STEVE BURRELL

ROTATION INTO THE RESERVOIR

UTILIZE EXIST AS ROTATION FOR MITIGATION.

PEOPLE ABOVE RESERVOIR - IF THEY SHUT OFF  
FOR A FEW DAYS, CAN THEY USE THAT  
WATER FOR MITIGATION. SIMILAR TO  
WATER BANK CONCEPT.

COMPUTATIONS FOR  $\frac{1}{3}$  &  $\frac{2}{3}$  PERIOD, COMPUTATION  
STARTS AT PERIOD WHEN 1905 RIGHTS  
ARE NOT DELIVERABLE. REQUEST FOR MITIGATION

1905 RIGHTS GO OFF - START PERIOD THEN?

IF PRE-1905 RIGHTS IS NOT ON, BUT  
MITIGATION IS OCCURRING, AND PRE-1905  
RIGHT CALLS FOR WATER PRIOR TO

IF GILLOAF IS IN "BANK"  
FUTURE CALL NEGATES THE NEED TO  
MITIGATE. DON'T HAVE TO PUMP GILLOAF OUT

IS DEPLETION TO RIVER DUE TO GW PUMPING  
OR LACK OF RECHARGE?

GILLOAF IS MITIGATION FOR DEPLETION  
JUST AT RESERVOIR? SEE EP. 04 & 0.111

WD 34

12/14/04

3

SEPTAGE LOSSES (SHRINK) DOESN'T COUNT.

D. NELSON - I'D LIKE SOME PEOPLE TRYING TO PUT TOGETHER A PLAN.

COY - 80% AGREE TO MITIGATION PLAN, WHAT HAPPENS TO 20%

GILD → BASIN WIDE PLAN  
13% → INDIVIDUAL PLANS  
OF TOTAL  
PREVIOUS YEARS.

THE HOW IS HARD TO KNOW WHAT.  
THE CORRECT DECISION IS WHEN IT'S  
NOT AROUND.

LOE - WHAT WOULD GARD'S MITIGATION PLAN BE?

GARD - STORAGE WATER IS BEST OPTION  
RECHARGE, STORAGE CREDIT FOR RECHARGE  
GILD - BLOCK IN RESERVOIR.  
HOW TO GET WATER IN RESERVOIR  
- NEED TO SELL WATER THROUGH IRRIGATION DISTRICT.

BLRID - CAN ONLY DELIVER WATER WITHIN DISTRICT.

BLRID - ABILITY TO PUT WATER IN STORAGE  
ID. HOLDS WATER IN STORAGE FOR WATER USERS  
ID. CAN'T MAKE DECISION ABOUT STORING  
I.W.B. CAN SET UP WATER BANK FOR  
ADVISORY COMMITTEE TO RUN 10% FEE TO  
WATER BOARD. CURRENT RATE \$10/AF.

CREP PROGRAM - DON'T GO THERE.

HOW MUCH WAS BOUNDED LAST YEAR (2004)  
IF 2x 47,000.

\* GILD OR 13% OF LAST YEARS VOLUME  
AS TOTAL AMOUNT.

MITCH SORENSEN

HARVEY WALKER

QUESTIONS FOR CLERK:

1. ROTATION CREDITS - CAN BE USED FOR MITIGATION - YES
2. NATURAL FLOW IS ROTATION CREDIT  
IMPOUNDED WATER IS NATURAL FLOW
3. NATURAL FLOW ANYWHERE; CAN USE IT; THEN DEDICATE TO MITIGATION? THEN USE IT AGAIN. DIRECTOR CAN DO IT; BUT NOT THRU WATER BANK.
4. RELEASE PATTERNS: RULE GOOD AS IT STANDS; BUT NEEDS TO BE SOMEWHAT FLEXIBLE, OR DEVIATION.
5. FLOW RELEASE TIMING OF \$110 AF  
CONTINUOUS RELEASE, 1/3 2/3 RULE MAY
6. CONTINUE TO MITIGATE ONCE THE RIVER IS FUTILE? NO
7. MUST BE PUT IN RIVER AT RESERVOIR? NO
8. ANY ELIGIBLE WATER IS CONSIDERED TOWARDS 13% MITIGATION
9. ONE PLAN? → 6110 AF?  
2 OR MORE PLANS → 13% OF PREVIOUS YEAR
10. LOS PERSONS PLAN IS PAID.  
BOTH DOORS ARE OPEN.
11. DIRECTOR DOESN'T NEED TO BE DIRECTLY INVOLVED.
12. I.D. OWNS STORAGE RIGHTS, NEEDS TO BE CONSULTED.  
EASTSIDE BELONGS RIVER: IN TIMES OF SCARCITY.

(3)

STORAGE IS BASED ON DEGREE  
WATER RIGHTS IS APPURTENANT TO LANDS.  
CAN BE SOLD TO NEIGHBOR

10 OR 12 PEOPLE REPRESENTATIVE OF  
PLANS SUBMITTED - SUGGESTION -  
THESE PEOPLE MEET W/ IDWR  
IDWR MUST BE MODERATOR OF COMMITTEE

SUBMITTED PLANS - <sup>TO</sup> NOT DISTRIBUTE TO  
PUBLIC UNTIL THOROUGHLY VETTED BY  
SUBMITTER'S TO IDWR - PREVENT  
REACTIONARY

[ PROTECTION OF SENIOR WATER RIGHTS  
INSTRUCTIONS TO WATERMASTER NEED TO  
BE GIVEN BY IDWR TO THIS EFFECT ] IS DONE

KING  
STEVEN GALT 100% PARTICIPATION IS  
ESSENTIAL

2005 - MITIGATION WILL BE REQUIRED  
- ASSUMED AUTOMATICALLY :: NEED  
THE GLOAF

LAST RESORT: USE OF GROUNDWATER

RECHARGE - DEFINED AS QUANTITIES  
ADDED BACK TO AQUIFER.

DECREASED ACREAGE - EFF. - IS POSSIBLE OPTION

|                 |                |                    |
|-----------------|----------------|--------------------|
| STEPHEN B. KING | → LOSS PLAN \$ | REVISE 2004        |
| " K. KING       | → DIDN'T PAY   | MIT PLAN LIST - 05 |

\* WHAT % OF USERS MAKE UP A "QUORUM"  
FOR BASIN WIDE MITIGATION PLAN.

\* WHAT DO WE HAVE FOR ESTIMATION  
OR RECHARGE TO GW TABLE

2 CARMOR.

BLID - NEEDS

- MECHANISMS FOR GETTING IT RELEASED. GROSS & STORAGE WATER.

\* SUPPLEMENTAL WATER FROM WELLS  
USED 2 WEEKS AT END OF SEASON; AUTOMATICALLY  
GETS 13% CHARGE?

G110 <sup>AF</sup> MITIGATION RELEASE TO  
RIVER <sup>FROM</sup> RESERVOIR

\* NO BENEFIT TO 1983 USER POSSIBLE  
BECAUSE OF SHRINK TO THE  
G110 <sup>AF</sup> RELEASED

FLEXIBILITY NEEDED TO DELIVER  
G110 TO AVOID WASTING WATER  
NEAR FUTILE CALL.

PRIOR TO JAN 11, 2005 - STEVE WILL  
DETERMINE FEASIBILITY OF USING GW LEVELS  
AS BASIS FOR CURTAILMENT OF C.W.  
INVOLVES WATER BALANCE & CORRELATION  
WITH HISTORIC GW LEVELS.

### DEFINITIONS OF IMPORTANCE:

STORAGE = WATER HELD IN RESERVOIR UNDER  
B.L.R.I.D. STORAGE RIGHTS

STORED: NATURAL FLOW HELD IN RESERVOIR  
UNDER THE ROTATION CREDIT  
GENERAL PROVISION.

# ROSTER OF ATTENDANCE

## MEETING OF THE WATER USERS OF WATER DISTRICT 34 FOR THE FORMATION OF 2005 MITIGATION PROPOSALS

December 14, 2004  
Beginning at 7:00 p.m.  
Conducted by Gary Spackman  
for the Idaho Department of Water Resources
