RE: Water District 72-F, Morgan Creek

Dear Mrs. Hawkins;

We have received your corrected watermaster's report for 2005. The report has been reviewed and approved, and a signed copy is enclosed for your records. You will notice that I corrected 3 items in the Credits column.

Regards,

James E. Stanton
Sr. Water Resource Agent

RE: Water District 72-F, Morgan Creek

Dear Mrs. Hawkins;

I have checked your corrected Watermaster's Report, and it looks good except for a couple of items. Mainly, you forgot to sign it! The Debits column is incorrect, as these figures should be the pro rata share of the actual cost (Column 2) instead of the Adopted Budget amounts. Just make the two corrections before returning the signed form to me, and we are done for 2005.

The Proposed Budget looks good. You did use the pro rata cost from last year for the two non-payers in adjusting the billing, so that is correct. On the back of the Budget, the total cost for 2005 should be \$300, not what was originally budgeted; just a note for future reference.

Regards,

James E. Stanton
Sr. Water Resource Agent

I HEREBY CERTIFY, that Patricia M. Hawkins was lawfully appointed by me as Water Master of Water District No. 72-F, and that the information contained in this report, as herein sworn to, is, to the best of my knowledge and belief, correct.

Karl J. Dreher
Director, Department of Water Resources

By J. Polanton

SECTION 42-606 IDAHO CODE

REPORTS OF WATERMASTERS. All watermasters shall make an annual report to the department of water resources prior to the expiration of the watermaster's appointment for the current year. This report shall show the total amount of water delivered by the watermaster during the preceding year, the amount delivered to each water user, the total expense of delivery and the apportionment of expenses among users and all debits and credits to be carried over to the following year. Such report shall also include records of stream flow the watermaster used or made in the process of distributing water supplies. The director may ask for other information deemed necessary in assuring proper distribution of water supplies within the district. The reports of watermasters to the department of water resources shall be filed and kept in the office of the department.

Instructions For Completing Annual Watermaster's Report

This form has been developed to assist the watermaster in complying with some of the annual reporting requirements of Section 42-606, Idaho Code. The form provides for summary of the amount of water delivered by the watermaster to each user, the total expense of delivery and the apportionment of expenses among water users, including debits and credits. Water distribution and hydrologic information including stream flow records, daily diversion data, water right information and water right priority cut summaries should be presented in a separate water distribution report.

Complete this annual report form of delivery and costs as follows:

- 1) Enter water right holder name, corresponding IDWR water right number or numbers, and corresponding diversion name and/or remarks on page 2;
- 2) Enter the total amount of water delivered to each user as total 24-hour second feet under column 1, page 3. Total **24-hour second feet** is a flow rate expressed in terms of one day or 24 hours. For example, a continuous diversion of 2 cfs over 20 days would equal 40 24-hour second feet.
- 3) Under column 3, page 3, enter the amount of money assessed or billed to each user at the beginning of the year. The assessment may be found in the previous year's adopted budget report.
- 4) In the work space provided on the right hand side of page 3, add up total watermaster salary costs and expenses and enter as 'TOTAL COST'. Then divide this total cost by the total number of 24-hour second feet delivered (sum of column 1) to obtain the cost per 24 hour second feet delivered, or the unit cost factor.
- 5) Under column 2, page 3, multiply the unit cost factor (obtained in step number 4 above) by each user's total 24-hour second feet delivery in column 1 to obtain the total cost against each user.
- 6) For each user, subtract the total cost amount in column 2 from the adopted budget in column 3 and enter the difference either as a credit or debit (negative differences entered as debits, positive differences entered as credits).
- 7) Sign the report before a notary public and submit the original to the appropriate regional office of the Department of Water Resources. Retain one copy for the Water District.
