MEMORANDUM

January 15, 1997

TO: Sinker Creek Water District 57D File

FROM: Cindy Hodges *chl*

RE: 1997 Water District Meeting

The 1997 Water District Meeting was held on Monday, January 8, 1997 at Murphy, Idaho. All water users were represented. Chairman Craig Baker, secretary Paul Nettleton and Watermaster Mary Blackstock were all re-elected. Budget remains at \$2000.000. Other topics of discussion or interest were as follows:

John Edwards has purchased the Tyson Ranch and plans to be irrigating this year. Mr. Edwards is a rancher from North Powder, Oregon who is in the process of moving his operation and family to the area. He hopes to be fully in residence by March 15. I have already provided Mr. Edwards with change in ownership documents; when these have been filed, the district mailing list will need to be updated by removing Mr. Hackley and Irene Tyson, and adding Edwards.

Last year's minutes did not show the inclusion of any of the standard resolutions. This year, two resolutions were passed: 1) Collection date for district assessments was set for April 1, and 2) no deliveries may be made to water users who have not paid their assessment. Paul promised to get the reports to the county within one week so bills could be mailed (only Jay owes this year).

Hulet Reservoir is full and spilling approximately 40 cfs. Jay is moving some flow down MMC but doesn't want to draw the reservoir down unless he is sure there is still snowpack at Silver City. The final rock work at Hulet Res. #2 should be completed within about 10 days. Maximum runoff so far has been estimated at 500 to 600 cfs but highest flows were contained in the reservoir before it spilled.

I led a brief discussion regarding SRBA update, change in ownership requirements, and Western's new appointments policy. At Paul Nettleton's request, I also discussed flooding problems with respect to SCA regulations, and passed out SCA brochures and emergency waiver forms. There was a minor road wash at Nahas Ranch last week which has been temporarily repaired, and a log jam on the Nettleton place which was removed. It appears that both projects were accomplished without encroachment into the channel. However, I encouraged Craig (Nahas Ranch) to file the emergency waiver and finish the stabilization work around the crossing to avoid further problems this spring.
