Mrs. R. T. Baker
Route 1, Box 321
Weiser, Idaho 83672

Dear Mrs. Baker:

A representative of this Department has made an examination of the works covered by your Permit No. 33526/03-2015 and has found the following:

Quantity of water diverted: 0.93 cfs Source: Snake River

Amount of water that can be recognized as beneficially used under Idaho law: 0.46 cfs

The maximum quantity diverted shall not exceed 103.5 acre feet, or 4.5 af per acre, per year.

Point of diversion: Gov't. Lot 1 (NE $\frac{1}{4}$ NE $\frac{1}{4}$), Sec. 36, Twp. 11 N, Rge. 6 W, B. M.

Beneficial use: Irrigation of 23 acres within Gov't. Lot 1, Sec. 36, Twp. 11 N, Rge. 6 W, B. M.

Priority date established: March 21, 1967

Our examiner found that the legal description of the point of diversion and place of use differs from that description listed under the permit. Therefore, it will be necessary to amend the permit before a water license can be issued. Enclosed is a partially completed application for amendment for your use in this matter.

Please sign the application and return it to this office along with a \$10.00 filing fee within 30 days in order that we may issue your license as set forth above. If you do not concur with these findings or have any questions, please contact us within the 30 day period.

Dear Mrs. Baker:

In reference to your letter of February 25, 1971, please be advised that if you are not able to complete your project on or before March 22, 1972, you may submit an application for an extension of time, just prior to the date when beneficial use is due. We would suggest possibly 30 to 60 days prior to the date set in 1972 for your beneficial use showing. You can request at the time up to an additional five years within which to complete your project.

We are enclosing an application for an extension of time form which may be submitted at that time.

If we can be of further assistance to you, please contact us.

Gentlemen:-

I'm writing in regard to my
Water permit No 33526/03-2815
as permit application reads
March 1967 also as per your
Correspondence Jan 11, 1971 my
project should be finished in
March 1972.

I am now using water on
18 acres of land but must
put an underground pipeline
across the 18 acres to carry

the water to ~~the~~ 8 acres
across a drain ~~line~~ which
runs across the property

2015

I lost my husband in 1967
and since then have had
several bad heart attacks so
I have not been able to
complete the project.

The A.S.C. Office here tells
me there hasn't been money
to help on these projects.

I have not had a survey
made as to how much
pipe line I need to do this.

Would it be possible to
do it later than 1972 or what
would the procedure be?

I do not want to jeopardize
my water permit in any
way, but do not have the
money to do it all on my
own at this time.

please advise me 3 2015

Sincerely,

Mrs. R. J. Baker

Re: Permit No. 33526 (New No. 03-2015)

Mrs. R. T. Baker
Weiser,
Idaho 83672

Dear Mrs. Baker:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department: previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply them upon request at any time.

Very truly yours,

Donald W. McEldowney
Appropriation Supervisor
