**RE: ORDER REQUIRING INSTALLATION AND MAINTENANCE OF  
CONTROLLING WORKS AND MEASURING DEVICES**

Dear Water User:

It has been discovered that a letter and Preliminary Order from the Idaho Department of Water Resources (IDWR) dated November 16, 2004 was sent to you by mistake. This letter serves as official notice that you may disregard the Preliminary Order requiring locking headgates and measuring devices.

Our database indicates that one of your three points of diversion claimed for rights 37-1226, 37-2156A, 37-2156B and 36-12241 is erroneously located in the Croy Creek drainage, about 11 miles from the claimed source for these rights on Slaughter Creek. IDWR Adjudication Section staff have been notified of this apparent error in your claimed point of diversion, so that they may correct it.

Please call me at the above number if you have any questions.

Sincerely,

Steve Burrell  
Water Distribution Section
