IS ATTACHED

Mr. A. B. Cone,
Route #1,
Parma, Idaho.

Dear Mr. Cone:

This acknowledges the Notice of Proof of ~~Completion of Work~~ Application of Water to Beneficial Use under Permit No. 21986. The proofs are to be made at 10:00 o'clock A.M., on the 14th day of November, 1960 before Walter Kerick, Parma, Idaho, Notary Public.

As of this date we have mailed the Notice to the Parma Review with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

GEO. N. CARTER

Dear Mr. Cene:

This acknowledges the Notice of Proof of ~~Application of~~ Application of Water to Beneficial Use under Permit No. 21986. The proofs are to be made at 10:00 o'clock A.M., on the 14th day of November, 1960, before Walter Keriok, Parma, Idaho, Notary Public.

As of this date we have mailed the Notice to the Parma Review with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

RE: Permit No. 21986

Donald Cone
716 Central Drive
Moses Lake, Washington

Dear Mr. Cone:

Enclosed are two blank Forms 10, one blank Form 11, with instructions, and the Form 10 you submitted to this office in 1957.

The form you submitted is sufficient except the top three lines must be completed. Your application for permit shows 1.46 cubic feet per second of water and that is the largest amount that can be shown on your permit.

You can make your deposition in Washington and your two witnesses can make their depositions in Idaho before different Notary Publics; however they should be made on the same date if possible. The notice would have to be typed in duplicate similar to the following:

Notice is hereby given that at _____ M. on the _____ day of _____, 1960, at _____, County of _____, State of _____, before _____, Donald Cone will submit proof, and at
name _____ address _____
_____ M. on the _____ day of _____, 1960, (or at the same time) at _____, County of _____, State of Idaho, before _____, his two witnesses will submit their proofs, of
name _____ address _____
the application to beneficial use of 1.46 cubic feet per second (balance the same as the notice).

You can, of course, make your depositions in Idaho with your witnesses.

The notice must be placed in a paper printed in Canyon County. You named the Parma Review before.

Your two witnesses must testify that they are familiar with the terms of your permit and that they know you and know when you used the water on the land.

2-10-50

Donald Cone - continued - page 2

They should be able to give the year when you first irrigated all of the land shown in the permit or as much as is being irrigated.

Donald Cone

Mr. John M. Moberg
Attorney at Law
213 Beech Street
Moses Lake, Washington

Dear Mr. Moberg:

This will acknowledge your letter of February 19, 1957, in which you wrote regarding the permit captioned above in the name of Donald Cone.

As stated in our previous letters to Mr. Cone it is necessary when proving-up (beneficial use proof) on the water right of a permit that the intent of same be published in a county newspaper once a week for four consecutive weeks prior to the time the depositions for proof are to be taken. It is also necessary that the publication states - where, when and before whom (notary public) the depositions will be taken.

It will not be permissible for Mr. Cone to have his deposition sworn to before you in Moses Lake and to have the depositions of his witnesses taken before Walter Kierack of Parma, Idaho. The depositions of Mr. Cone and his two witnesses must be taken before one and the same notary and on the date as is advertised in the publication. If it will be impossible for him to make his proof (deposition of holder) before the same named notary together with his two witnesses at the time set for proof, the only alternative is for him to give someone in Parma "power of attorney" to make it for him.

It is our policy to forward to the holder of the permit the forms for depositions after we receive the Notice of Publication and have sent same to the paper for publication. We are enclosing a set of these forms for your information.

Dear Sir:-

Under the terms of your permit No. 21986 you are required to complete your diversion works on or before March 17, 1954 I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.
