

Idaho Department of Water Resources

WATER DISTRICT NARRATIVE SHEET

Updated: March 5, 2002

Date of meeting: March 4, 2002 at 2PM

Location: Elmer Irelands in Prairie, Idaho

Phone: 868-3224

Attended by:

Ron Howerton

Senior Water Right Agent, Western Region

Water District: 63-B Smith Creek Officers:

YEAR	CHAIRMAN	SECRETARY	WATER MASTER
2000	Elmer Ireland	Barbara Ireland	Randy Davison
2001	Elmer Ireland	Barbara Ireland	Randy Davison
2002	Elmer Ireland	Barbara Ireland	Randy Davison

NARRATIVE: The same officers were elected again as shown in above table.

OLD BUSINESS: Last years discussion involved fixing leaks of the Trinity Canal, this canal has many outcroppings of lava and much ditch loss. Some earlier attempts to remove some large boulders were ineffective. Sinkholes also have occurred heavy-duty equipment like a bulldozer is needed. Luther Cook volunteered the manpower last year and will ask to borrow a dozer from the Davison's.

UPDATE: Luther did borrow the dozer and was able to fix a major part of the Trinity canal last year. The water master was not called out last year.

NEW BUSINESS: Re-elected same officers. Talked about fixing plugged up pipe near Elmer Irelands in the Trinity Canal used for stock water purposes. Luther thought he might be able to clear it out. He said ground squirrels have crawled in pipe before and would need to back flush it again to get it out.

Brought up new water master sheet for Randy Davison to sign. Talked about SNAKE RIVER BASIN ADJUDICATION mailing this week of the B63 Part I Preliminary Report. They will get their copies of their rights and will have 30 days to respond to their rights with the notice of error form enclosed with their rights and an IDAHO DEPARTMENT OF WATER RESOURCES meetings will be held in the Senior Center in Mountain home.
