Department of Water Resources
Southern Region

Dear Edith,

Idaho Code 42-703 requires water users to install adequate measuring devices and control gates. I have visited with you before about your diversion and the need for a new installation at Puegel # 75. This installation and an adequate motor vehicle crossing, needs to be in place before the beginning of the 2000 irrigation season.

This fall seems to be the best time for this work to be done as it is usually too wet in the early spring.

Mr. Geoff Smith has spoken to me and he would be willing to help you with the installation of the vehicle crossing.

If you have any questions feel free to contact me.

Sincerely,

Lee R. Peterson
Watermaster
