Gentlemen:

Enclosed is a copy of your letter regarding Mr. Knowlton. His pump is located on the north boundary of Lot 8 at its boundary with the Snake River in Section 28, Township 8 N., Range 5 W, BM, and water is used in supplement to lands mentioned in letter that are watered by this permit.

We have approximately 135 acres irrigated in this holding of Roy Knowlton. U.S. Gov't Survey shows 182.29 acres, hiway took some and some is waste. The A.S.C.S. latest survey shows 127 acres farmable, excluding all irrigation facilities, such as ditches and drainage ditches.

Dear Mr. Randolph:

Pursuant to your letter of June 24, 1970, we have researched our files and find a water license no. 14388/65-2266 in the name of A. H. Ramey.

This license is for 1.54 c.f.s., with a priority date of February 28, 1920, and covers the following lands:

Sec. 28, T. 8 N, R. 5 W, B. M., Lot 4	- 15 acres
Lot 5	- 45 acres
Lot 6	- 1 acre
Lot 7	- 5 acres
Lot 8	- 10 acres
Lot 9	- 1 acre

TOTAL 77 acres

Before we can research our files and determine if Mr. Knowlton has any rights on the Snake River as mentioned in your letter, we will need to have some additional information. We will need to know the legal discription as to the point of diversion and/or the place of use.

If we can be of further assistance, please advise.

Dear Mr. Knowlton:

Statutes requires a field inspection in connection with the proofs on Permit # 25202 before license and certificate of water right can be issued.

Such inspection and report on same is required for any and all permits being brought to license within this State.

An inspecting Engineer from this Department requests that you or someone familiar with the terms of the permit and representing you be prepared to accompany him on the inspection, on Tuesday, morning, April 19, as soon as we can drive over from Boise, probably between 9 and 9:30 A. M.
