RE: Reports of Snake River Basin Adjudication (SRBA) Claims in
Basin 78

Dear Marge:

Enclosed are three reports based on the SRBA claims IDWR has received as of September 13, 1994 in Basin 78 (Little Salmon River Drainage). The "Adjudication Numeric Index" includes all of the claims, including those claimed just for domestic use, that are in IDWR's data base for Basin 78.

I removed the claims for domestic use only to run the "Adjudication Water Master Report" and the "Adjudication Listing of Water Rights". The water master report groups the claims by source, then the claims from each source are listed in order of priority date. The listing of water rights lists the claims in order of claim number, and it includes most of the information that is contained on the claim form that was filed by the claimant.

It is possible to have these reports copied to a floppy disk. If you would like to have one or more of the reports copied onto a disk, all you need to do is supply IDWR with the disk, and we can copy the report onto it.

Sincerely,

Carter Fritschle
Water Rights Supervisor
Adjudication Bureau
