 RE: INGRAM DITCH

DEAR MR. CARLSON:

ENCLOSURE FIND COPY OF MR. SARGENT'S LETTER TO JOHN CLEMMER DATED 11/19/96. THANK YOU FOR MEETING ME THIS THURSDAY 12:30 SKILLY RD. & TRAIL CREEK. THERE IS A SOLUTION, AND IT IS PRACTICAL, REASONABLE, AND RESPONSIBLE.

AT HIGH WATER, THE LIST RIVER CARRIES SUCH A VOLUME OF WATER DOWN THE DITCH, THAT IT IS WAY IN EXCESS OF WHAT SUBSISTERS CAN HANDLE (900') OF THE DITCH AT MY PROPERTY.

THE HEADGATE (DIVERSION) AT START OF LIST RIVER OUT OF DITCH DOES NOT MOVE, BUT HAS TO BE KEPT OPEN BY WATER RIGHTS HOLDERS & ON 125.

THERE IS A NATURAL PLACE FOR A HEADGATE BELOW WHERE THE WATER COMES OUT OF THE RIVER, BUT WELL ENOUGH ABOVE MY PROPERTY, SO THAT VOLUMES OF WATER COMING OUT OF RIVER CAN BE CONTROLLED, AND AT SAME PLACE ABOUT 90' BELOW WHERE WATER IS TAKEN FROM RIVER, THERE IS A NATURAL RETURN TO RIVER OF ANY EXCESS WATER. THIS IS WELL BELOW DIVERSION FROM RIVER.

WITH THE CONTROL OF VOLUME OF WATER COMING DOWN THE DITCH, THE TROUGH WOULD BE CONTROLLED ABOUT 90' FROM WHERE DITCH COMES OUT OF HEADGATE.

THIS SOLUTION IS WHAT I WISH TO SHOW YOU.

THE OWNERS OF WATER RIGHTS + USERS KEEP & MAINTAIN THIS DITCH & MAINTAIN HEADGATE YEARLY & CLEAN IT OF OBSTACLES AT POINT OF WATER COMING OUT OF LIST RIVER - IT SEEMS THAT IT IS REASONABLE & RESPONSIBLE TO CONTROL VOLUMES OF WATER IN DITCH FROM A POINT MUCH CLOSER TO RIVER (WHERE IT COMES OUT) AND CONTROL VOLUME OF WATER IN DITCH, IN SUCH A WAY THAT WATER IS DELIVERED, THERE IS NO WASTAGE, AND MY PROPERTY IS FREE FROM A WILD DITCH ABOVE MY PROPERTY, AND MILD WATER INUNDATION IN SPRING RUN-OFF.

LOOKING FORWARD TO MEETING YOU THURSDAY I WILL BRING PHOTOS.

THANK YOU

Ric KENDALL
