 1 Section 35, and Lot 5 Section 36, Twp. 5 South, Range 9 East, B.M., and Lots 2 & 3, SW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 1, Twp. 6 South, Range 9 East, B.M.

The applicant is entitled to a license for 1.8 second feet, but obviously the license can be issued under only one of these permits, and presumably the preference would be for the one with the earlier priority. The fee will amount to \$10.00.

Please advise us of the wishes of your clients in this matter.

Very truly yours,

MARK H. KULP

REPORT OF ENGINEER

Permit No. 19084

This proof is for Beneficial use

In Water District No.

1. Name of applicant The Elmore Company, Mountain Home, Idaho
2. Source of water supply: Snake River
3. Location of point of diversion: Is in the Lot 3 of Section 1
T. 6 S. R. 9 E. County of Elmore
4. Describe works as they exist, giving dimensions and capacities of same: A Bucket type Water Wheel of 40Ft. diameter, and 20Ft. long, equipped with sheet metal buckets 4 feet long, and of 8 inch diameter, operated by river current power; also an 8 inch centrifugal pump electric motor driven. Approximately 40 feet of steel riser pipe which discharges into a 620 foot pipe line, and thence by ditches to points of use.
Ditches are of 2Ft. width, and 1ft. depth.
5. Water is used for: Irrigation
6. State whether or not water has been turned into works of diversion: Yes
7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if for other than irrigation):
Lot 1, Section 35;
Lot 5, Section 36; Twp. 5 S., Range 9 E., B.M.
Lots 2, 3, SW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 1; Twp. 6 S., Range 9 E., B.M.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? Columbia River
- Remarks: That portion of irrigated area which lies above the valley of the small bisecting stream is of a porous, sandy type, and doubtless requires more than one Miners Inch per acre for profitable irrigation. The adjacent bench lands used up to ten Acre Feet per acre before being abandoned.
- It is recommended that One and one half ($1\frac{1}{2}$)^{inch}/per acre be allotted to this Permit.

This examination was made on the 8th. day of December, 1944.
A resurvey of soil conditions was made on May 3rd. 1946.

INSTRUCTIONS

PROOF OF COMPLETION OF WORKS

Mr. Joaquin Solosobal
c/o Stanton Park
Mountain Home, Idaho

Boise, Idaho,

Dear Sir:—

Under the terms of your permit No. **19084**.....you are required to complete your diversion works on or before.....**December 28, 1942**..... I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

E. V. BERG

Commissioner of Reclamation.
