Mr. Jitsuo Imada
Route No. 1
Weiser, Idaho

Dear Mr. Imada:

Reference is made to your letter of June 17th, in regard to the above numbered permit.

The report of our field engineer on inspection shows that you have irrigated 123 acres in the $W\frac{1}{2}$ $SW\frac{1}{4}$ Section 34, Twp. 11 North, Range 6 West, B. M., and the $N\frac{1}{2}$ $NW\frac{1}{4}$ Section 3, and $E\frac{1}{2}$ $NE\frac{1}{4}$ Section 4, Twp. 10 North, Range 6 West, B. M.

A license can, therefore, be issued for 123 inches of water, less the $15\frac{1}{2}$ inches already licensed under Permit No. 22671, or $107\frac{1}{2}$ inches (2.15 cubic feet per second).

The license fee will amount to \$10.00, upon receipt of which a license will be issued.

Dear Sir.

Referring to Permit No. 25840
after writing you the last letter, I had Mr.

With his help and the help of Mr. Whiting (who
helped me apply for this Water Permit.) we
have found that I had filed on Mr. Shepherd's
land. So if it isn't any inconvenience to you,
will you reduce the water $15\frac{1}{2}$ inches like you
have suggested.

I am very sorry I have not settled this affair
earlier

Dear Sir

In reference to water Permit no. 25840.

On this Permit your Office has allotted me 2.58 C.F.S. Could you tell me how much it will be that I can have for this permit after 15 inches is taken out? (In C.F.S.)

In talking with Mr. N. J. Shepherd, he recalls vaguely about his Permit no. 22671, but promised to look it up for me. Is it possible to be able to use his permit for the 15 inches that he applied for in my land, since the deed to the land was changed after the application to the ~~to the~~ water permit was made.

If it is advisable for me to be in, please let me know and I will find time off on my work and get it straightened out with you.

Very sorry I never answered last letter. I figured you automatically took off 15 inches and had informed me of such.

Dear Mr. Imada:-

We acknowledge receipt of the depositions of yourself the holder of the Permit and also the two witnesses, but to date we have not received the affidavit of publication from the Weiser Signal. If you have not already received it will you please get it and forward to us as we need it to complete this file.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Dear Sir:

Under the terms of your permit No. 25840 you are required to complete your diversion works and make proof of beneficial use on or before

August 1, 1956.

We enclose herewith a blank affidavit to be filled out, sworn to by you before a Notary Public or Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the Works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion of Works will be issued to you.

We also enclose blank notice for proof of application of water to Beneficial Use under this permit, which should be filled out and returned to this office at least forty (40) days before the date upon which you wish to make proof. The proof must be submitted before a Notary Public or other officer authorized by law to administer oaths. The date for proof as set out in your permit, is August 1, 1956, and if proof is submitted subsequent to said date, your priority will be brought down a length of time equal to the time elapsing between the date proof should have been made and the date proof is actually made.

Dear Mr. Whiting:

We enclose Permit No. 25840 in the name of Jitsuo Imada.

You will note that we have allowed one year or until August 1, 1956, within which to make the statutory proofs of Completion of Works and Beneficial Use required to complete the Water Right.

Beneficial Use proof on Permit No. 25623 recently assigned to Mr. Imada requires proof of Beneficial Use on or before January 2, 1957. Our suggestion would be that Beneficial Use proof be made on both these Permits at the same time; in that way they could both be included in one publication notice and save a little expense.
