

Mr. Warner,

25 April 2005

I have not received the watermaster daily water delivery that we talked about March 7, 2005,

We do not want correspondence with the river board sent to Steve Heddon any more as you did last year. He never gave me any information pertaining to the meeting until two days before the meeting and that does not give me time to get it to Mr. Hall and give him time to go over it.

My address is on all information sent to your office as Sec. also Treasure. Also after water season Mr. Heddon does not even work for the water district,

Thank You,
Wayne Avery.
