Dear Mr. Johanek:

An inspection is required by law in connection with any permit being brought to license in the State of Idaho.

If roads and weather permit, I intend to make inspection in connection with your Permit No. 24201 on Friday, March 15th.

I will drive to your place after I have finished making inspection with Mr. Roland at Payette and it will probably be shortly before noon or afternoon when I arrive.

Please be prepared to accompany me on the inspection.

Dear Mr. Johanek:-

We acknowledge receipt of the depositions of yourself and two witnesses, also affidavit of publication in The Independent-Enterprise, all submitted in proof of completion of works and beneficial use on Permit No. 24201.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Permit No. 24201

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Paul A. Johanek, Fruitland, Idaho, farmer, Rt. 1, Fruitland, Idaho.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. None

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. 24201 dated June 20, 1953. 6-12-53

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Snake River. Points of diversion are in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ and NW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 8, Township 7 North, Range 5 West, B.M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Parma Water Lifter with 15 H.P. G.E. motor, and Seven Devils pump with 10 H.P. U.S. motor. The Parma Water Lifter will discharge 180 inches and was measured by field man of the company with a measuring device. The Seven Devils pump will discharge 170 inches as estimated by experienced irrigators.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. The Parma Water Lifter irrigates 90 acres or more, of which approximately 54 acres are in the N $\frac{1}{2}$ SW $\frac{1}{4}$ and approximately 35 acres are located in NW $\frac{1}{4}$ SE $\frac{1}{4}$ in Sec. 8, T.7 N.R. 5 W.B.M. Seven Devils pump irrigates 80 acres or more being all of E $\frac{1}{2}$ SE $\frac{1}{4}$ and all of SW $\frac{1}{4}$ SE $\frac{1}{4}$ East of Snake River in Sec. 8, T.7 N.R. 5 W.B.M. Was arid, now all farmed or in planted pasture.

24201

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. _____

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. 170 inches.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. _____

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. All has been used for the lands described as required since installation of pumps.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. No other water

Paul A. Johanek

Messrs. McClure & McClure

ATTENTION: Mr. W. R. McClure

Dear Mr. McClure:

In answer to your letter of June 16 regarding the above captioned Permit, will state:

The quantity of water filed on is 3.4 cubic feet per second to irrigate 170 acres of land. That is the maximum amount of water that can be allowed on the basis of one inch per acre.

If for the reason that Mr. Johanek can pump 3.4 second feet from one well and 3.6 second feet from the other well is no sign that he is entitled to the capacity of both wells.

Therefore, we see no reason why the notice as published is not correct.

At the time for making proof in this matter it was noticed that the published notice provided for proof as to 3.4 cu. ft. There are two pumps, one for 3.4 and the other for 3.6 cu. ft., and the total would be the sum of the two or 7 cu. ft. We believe notice should be reset and re-published in order to cover the total in order not to lose priority as to the one.

Please check this and advise.

Dear Sir:

Under the terms of your permit No. 24201 you are required to complete your diversion works and make proof of beneficial use on or before

June 20, 1956.

We enclose herewith a blank affidavit to be filled out, sworn to by you before a Notary Public or Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the Completion of the Works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion of Works will be issued to you.

We also enclose blank notice for proof of application of water to Beneficial Use under this permit, which should be filled out and returned to this office at least forty (40) days before the date upon which you wish to make proof. The proof must be submitted before a Notary Public or other officer authorized by law to administer oaths. The date for proof as set out in your permit, is June 20, 1956, and if proof is submitted subsequent to said date, your priority will be brought down a length of time equal to the time elapsing between the date proof should have been made and the date proof is actually made.

Very truly yours,

MARK R. KULP
