RE: Beaver Dams

Don:

After receiving copies of your letters to Ray Kagel, Corps of Engineers, I tried to contact you by phone several times to see if the problem was solved. I last contacted Ray Kagel in October concerning this matter and he said he was never able to contact you after your letter of August 5, 1994. He didn't know if the problem still existed but it has never been resolved with his office.

If it has not, let me know so we can do something prior to the 1995 irrigation season. We may need to meet with the Corps and get an official policy letter out so you will not have any questions and can take appropriate action as needed.

My direct phone line is 327-5448 and I can be reached by mail at the above address.

Sincerely,

Ervin E. Ballou
State Coordinator
Stream Protection Program
