

WATERMASTER TERM OF SERVICE

The water master shall be elected for a term of one full year. The purpose is so the watermaster can serve in the legal capacity to do official business for the district in the event of emergencies, legislative actions, hearings, disputes or other water related or job related activities.

The watermaster cannot be required to make water deliveries before April 1 or after November 1, (the normal irrigation season) unless an emergency exists. The watermaster shall not be paid before April 15, or after November 1 from water district budgeted regular funds.

HEADGATES AND WEIRS

All control devices and measuring devices shall be in good working order before water can be demanded or delivered. The watermaster shall not deliver any water unless such devices are in good working order.

RECEIVED

MAR 17 1995

Department of Water Resources
Eastern District Office

Steven Ball of IDWR gave a short report saying the adjudication process is still going on but is not moving along right now while waiting for the judge to make his decision. Mr. Ball has been assigned to Birch Creek to study its adjudication.

Ted moved that the annual water meeting for next year be held March 11, 1996, at 10:00 a.m. at the Clark County Courthouse, and Jim seconded the notion. Passed.

It was moved by Lavar Newman to request the Soil Conservation Service to set up a snow measuring course in the Birch Creek valley capable of measuring snow depth and water content on a basis of measurements taken on the last of February and the last of March of each year. The need of this information is very important to planning, both to irrigation and to power generation, and to sportsmen. Seconded by Ted Sorenson. Passed.

Lavar moved the meeting adjourn, Jim seconded the motion, and it passed. This closed the meeting around 11:30 a.m.
