RE: Water District 47-G, Salmon Falls Creek

Dear Mr. Eckert;

We have received your 2005 Watermaster's Report and financial statement, your 2006 Proposed Budget and Adopted Budget, the minutes of this year's water meeting, notarized oaths of office for the watermaster and treasurer, and a signed call-on petition for watermaster services.

Certificates of appointment for the watermaster and treasurer are enclosed, as is a copy of the approval page of the Watermaster's Report.

Regards,

James E. Stanton
Sr. Water Resource Agent

WATERMASTER'S REPORT

From MARCH 01 2005 To October 31 2005

RECEIVED

MAR 17 2006

Department of Water Resources
Southern Region

Water District No. 479

Name of Watermaster Charles Runyon

P.O. Address 716-B EAST 4900 North Buhl, Idaho 83316

AFFIDAVIT OF WATERMASTER

STATE OF IDAHO)
COUNTY OF Twin Falls) ss.

Charles Runyon, being first duly sworn, deposes and says that he is Watermaster of Water District 479, having been lawfully appointed by Karl Dreher, Director, Idaho Department of Water Resources, and that the volumes of water, as stated in this report and prorated by him to the water right holders of the district are correct.

Charles Runyon
(Deputy) Watermaster District No. 479

Subscribed and sworn before me, this 6th day of March, 192006

Armand M. Eckert
Notary Public

My Commission expires 6-04-07

Boise, Idaho, 3-20, 10 2006

I HEREBY CERTIFY, that Charles Runyon was lawfully appointed by me as Water Master of Water District No. 47-G, and that the information contained in this report, as herein sworn to, is, to the best of my knowledge and belief, correct.

Karl J Dreher
Director, Department of Water Resources

By J. F. Stanton

SECTION 42-606 IDAHO CODE

REPORTS OF WATERMASTERS. All watermasters shall make an annual report to the department of water resources prior to the expiration of the watermaster's appointment for the current year. This report shall show the total amount of water delivered by the watermaster during the preceding year, the amount delivered to each water user, the total expense of delivery and the apportionment of expenses among users and all debits and credits to be carried over to the following year. Such report shall also include records of stream flow the watermaster used or made in the process of distributing water supplies. The director may ask for other information deemed necessary in assuring proper distribution of water supplies within the district. The reports of watermasters to the department of water resources shall be filed and kept in the office of the department.

Instructions For Completing Annual Watermaster's Report

This form has been developed to assist the watermaster in complying with some of the annual reporting requirements of Section 42-606, Idaho Code. The form provides for summary of the amount of water delivered by the watermaster to each user, the total expense of delivery and the apportionment of expenses among water users, including debits and credits. Water distribution and hydrologic information including stream flow records, daily diversion data, water right information and water right priority cut summaries should be presented in a separate water distribution report.

Complete this annual report form of delivery and costs as follows:

- 1) Enter water right holder name, corresponding IDWR water right number or numbers, and corresponding diversion name and/or remarks on page 2;
- 2) Enter the total amount of water delivered to each user as total 24-hour second feet under column 1, page 3. Total **24-hour second feet** is a flow rate expressed in terms of one day or 24 hours. For example, a continuous diversion of 2 cfs over 20 days would equal 40 24-hour second feet.
- 3) Under column 3, page 3, enter the amount of money assessed or billed to each user at the beginning of the year. The assessment may be found in the previous year's adopted budget report.
- 4) In the work space provided on the right hand side of page 3, add up total watermaster salary costs and expenses and enter as 'TOTAL COST'. Then divide this total cost by the total number of 24-hour second feet delivered (sum of column 1) to obtain the cost per 24 hour second feet delivered, or the unit cost factor.
- 5) Under column 2, page 3, multiply the unit cost factor (obtained in step number 4 above) by each user's total 24-hour second feet delivery in column 1 to obtain the total cost against each user.
- 6) For each user, subtract the total cost amount in column 2 from the adopted budget in column 3 and enter the difference either as a credit or debit (negative differences entered as debits, positive differences entered as credits).
- 7) Sign the report before a notary public and submit the original to the appropriate regional office of the Department of Water Resources. Retain one copy for the Water District.
