Re: Permit No. 27116
" " 27410

Seth Redford, County Supervisor
Farmers Home Administration
Caldwell, Idaho

Dear Mr. Redford:

Mr. Fred Morse was in this office today and prepared papers for proving beneficial use of water from Snake River for irrigation of SE $\frac{1}{4}$ EA, NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 13, Twp. 6 N., R. 6 W. under Permit No. 27116. After he and two witnesses have made proper affidavits at the time specified in the advertisement, some one from this office will inspect the works and a water license will be issued for the amount of water delivered by the pump to the acres actually irrigated. The amount of water will be limited by the capacity of the pump or at the rate of not over one miner's inch per acre.

The form was prepared for Mr. Donald E. Morse to file proof of completion of works which must be made on or before June 20, 1959 under conditions of the Permit No. 27410. We understand that he is only irrigating about 20 acres of land now and it will be several years before all of the 55 acres of land can be leveled and crops grown. The proof of beneficial use is due on or before June 20, 1960. We recommend that Mr. Donald E. Morse request an extension of time for proof of beneficial use to June 20, 1964 to allow sufficient time to complete the necessary work and have given Mr. F. L. Morse the proper form for such request. The proof of beneficial use can be made at any time desired, however the water license will be limited by the number of acres actually irrigated or the capacity of the pump, whichever is least. This permit in good standing is a better water right for 55 acres than a water license of 20 miner's inches for 55 acres, which he would get if he made proof of beneficial use when only 20 acres are irrigated.

Very truly yours,

Re: Permit No. 27410
Donald E. Morse

Date:

April 1, 1964

Ernest Anderson
Parma, Idaho

Dear Sir:

The date for proof of application of water to beneficial use, as set out under the terms of Permit No. 27410 is due not later than June 10, 1964. If by this date you are not prepared to make this proof, you may make it at a later date, however, your priority will be advanced the same length of time for which the proof is late.

Before this proof can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county.

We enclose Form 10, in duplicate, which is to be filled in and returned to this department at least forty (40) days before the above mentioned date and/or before the time you intend to make proof. This form, in duplicate, is to include the time of day, the date, the name of the town, the address of the Notary Public before whom you will appear to make the depositions of proof (this may be at any place that is convenient for you and two witnesses), the quantity of water, for what purpose it is used, the point or points of diversion and the location of use, or lands which are irrigated -- by legal land description. Descriptions should be taken from your Permit, including any amendments thereto, as recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your notice is published, or you may have to readvertise and complete another set of proof forms.

Also enclosed is Form 11, which is authorization for us to have the notice published in the designated county newspaper, at your expense. This is to be returned with Forms 10.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, and at the place named, before the Notary Public, as advertised in the publication notice.

The amount of water allowed in a license cannot be more than is actually produced and measured and put to beneficial use, and cannot be more than the statutory amount allowable per acre of land actually found by field inspection to have been irrigated at the time of proof.

Mr. Ernest Anderson,
Attorney at Law,
Parma, Idaho 83660

Dear Mr. Anderson:

This acknowledges the Notice of Proof of ~~Completion of Work~~ and Application of Water to Beneficial Use under Permit No. 27410, in the name of Donald E. Morse. Final Proof is to be made before you, as Notary on the 2nd day of November, 19 65, at 10:00 o'clock A.M., at Parma, Idaho.

As of this date, we have mailed the Notice to the Parma Review Parma, Idaho, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION.

Very truly yours,

PERMIT NO. 27410

Proof of Application of Water to Beneficial Use
Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Name: Rex Nichols; Age 39 years; Live on Rural Route No. 2, Parma, Idaho.

Farmer. P. O. Address is on R#2, Parma, Idaho.

Ques. 2. Are you acquainted with Donald E. Morse, the holder of Permit No. 27410? How long have you known him and where does he reside?

Ans. Yes. I have lived in that neighborhood about six years, and have known him about that length of time, and I have rented his place.

Ques. 3. Have you read or heard read said Permit No. 27410, and are you familiar with its provisions and conditions?

Ans. Yes, Mr. Anderson read the same to me.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Source of the Water: Snake River- Diversion Point at the NE corner of Lot 3, Sec. 13, Twp. 6 N. R. 6 West of B. M. Canyon County, Idaho. The land is irrigated by means of a Four-Inch Parma Water Lifter, operated with a 10 H. P. 3 Phase, G. E. Motor. From the pump is a pipeline, and diversion ditches have been constructed.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. About fifty five or sixty inches (1.1 second feet).

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. The water is used for irrigation purposes, and for nothing else. The water is used on Lot 1 (21.94 acres), and Lot 2 (23.32 acres), and the East 10 acres of Lot 3, all in Sec. 13, Twp. 6 North, Range 6 West of the Boise Meridian.

The land is in cultivation, and Mr. Morse has built a small house on the same. There is also a machine shed and a grainery on the place.

27410

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. The electricy is used for pumping water, only.

The land has been farmed five or six years, or more. and crops grown thereon.

Ques. 8. If for irrigation, state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The land is of a heavy soil, with some sand, but I would classify the land as a heavy soil. It will required about an inch to the acre to properly irrigate the place.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No, none. I have never rented it, but had in mind last year to rent it, but I did not rent it. I have been over the place many times.

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have observed the farming of the same for ~~20 years~~ years, and it produces good crops.
