Re: Permit No. 21934/02-2087

Dear Mr. & Mrs. Anderson:

We acknowledge receipt of the assignment conveying the above referenced permit to you. The assignment has been recorded and the Department's records changed accordingly.

We also acknowledge receipt of your proof affidavit submitted as proof of beneficial use. Enclosed you will find an Order; please note that the priority has been advanced.

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a permit holder to make proof of beneficial use. The enclosed order modifies this permit to comply with the rules and regulations.

We have caused the legal notice to be published in the Weiser Signal at Weiser, Idaho, on October 5 and October 12, 1972. You will be required to submit an affidavit of publication to this office. The affidavit may be obtained from the above mentioned newspaper upon payment of the bill for publication. If you have any questions regarding any of the above matters, please contact us.

Sincerely,

Boise, Idaho **December 1, 1951**

Dear ~~Sir~~ **Madam**:

Under the terms of your permit No.---**21934**---you are required to complete your diversion works on or before---**February 17, 1952** I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.
