

MEMORANDUM

To: Tim Luke
From: L. Glen Saxton *LLS*
RE: REQUEST FOR MAILING LABELS
Date: January 7, 1998

Norm asked that we compile mailing labels for the water users shown in capital letters on the attached water delivery schedule. He thinks that we can run a list of annual water district meeting mailing labels for basins 11 and 13 and then compare the labels with the listing in order to compile a complete concise set of mailing labels. Norm advises that Jim Johnson assisted several years ago in the compilation of the water delivery schedule.

The labels then need to be mailed to Jack Barnett. Norm may want to include certain information in the transmittal letter to Barnett.

Please have someone in your section pursue this assignment.

Jody has been working late. Last night at 8:00 p.m. the attached letter and altered Water Delivery Schedule No. 1 was faxed to me. A review of the material will reveal to you that PacifiCorp feels there needs to be multiple changes to small water rights on the delivery schedule. The Commission staff (Don and I) do not advance proposed changes to the schedule to the Operations Committee without the approval of Utah or Idaho. In fact, there is no reason for Don or I to be in the middle as long as we know the changes that are to be made. Hence, I have sent the enclosed material also to the listed state water right leads.

I find it an open question as to the number of changes the Operations Committee will be comfortable in making on November 17. You will note that Jody has given users a deadline of November 20. A future meeting of the Operations Committee may be needed to complete this current wave of changes. As I was finishing the writing of this memo, Bill White, an attorney who works with Jody, called to say he has many more changes but they may be of the most simple type. The changes could be just to add the note to some water rights on the list that there is a Utah Power contract associated with the right.

RE: Water Delivery Schedule #1

Dear Jack:

PacifiCorp appreciates the opportunity to comment on proposed changes to the Commission's Water Delivery Schedule #1 received last week. As the Commission is aware, over the past year, PacifiCorp has set out to update and revise the individual Bear Lake storage water contracts and quantify the acreage historically irrigated with supplemental Bear Lake storage water. To ascertain the correct owners of the contracts, the acreage irrigated, and the title owners of the water rights supplemented with Bear Lake storage water, PacifiCorp has relied on the help of the Logan office of the Utah State Engineer, the Idaho Falls office of the Idaho Department of Water Resources, Bill Ondrechen in the Boise office of the Idaho Department of Water Resources, the Lower Bear River Commissioner, the District 11 Watermaster, and the officers and board members of the Bear River Small Irrigators Association, and many others.

Prior to issuing replacement contracts for the 1989 contracts, PacifiCorp required each user to provide information on the acreage irrigated and to update title to the water rights. To the extent possible, the replacement contracts are written in the names of title owners of the water rights. This will necessitate the revision and updating of the Commission's Water Delivery Schedule #1. Our investigation also found a few additional water rights on the Schedule supplemented by contracts.

I am attaching a copy of Schedule #1, with the updates noted thereon, to this letter. To the best of our knowledge, it is current. However, the contract holders have until November 20 to update and execute their replacement contracts, so we could get some additional last minute changes. If we do, we will notify the Commission.

In previous correspondence, I informed the Commission that PacifiCorp was updating its own water rights and would be filing claims with the Idaho Department of Water Resources pursuant to Idaho Code § 42-243. On November 10, 1998, PacifiCorp filed the claims, and they should be noted on the last page of Schedule #1 in the first box ("Idaho unadjudicated claimed rights which only receive natural flow when the river is not in regulation, but which thereafter receive storage water under contracts with Utah Power.") Those filings, which document existing uses, are listed below:

A couple of the changes to Schedule #1 deserve additional comment: In Utah, Water Right Nos. 25-6467 (1894) and 25-3040 (1919) currently listed in Robert W. Goodwin, and to be changed to Elner Goodwin Trust, soon will probably be segregated. The additional owner listed on each water right is Warren D and Cathy D. Hughes. The Hughes irrigate different acreage than the Goodwins, and they should have separate water right numbers. We believe they should be listed on Schedule #1 with Elner Goodwin Trust until their rights are segregated.

In Idaho, B. Johnson (listed in the first box on the last page) is deceased. His son has been offered the contract, but indicates he is unlikely to sign it by the November 20, 1998 deadline (if at all). Delete B. Johnson from the box. If his son decides that he wants a storage water contract prior to November 20th, we will so inform you.

If we find additional changes to Schedule #1 prior to the Operations Committee meeting on November 17, we will notify you.

Very truly yours,

KRUSE, LANDA & MAYCOCK, L.L.C.
