Re: Permits Nos. 18902 and 19084

Mr. Stanton Park
Mountain Home, Idaho

Dear Mr. Park:

We enclose herewith Licenses and Certificates of Water Right issued under the above numbered permits in the name of the Elmore Company.

License No. 18902 confirms their right to the use of 1.8 second feet of water from Snake River, with priority of November 24, 1939; and License No. 19084 confirms their right to the use of 0.9 second foot of water from Snake River, with priority of December 28, 1940.

These two licenses total 2.7 second feet, or 135 inches of water, appurtenant to 90 acres in Lot 1 Section 35, Lot 5 Section 36, Twp. 5 South, Range 9 East, B.M., and Lots 2 and 3 and the SW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 1, Twp. 6 South, Range 9 East, B.M.

We also enclose Departmental Receipt No. 19764 for the \$10.00 fee paid by the Elmore Company in connection with these proofs.

Joaquin Solosabal, a member of the partnership, 'Elmore Company', being first duly sworn, deposes and says:

that such partnership is holder of State of Idaho Water Permits Nos. 18902 and 19084:

that Proof of Completion of Works has been made and Certificats issued by the State on such Permits:

that Proof of Beneficial Use of Water has been made and offered to the State and examination of irrigated lands has been made:

that such examination and report of engineer shows ninety acres to have been irrigated and water put to a beneficial use.

That Permittee now asks that Water License issue in the amount of 2.7 second feet for the reason; that this ground is largely composed of sand and wash gravel; that it lies along the bank of Snake River and is lost in the return flow to the river much sooner than lands with a heavier soil.

That 1.8 second feet is not sufficient water for the proper irrigation of these lands.

Permittee requests that License for 1.8 second feet issue under Permit 18902 and that License of .9 issue under Permit 19084.

Joaquin Solosabal-----

We, the undersigned, being first duly sworn, depose and say: that we are well acquainted with the above named affiant and the lands irrigated under Water Permits Nos. 18902 and 19084. That the statements above made as to soil condition and need of water for proper and successful irrigation, are true.

Kennett Seesee, of Hammett, Idaho, being
first duly sworn, deposes and says:

that he is owner of and operating irrigated farm land in
Sec. 32, Twp. 5 South, Rng. 9 East, B.M., approx. 4 or 5 miles
below the Elmore Company's ranch, on Snake River.

that both ranches lie along the bank of Snake River and
have a very loose soil with a large percentage of sand and gravel.

that the proper irrigating of this land requires at least
one and one-half Sec. ft. for fifty acres.

that in each case the irrigation is done by water wheel and
the lift not being high, the return flow into the Snake River is
made thru the sub-soil and its beneficial use is not of long
duration.

that he is well acquainted with the ranch property, owned and operated by Kenneth Seesee, located in Sec. 32, Twp. 5 South, Rng. 9 East, B.M., Idaho.

that he has seen this property irrigated and farmed for more than thirty years.

that the same has been irrigated and farmed under good farm like management.

that the soil is largely sand and gravel and for proper irrigation requires at least one and one-half Sec. ft. for fifty acres.

that he is also acquainted with the ranch property owned and operated by Elmore Company, located about 4 or 5 miles East of the Seesee ranch.

that both properties lie along the bank of Snake River and that soil conditions are very similar.

that both properties, under good farm like management, require at least one and one-half Sec. ft. of water for the proper irrigation of fifty acres.

Re: Permits Nos. 18902 and 19084
The Elmore Company

Mr. Stanton Park
Mountain Home, Idaho

Dear Mr. Park:

We now have on file the report of our Field Engineer on examination for beneficial use under the above numbered permits, assigned to the Elmore Company by Joaquin Solosabal.

These permits appear to be identical as to diversion and land description- Permit No. 18902 being for 2.8 second feet of water from Snake River, with date of priority of November 24, 1939, and Permit No. 19084 being for 1.2 second feet, with priority of December 28, 1940.

The engineer's report shows that out of the 140 acres described in the permits, only 90 acres have been actually irrigated, in five legal subdivisions, namely, Lot 1 Section 35, and Lot 5 Section 36, Twp. 5 South, Range 9 East, B.M., and Lots 2 & 3, SW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 1, Twp. 6 South, Range 9 East, B.M.

The applicant is entitled to a license for 1.8 second feet, but obviously the license can be issued under only one of these permits, and presumably the preference would be for the one with the earlier priority. The fee will amount to \$10.00.

Please advise us of the wishes of your clients in this matter.

Mr. Stanton Park
Mountain Home, Idaho

Dear Mr. Park:

We acknowledge receipt of the depositions of the holder and two witnesses, and also affidavit of publication from the Mountain Home Republican, all in connection with beneficial use proof under the above numbered permit.

Before final action can be taken in the matter, the law requires that a field examination be made by an engineer from this Department. We cannot say just when this examination will be made, as this Department has but one field engineer, who makes examinations all over the State. However, Mr. Tolman, Field Engineer for this Department, will try and contact you at the time he makes the examination, so that you may arrange to have some one show him over the grounds.

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Boise, Idaho,

Dear Sir:—

Under the terms of your permit No.....**18902**.....you are required to complete your diversion works on or before.....**November 25, 1912**. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

E. V. BERG
