Re: 1994 Portneuf River Summary

Dear Arlin:

Enclosed is a copy of the 1994 summary of water deliveries and flows on the main stem of the Portneuf River, Water District 29. The delivery data is based on the information in your daily log books which you submitted to the Department last November.

Again, water distribution appears to be very good during the critical period of regulation based on comparison of daily flows at the Topaz gage and sum of diversions below the Topaz gage. Thank you for the prompt submittal of data and your effort during the water short year of 1994.

Please contact me if you have questions concerning the spreadsheet summary.

Sincerely,

Tim Luke
