

Agenda notes for WD11 Advisory Committee phone conference call for Friday, Sept 1 at 2:00 p.m.

IDWR would like to request another telephonic conference call among the Water District 11 advisory committee members as soon as possible. Items to discuss are:

- The watermaster's refusal to complete his duties because of the on-going discrepancy of expense payments.
- The watermaster's recent bill, a copy of which was forwarded to IDWR by the watermaster, for full August salary and office rent despite the fact that the watermaster has probably only worked about half of the month.
- The watermaster's continued unprofessional conduct dealing with IDWR staff, as well as recent unprofessional conduct dealing with the former treasurer and the advisory committee (example: shouting at IDWR staff and the treasurer/treasurer's employee, and threats of litigation).
- Discuss or consider options for removal of the watermaster given the problems stated above.
- Determine how best to collect necessary data and/or complete watermaster duties for remainder of this season whether watermaster is removed or not.
- Status of new treasurer (we have not yet received an oath of office from Mr. Moses). Can the treasurer be appointed if the dispute regarding watermaster expenses has not been resolved?
