INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

LEGAL NOTICE

NOTICE FOR PUBLICATION

NOTICE OF PROOF APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10:00 A.M. on the 22nd day of November, 1957, at Parma, County of Canyon, State of Idaho, before Ernest Anderson, a Notary Public, proof will be submitted of the application to beneficial use of 1.14 cubic feet per second of the waters of Snake River in accordance with the terms and conditions of Permit No. 26397 heretofore issued by the State Reclamation Engineer of the State of Idaho.

The name and postoffice address of the person holding said permit is A. F. Sward, Route No. 2, Parma, Idaho.

The use to which said water

has been applied is irrigation.

The amount applied to beneficial use is 1.14 C.F.S.

The place where said water is used (if for irrigation, give full and accurate description of the lands irrigated) 250 feet North and 100 feet East distant from the Nyssa Bridge or the Southwest Corner of Lot 1, Section 7, T. 6 N. R. 5 West of the Boise Meridian, for the following lands irrigated, to-wit: Lot 1, Section 7, Twp. 6 N. R. 5 W. of Boise Meridian in Canyon County, Idaho.

The name of the canal or ditch or other works by which said water is conducted to such place the use is unnamed ditch from Snake River.

The right to take water from such works is based upon Permit No. 26397.

The source of supply from which such water is diverted is Snake River.

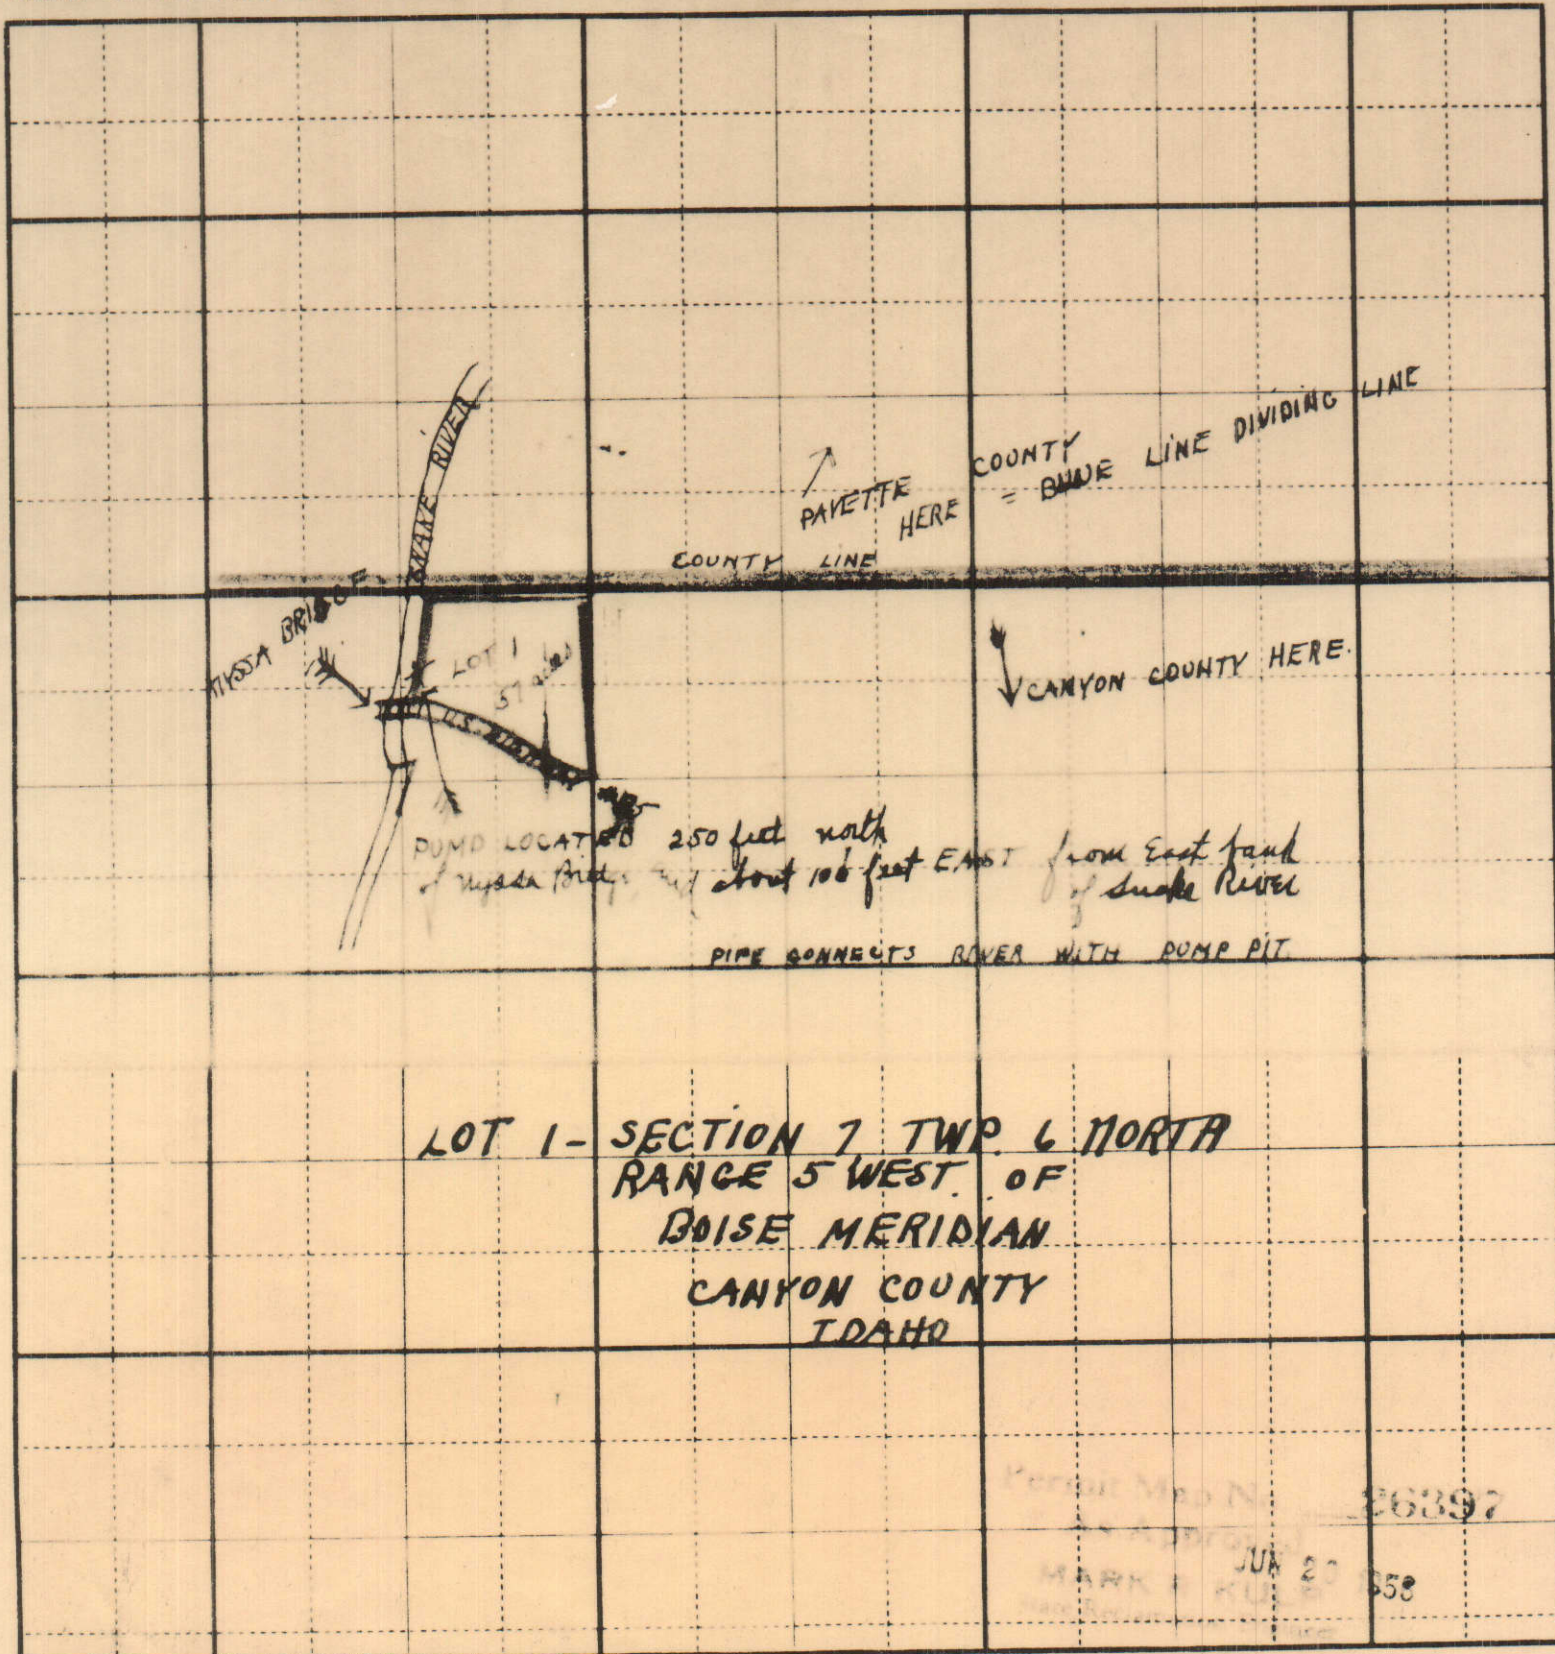

The date of priority which said user is prepared to establish is June 15, 1956.

- (b) Amount of capital stock:
- (c) Amount paid in:
- (d) Names and addresses of directors:

II. The financial resources of the applicant are:

- (b) Treasury stock:
- (d) Other resources:

(a) Cash on hand:

(c) Bonds to be issued:

2. Quantity of water claimed: One and 7/50ths

cubic feet per second.

3. Source of water supply: Snake River

which is a tributary of Columbia River

4. Location of point of diversion: 250 feet North and 100 East ~~feet~~ distant from the Nyssa Bridge
 or the Southwest Corner of Lot 1,
 corner of Section 7, T. 6 N, R. 5 W., B.M., and is in ~~the~~ Lot 1

of Section 7, T. 6 N, R. 5 W., B.M., County of Canyon, State of Idaho.

5. Water is to be used for Irrigation

6. If for mining, milling, power or manufacturing purposes, give:

(a) Point of use of water: feet distant from corner of Section

T. , R. , B.M., in the of Section , T. , R. , B.M.

(b) Amount of power generated: H.P., under feet head.

(c) Water is to be returned to at a point feet

distant from the corner of Section , T. , R. , B.M., in the
 of Section , T. , R. , B.M.

7. Estimated cost of works: \$ 300.00

8. Kind of works: 7 1/2 H. P. Electric Motor, Pump Pit, with a Peerless Pump.

9. Height of dam None feet; length of dam at top feet; length of dam at bottom
 feet; material used in dam:

10. Size of headgate: Width 10 inch pipe feet; height 12 feet lift feet

11. Ditch: Width at bottom three feet; width at water line three feet; depth of water two feet;
 dimensions of flume: No flume

Diameter of pipe 10 inches; length of conduit 3/8 mile. miles.

Average grade per mile 1 foot per 100 feet.
 Pipe from River to Pump Pit made of galvanized pipe, about 100 feet in length,
 operating condition.

12. The time required for the completion of such work is It is now in / years.

13. The time required for the complete application of the water to the proposed use is One additional years.

14. The land to be irrigated is described in the following tabulation: See remarks.

15. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: None.

16. (a) Is reservoir to be used? **No reservoir** If so, fill in (b) and (c) below:
 (b) Name of Reservoir and number of Storage Permit:
 (c) Date of filing of Application for Storage Permit and Name of Applicant:

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public water of the State of Idaho as herein set forth.

Dear Mr. Anderson:

Enclosed are the following:

1. Application for amendment to Permit No. 26397 as approved by the State Reclamation Engineer and recorded in the Department of Reclamation in Book 93 of Permits at page 26397 amending the list of land as described on record to read as follows: "Lot 3 (30 acres) Section 6; Lot 1 (22 acres) Section 7, Township 6 North, Range 5 West, B.M." This should now be attached to the original permit to which it refers and of which it becomes a part.
2. License and Certificate of Water Right issued under Permit No. 26397 to A. F. Seward, confirming the right with priority of June 15, 1956, to his use of 1.04 second feet of water from the Snake River, with the point of diversion in the SW Cor. of Lot 1, Section 7, for irrigation of 52 acres in Lot 1 Section 7 and Lot 3 Section 6, Township 6 North, Range 5 West, B.M.
3. Departmental receipt #29022 for \$4.00, issued as receipt of the fee for the license.

Re: Permit No. 26397
A. F. Seward

Mr. Ernest Anderson
Attorney At Law
Parma, Idaho

Dear Mr. Anderson:

Our field engineer's report on the inspection of application of water to beneficial use under the terms of Permit No. 26397, A. F. Seward, of Parma, shows the works are capable of conveying 52 miners' inches (1.04 c.f.s.) of water from Snake River for irrigation of 52 acres in Lot 3 of Section 6 and Lot 1 in Section 7, Township 6 North, Range 5 West, B.M. Also, he states: "Mr. Seward: After leaving you I went to the Court House in Caldwell and checked an aerial map of your place. You will need to sign the enclosed amendment to the land list in order to cover the fields you actually irrigate. According to the photo you are irrigating approximately fifty-two acres from the pump. State law allows a maximum of one inch per acre for irrigation."

Upon receipt of the amendment, mentioned above, and the statutory fee of \$4.00, we will issue the License and Certificate of Water Right under Permit No. 26397 to A. F. Seward confirming the right with priority of June 15, 1956, to his use of 1.04 second feet of water from Snake River, with the point of diversion in the SW corner of Lot 1, Section 7; for irrigation of 30 acres in Lot 3, Section 6; and 22 acres in Lot 1, Section 7; Township 6 North, Range 5 West, B.M.

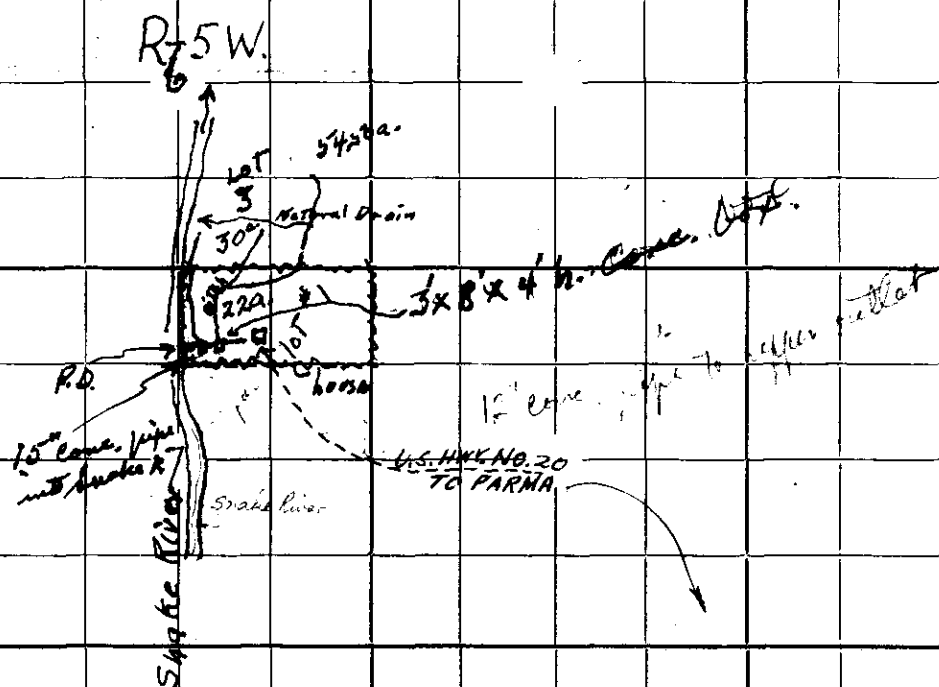

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Permit No. 26397

This proof is for Beneficial Use In Water District No. _____1. Name of applicant A. F. Seward,2. Source of water supply: Snake River3. Location of point of diversion: Is in the 250' N. and 100' East from Nyssa Bridge, or
SouthWest Corner of Lot 1 of Section 7T. 6 North R. 5 West County of Canyon

4. Describe works as they exist, giving dimensions and capacities of same: Well made of conc.
Pipe 60" d. standing on end. Connected by buried pipe line to Snake R.
Motor = 7 1/2 hp. N.E. horizontal - V belt drive to Larrea water
lifter pump. 10" disch. to East in conc. outlet well. Connected
to another conc. outlet well still farther East. Water to
fields by gravity. Lift = measured @ 12 feet.

5. Water is used for: Irrigation6. State whether or not water has been turned into works of diversion: yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

Lot 1, Section 7, Township 6 North, Range 5 West - 57 Acres.

See map.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? _____

Remarks: _____

This examination was made on the 18 day of February, 1938(Signed) E. H. Humphrey Examiner.

26397

Dear Mr Seward:-

After leaving you I went to the Court House in Caldwell and checked an aerial map of your place.

You will need to sign the enclosed amendment to the land list in order to cover the fields you actually irrigate.

According to the photo you are irrigating approx. fifty two acres from the pump and I have ~~so shown~~ ^{so shown} in my report. 48 State law allows a maximum of one inch per acre on a license. Thus your license will be for fifty two inches.

This does not ^{however} require of you
in the amount you can
repay.

November 27, 1957

Re: Permit No. 26397

A. F. Seward
Rt. # 2,
Parma, Idaho

Dear Mr. Seward:

We acknowledge receipt of the deposition of Holder and two witnesses, also affidavit of publication in the Parma Review, all submitted in proof of Application of Water to Beneficial Use on Permit No. 26397.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

P. O. Address: R#2. Parma, Idaho.
Farmer.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. No corporation-An individual only.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. No. 26397. Dated June 15th, 1956. June 15th, 1956

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Snake River; 250 feet North and 100 feet East distant from the Nyasa Bridge, or the Southwest Corner of Lot 1, in Section 7, T. 6 N. R. 5 West of the Boise Meridian, in Canyon County, and located within said Lot 1, Sec. 7, T. 6 N. R. 5 West of B. M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Water conducted from Snake River to a pump pit, a distance about 100. From pump pit lifted with a 7½ H. P. Peerless about 12 feet, capable of pumping about 100 inches of water. The size of the conduct conveying water from the river to the pump pit is 18 inches, and is of galvanized pipe. From pump pit the water is conducted to the land by an open ditch and is of an approximate length of 3/8 mile. Water measured is based on estimate

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for irrigation on the following lands, to-wit:-
Lot 1, Section 7, Township 6 North, Range 5 West of the Boise Meridian, Canyon County, Idaho. Acreage irrigated 57.
Cultivated land. All of land is in cultivation, and fine home built and many other improvements made.

26397

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. For irrigation purposes only.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. One and Fourteen-Hundredths (1.14) second feet

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. I am the person

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. It has been used on this land, and crops raised on thereon for more than five year last past.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. None. Except, that sometimes a little waste water comes down one of the drains, but being intermittant, cannot be depended upon.

(Sign)

A. T. Senard

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Parma, County of Canyon,

State of Idaho, on this 22nd day of November, A. D. 1957.

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHORECEIVED
NOV 25 1957
Department of ReclamationPERMIT NO. 26397**Proof of Application of Water to Beneficial Use****Deposition of Witness**

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Bruce Pett, Age 69 Years. On R#2. Parma, Idaho, Farmer:

P. O. Address: R#2. Parma, Idaho.

Ques. 2. Are you acquainted with A. F. Seward, the holder of Permit No. 26397? How long have you known him and where does he reside?

Ans. I am acquainted with him. I have known him 17 years. He is my neighbor. Mr. Seward resides on his place, being on Lot 1, Sec. 7, T. 6 N. R. 5 W. of B. M.

Ques. 3. Have you read or heard read said Permit No. 26397, and are you familiar with its provisions and conditions?

Ans. Yes. I am familiar with its provisions.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Snake River. Point of Diversion about 250 feet North and about 100 feet East of the new Nyssa Bridge in Lot 1, R#1, Section 7, Twp. 6 North, Range 5 West of the Boise Meridian. The works consists of a 15 inch conduit from Snake River to a pump pit, and from there it is lifted 12 feet with a 7½ H. P. Peerless Electric Pump, and from there conveyed to the land by means of open ditches. Water used on said Lot 1, Section 7, aforesaid.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. About one inch to the acre (57 acres are irrigated)

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Used for Irrigation on Lot 1 (57 acres) in Section 7, Township 6 North, Range 5 West of the Boise Meridian, Canyon County, Idaho.

26397

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. For irrigation purposes only.

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Sandy loam is nature of the soil. All of 57 acres have been reclaimed, and it takes about 100 inches of water, but not on a continuous bases, but I would say it takes ~~one~~ inches of water, per

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No interest whatever.

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have observed the irrigation of this land for about 16 years.

(Signed) Beard Pett

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Parma,

County of Canyon, State of Idaho, on this 22nd day of November,

A. D. 19 57.

PERMIT NO. 26397

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. J. P. Lane, Age 77 years. Resides on R#2. Parma, Idaho.

Farmer. P. O. Address: R#2. Parma, Idaho.

Ques. 2. Are you acquainted with A. F. Seward, the holder of Permit No. 26397? How long have you known him and where does he reside?

Ans. I have known him 18 years, or thereabouts. He resides on

R#2. Parma, Idaho, on Lot 1, Sec. 7, T. 6 N. R. 5 W. of B. M., in Canyon County, Idaho.

Ques. 3. Have you read or heard read said Permit No. 26397, and are you familiar with its provisions and conditions?

Ans. Yes, Mr. Anderson read it to me. I am familiar with its contents.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Snake River: The place of diversion is about 200 or 250 feet North and 75 to a 100 feet East distant from the Nyssa Bridge, being near the Southwest Corner of Lot 1, Section 7, Township 6 North, Range 5 West of the Boise Meridian. The works consists of an underground 15 inch conduit, consisting of 15 inch galvanized pipe, and runs for about 75 feet to 100 feet to a pump pit, and from there it is lifted about 12 feet with an electric 7 1/2 H. P. Peerless Pump. From there it is conducted over the land by means of open ditches. Water for Lot 1, aforesaid.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. Two second feet, or 100 inches. (This is what pump is capable of pumping, but only 1.14 second feet is claimed)

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. It is used for irrigation, and on said Lot 1, (57 acres), in Section 7, Twp. 6 N. R. 5 W. of B. M., The land farmed is cultivated land, and is in a high state of cultivation. The soil is of a sandy loam, and takes quite a little water. A fine home has been built on the premises, and all of the land farmed for many years.

26397

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. For irrigation only.

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Sandy loam, and it takes about 100 inches of water to properly irrigate the same in a hurry, but applicant can get along with 57 inches, but that would take longer pumping.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No interest.

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. It has been in cultivation sixteen or seventeen years. Fine crops are raised thereon.

(Signed) L. P. Lane

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Parma, County of Canyon, State of Idaho, on this 22nd day of November, A. RE: Permit No. 26397
A.F. Seward

Mr. Ernest Anderson
Attorney at Law
Parma, Idaho

Dear Mr. Anderson:

This acknowledges receipt of the Notice of proofs application of water to beneficial use under Permit No. 26397, in the name of A.F. Seward. Final proof is to be made before you, as Notary, at 10:00 A.M. on the 22nd day of November.

As of this date, we have mailed the Notice to the Parma Review with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and to then mail the affidavit of publication and statement of costs to you.

In completing the enclosed depositions, it is very important that the Permit holder and his two disinterested witnesses, who are familiar with the terms and the work done thereunder, execute the depositions before you as Notary, at the time, date and place as advertised in the publication Notice, as well as all other necessary information called for. The signatures of the holder and witnesses, and, your Notary seal are essential.

When returning the depositions to this office, please be sure to include the affidavit of publication.

Very truly yours,

STATE OF IDAHO
DEPARTMENT OF RECLAMATION

RE: Permit No. 26397

Date October 1, 1957

Mr. A. F. Seward
Route #2
Paxson, Idaho

Dear Sir:

The date for proof of application of water to beneficial use, as set out under the terms of Permit No. 26397 is due not later than December 20, 1957. If by this date you are not prepared to make this proof, you may make it at a later date, however, your priority will be advanced the same length of time for which the proof is late.

Before this proof can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county.

We enclosed Form 10, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the above mentioned date or before the time you intend to make proof. This form, filled out in duplicate, is to include the time of day, the date (allowing for four weeks publication), the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place that is convenient for you and your two witnesses), the quantity of water filed on, for what purpose it is used, the point or points of diversion and the location of use or lands which are irrigated--all by legal land description.

Also enclosed is Form 11, which is the authorization for us to have the notice published in the designated county newspaper, at your expense. This is to be returned with Forms 10.

At the time we send the notice to the newspaper, we will also send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Mr. A. F. Seward
Route 2
Perma, Idaho

Boise, Idaho

Dear Sir:-

Under the terms of your permit No. 26397 you are required to complete your diversion works on or before December 20, 1956. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

MARK H. KULP

State Reclamation Engineer
